AV 5781

August 2021

PLEASE NOTE:

I want to make it very clear that I don't have any agenda other than saving lives. I make no profit. To the contrary, I use my own money to spread lifesaving awareness. This book is the outgrowth of my love and caring for Klal Yisrael. I am unable to sit by and watch as the lives of my brothers and sisters are endangered.

I am not "anti-vaccine." My children are vaccinated with the regular shots.

The CORONA "vaccine" is NOT a real vaccine. It's CALLED a vaccine to make you FEEL SAFE, because you trust vaccines. But it *isn't* a vaccine. It's novel genetic therapy.

A traditional vaccine takes a weakened or dead bit of virus and puts it in the body to create an immune response, thus stimulating antibody production to have in store for when the person may be exposed to the live virus in the future. **Calling these new injections "vaccines" makes people feel safe, but there's nothing traditional about them.** A genetic code is injected into the body, instructing all one's cells to produce the corona spike protein.

IN THIS BOOK, I USE THE TERMS "INJECTION" or "SHOT" instead of "vaccine" for the sake of accuracy (unless the word vaccine was in a direct quote).

This shot presents unique, grave dangers, which are being hidden from the public. Tens or hundreds of thousands have already passed away worldwide after these shots, and millions have experienced terrible side effects. Pregnant women are experiencing fetal death and people of all ages are hemorrhaging or experiencing blood clots and more.

Please read this book to become better informed, and watch these community education events:

If your employer is threatening that you cannot work if you do not receive the corona injection, you should know that this is illegal. You can get free legal help by going to freedom@icandecide.org.

If you find this information to be useful and beneficial for others, feel free to reprint and share in any way. May Hashem protect us all and send a healing to all of Klal Yisrael, and a complete salvation with the coming of Mashiach bimheira b'yameinu.

The Sassover Rebbe recently related that in 5740 he discussed an important medical issue with Rav Elyashiv, zt"l, for two full hours. In the middle of the discussion, Rav Elyashiv suddenly remarked: "How can one take achrayus to administer shots that have only been on the market a year or two? What will happen if after some time someone will become injured from it?" The Sassover Rebbe then stated: "This was said about something that was on the market for a few years already, and it was used in half the world. Thousands of doctors worldwide were involved in it. [This was] not [a product] that was just a few weeks old, and [produced] by just a few companies. And about it he said: 'How is it possible to take achrayus?' It is forbidden to take it b'shum ofen ba'olam."

From the words of Hagaon Rav Yosef Binyomin Vosner, shlita, Rosh Yeshiva of Yeshivas Chachmei Lublin, the son of Hagaon Rav Chaim Meir Vosner, zt"l, and the grandson of Hagaon Rav Shmuel Vosner, zt"l:

"It is forbidden to keep one's mouth closed from informing people what they need to know... A doctor who hasn't studied and investigated many, many years the subject of viruses – and not just that – a doctor who didn't study and research many years the components of vaccines and their effects, can't express his opinion on the topic of the vaccine. It's like an eye doctor or reflexologist who expresses his opinion on whether to do open heart surgery or not... The entire concept of asking a doctor is foolishness. All vaccines go through a minimum of 5-10 years of testing and experiments. This vaccine barely passed 6 months of testing because it's supposedly 'an urgent situation' – and therefore the process of the tests and experiments, etc., were all done using short-cuts..."

When asked about the corona injection, Hagoon Hatzaddik Rav Yaakov Meir Shechter, *shlita*, responded: ***“My opinion is that one should not take the corona vaccine b’shum panim v’ofen.”***

Hagoon Rav Elya Ber Wachtfogel, *shlita*, Rosh Yeshiva of South Fallsburg:

“B’shum ofen (under no circumstances) should a boy or girl take the vaccine. It is suicide.

“If they want to fulfill the mitzvah of P’ru Ur’vu they should not think of taking this vaccine.”

When the Amshinover Rebbe, *shlita* [who is widely known for his expertise in the medical field] was asked about the corona shot, he replied: ***“These vaccines contain chashashos noraos and one must greatly distance himself from them! It is a great mitzvah to make this issue clear to the Rashei Am Kodesh so that they should know the chomer ha’inyan and the danger which it contains, Chas v’Shalom.”***

Hagaon Rav Moshe Mordechai Karp, shlita, Rav, Kiryat Sefer: “ ...However, a few weeks have already elapsed since people have taken the vaccines, and it has become known to us many horrific cases of previously healthy people who took the vaccine and were very harmed afterward, and some even died, *rachmana liztlan*...and certainly whoever possesses any intelligence, will not entertain the thought of taking these vaccines, but rather will abstain until a longer time passes, and the effects and outcomes are seen...”

CRITICAL INFORMATION:

IF YOU ARE FEELING AN INTENSE PRESSURE TO VACCINATE IN YOUR COMMUNITY, PLEASE BE AWARE THAT THERE IS LIKELY ANOTHER REASON FOR IT, WHICH ISN'T COMMON KNOWLEDGE: THE FEDERAL GOVERNMENT HAS GIVEN LOCAL HEALTH CENTERS MILLIONS OF DOLLARS TO PROMOTE THE INJECTION TO THEIR COMMUNITIES, UNDER THE AMERICAN RESCUE PLAN. CHECK THIS SITE TO SEE HOW MUCH MONEY YOUR LOCAL CENTER HAS RECEIVED FOR THE PURPOSE OF PUSHING THE INJECTION ON YOU:

**(Do you notice the government handing out Vitamin D, proven in studies to drastically reduce ICU admittance and death from Covid, or giving a penny toward other proven preventatives and early treatments?
Quite the opposite...)**

CHECKLIST FOR INFORMED CONSENT: LOOK BEFORE YOU LEAP

Address of Rav Yosef Zalman Bloch, *shlita*, Rav of Lakewood Minyan [Monsey] and Rosh Kollel Eitz Chaim

Let me begin by saying that I am far from being an anti-vaxer. In fact all my children B"H have all the injections. In fact, my policy for *mosdos* that asked me has been that they are entitled to insist that children be vaccinated in all of the old-fashioned injections. So my position is not anti-vax. I am now speaking specifically about the new COVID so-called vaccine. Let me begin by saying the following; I don't really need to add to the discussion. Anybody who will study the subject intensely, who will do his own research, will see the truth, and will have such a *pachad* that there will be no discussion necessary. *Sy* [both] *mi'tzad* the *mitzius*, it's horrendous and frightening what's happening right now, and also what *ch"v* could happen in the next few years.

Benefit vs. Risk

The benefits of the injection are *mamash* a joke. *Baruch Hash-em* without the injection things were fine. The entire *matzav* had subsided and everything was on a good *matzav*. For people below age 70, they said the recovery rate was 99.98 [without any treatments], and there was very little *sakanah*. All of a sudden now they are pushing the injection, not *stam*. I don't remember in my lifetime such a huge push of propaganda non-stop to get people to take it. That itself should show you something is fishy, something's wrong here. And they're pushing it even on children. One of the biggest *chasdei Hash-em* was that children were completely absent from the picture. *Baruch Hash-em* children didn't get it. Now they want to push the COVID injection on children. Why?

Fake News

Now as I've said there is nothing to talk about, it's not necessary to discuss this; if you do your research, you'll find the truth yourself. The problem is that the *frumme oilam* gets the newspapers, and they see a report from Associated Press, CNBC, Reuters, CBS, and they think they have the information. However, all the *frumme* newspapers get their information from the mainstream media. So they're just regurgitating all of the *shkarim* that are coming from all of the *goyishe* sources, without any kind of information about the truth, or what's really happening. Now, the *frumme oilam* doesn't realize the amount of propaganda that's being hoisted on the world. There is immense power that is being used right now to convince people to take this so-called injection. And people are unaware of the truth. Now, of course, many people have a vested interest in pushing it, and there are many *temimim* that haven't learned to mistrust the *sheker*, and they feel that if you're against this injection you must be a prehistoric creature that doesn't understand what's going-on in the world, and you don't understand the necessity for an injection. But that's not the truth.

Real News

What's happening is that in Eretz Yisroel they are having admissions of five hundred people a day [per] hospital. The doctors say they can't talk; if they open their mouth, the government will take away their license, or worse. There is a terrible *milchamah* going on; they want to push this injection. The dangers are *o'yom v'norah*. I'll give you another *hochachah* how much *sheker* is going on. There are two 100% safe medications that help with corona, *baduk u'menusah*. One of them is hydroxychloroquine, the other one is ivermectin. The government has fought bitterly to prevent them from being used. They were previously easily accessible medications. Today it's difficult to get them because the doctors are afraid to prescribe them. Why? Because they cure corona. Why did they take away the medicines? The answer is that they wanted to push the injection. So this is not some conspiracy theory, it's a *metzius*. You can see with your eyes what's happening. Doctors who have spoken up have lost their practices,

and they're being *rodef* any doctor who wants to speak out about his experience. A doctor puts a short video online telling people to watch out because of his own experience, and it's taken down within ten minutes. There's a huge *milchamah* going on.

Aaay the Doctor

The problem is that the *frumme oilam* used to be the savviest, smart, on-the-ball *oilam* in everything that's going on in the world. Our *oilam*, the *chareidim*, were ahead of everyone else in understanding what's going on. Now the *frumme oilam* has become *mamash tipshim*, they don't know what's going on in the world. Their family doctor tells them to take this injection, and they take the injection. They don't understand; your family doctor has no *ne'emanus* on this topic. A doctor called me and asked me, "Why are you telling people not to take the injection?" I said, "Because it's poison." He said, "Don't you understand, they made a big *chiddush* over here." I told the doctor, "A *chiddush*, you're telling me a positive point? You're going to inject millions of people with a *chiddush*?!" I told this doctor, "I want to tell you something Doctor; I'm not calling you a liar, but every single person you're relying on, all the way up the chain, including Dr Fauci, are lying. They're all lying. And you're telling people to take the injection. What are you afraid of that you have to tell people to take the injection, of losing your license?"

K'chomer B'yad Ha'yotzer

The most prestigious medical magazines in the world, *The Lancet* and *The New England Journal of Medicine*, were the most reliable peer reviewed medical journals. They printed articles that were total garbage and lies against hydroxychloroquine. For the first time in history, *The Lancet* had to retract a previously printed article, *ah shandeh v'charpah*. Why did they print it? They printed it as part of the propaganda. Now this is the point; it is not necessary for me to convince you. If you do your research, you'll be convinced long before you're finished. You'll be horrified long before you're finished. The only thing I have to tell you is: DO YOUR RESEARCH! Don't let someone inject you, your father, and your children with some kind of a stuff that you don't know anything about. Your family doctor has no *ne'emanus* anymore. You have to do the research yourself. With this so-called injection, *zul der Eib-ishter upheeten*, there are some people die as soon as they get it. Some people die two weeks later. If they die two weeks later, right away the story is: "Oh, who said it was from the injection? It's normal for a 12-year-old child to die two weeks later. It's normal for a 40-year-old person to die a few weeks later. Who said it has to do with the injection?" *Olam hafuch!* By COVID if someone died six months later from a traffic accident, it was because of COVID. But if someone got the injection and lasted fifteen minutes before he keeled over, they say, "Who said it was from the injection? Maybe it was something else." *Sheker, sheker, sheker, sheker, sheker.*

A Grounded Decision?

People tell me, "I have to take the injection because I want to go to Eretz Yisroel." Are you crazy? Is it worth taking a chance with your life to go to Eretz Yisroel? Again, this is not an injection. This stuff is terrible, terrible, terrible. What it's doing to people is *o'yom v'norah*. And what scares me the most is that there are serious *chashashos* that some people may not be able to have children after taking this injection. It's *nogeyyah* right now; women are having very weird, weird kinds of problems that have never been experienced before. One who wants to be *shomer nafshoh* should be *yirchak mei'hem*. Do not go near this injection. Be very, very careful. It's absolutely forbidden to take this injection, *assur b'hechlet*. Do your research, and you'll see I'm right. *Hash-em yishmireinu* and the *Eib-ishter* should quickly send a *refuah shleimah* to all the *cholei amo Yisroel*.

Dear Reader,

As you go through this book, which has taken months of effort for the sake of the Klal, please be so kind as to bear the following in mind:

I put in a tremendous amount of time and energy to see to it that all the information brought to you should be solid and presented accurately and truthfully. However, since I am only human, it is possible that an error could have crept in. I ask that if you come across something that you feel isn't substantiated, is wrongly evaluated, or misinterpreted, please do not hesitate to let me know so that I can revisit it for the next time. But please don't discredit all the information here because of something you feel may be off; rather, please take everything in and then evaluate the picture as a whole. The same goes for any sources that you may not have an affinity for. For example, some people just want to know the dangers of the shot. Others question how the government could be allowing such a thing. We provide answers, but if they are too much for you to swallow, please do not let that detract in your eyes from the veracity of the information about the dangers of the injection.

I **wish** that I could say who I am, as many wonder, but just look around and see what is happening in the world to anyone trying to inform people of these dangers. If you don't yet know, I'll tell you. They are harassed, "cancelled," receive death threats, and occasionally, even worse. The lack of an author's name on this book shouldn't make a difference because you shouldn't be relying on me anyway, but on YOUR OWN BRAIN that Hashem gave you, to do research and think critically. I am just giving you food for thought that can help you draw your own conclusions. Please look up the sources provided.

You might be wondering how it is possible that you may have never heard any of this information before, and why you don't find these things on any of your news sources. Well, the censorship is **unprecedented** here, and heavy pressure is applied to make sure that your regular sources won't let you know this. For example, can you believe that there were protests on the streets of countries in Europe, with hundreds of thousands of people protesting Covid injection coercion, but they didn't get **any coverage in the media**? So obviously, they are purposefully withholding information.

If you try searching with Google, pages containing such information do not exist (some of the links in this book may have been removed as well!), and Facebook, YouTube, and Twitter are also aggressively waging a war against free speech. When looking for this information online, instead of showing you the material, you may be bombarded with articles saying things like the information you are looking for "has been shown to be false by independent fact checkers." Please be aware that these fact checkers are **anything** but independent, and they are heavily funded by people looking to promote one narrative and discredit all the others. They should not be viewed as having a monopoly on the truth. Please try doing your own fact checking.

You may also see things like "experts have said..." but please look for **yourself** to see what experts say, and **use critical thinking to decide who qualifies as an "expert."** **Be aware that many of those branded as "experts" have tremendous financial interest in promoting the injection, and that financial interest may be well hidden from the public eye.**

If you come across statements saying that a certain doctor or scientist has been accused of saying things that are “anti-science” and therefore their words are not to be considered, realize that the fact checkers don't have such expertise in science to make such statements. Rather, I ask you to try looking up for yourself the bio and history of the scientists and doctors whom they are accusing. Often, you will see that up until the point that they said something unacceptable to the establishment, they were considered highly acclaimed and were relied on by those who are discrediting them now.

Some of you may wonder or feel upset that this information is only coming to you now, when many of you may have already taken the injection. I and many others were actually working for months to inform people as well as try to unsuccessfully get material into publications, but it was decreed from Above that despite all the efforts of many people trying all they could to spread awareness far and wide, it only reached so far, and sadly many just took the injection unknowingly. The cost to get these materials printed and distributed, if you are holding a hard copy in your hands, has been many tens of thousands of dollars, and until Hashem sent the money, we did not have the capability to disseminate the message widely. The reason we still believe it is crucial to inform you, even if you took the injection already, is because you likely have children who did not get the injection as of yet (or maybe they didn't get the second dose), and they matter no less – and as children's bodies are still in the developmental stages, the injection may pose an even greater risk to them than to adults (unlike Covid, which poses no risk for children). **Additionally, and this is CRUCIAL, booster shots are being planned, and you need to know to stay very, very far away from them as they may likely be even more dangerous than the original injections. If you only got one shot already, PLEASE, stop where you are. There are some doctors and healthcare practitioners who are able to provide some treatment for some of the adverse effects many experience after the injection, but their ability to help is MUCH more limited after an individual has taken both doses, and many people experience a bad effect only after the second dose.** Whatever you have ALREADY TAKEN, you should rely on Hashem to protect you, but for the FUTURE, you should stay away from the shots with your life.

Although this booklet is written in a way that is geared toward a Jewish audience, I want the message to reach the rest of the world as well because all lives matter. So please share material with any non-Jewish contacts you may have as well.

You may have come to believe that even if you don't want to take the injection, you really don't have a choice because of your job, school, travel, or whatever else. The truth is that you always have a choice – but you have to decide what your priorities are and what you are ready to sacrifice. Yes, many people will be having to make tough decisions, but no matter how difficult it may be – you will not regret sacrificing for what you believed was the right thing. But if you give in to tyranny for an immediate relief – no matter how important it may seem at the time – what is done is done. There is no going back on this toxic shot.

A note about the stories that we have collected. Some might ask – how do you know this was connected to the injection? Perhaps it was coincidental? These things are bound to happen anyway to

some...and the media report or the doctor said that they don't see any causality between the injection and the incident...

We need to understand that no human being, including the greatest scientists, can fully know how different people's bodies will react to new substances put into them. If they would be able to predict it, then we would never need years' long studies! The scientists could just assess what will result and that's it. Obviously, it doesn't work that way.

And the way a study is meant to work is that every incident is documented, even if it seems completely unrelated, and then we evaluate and compare to the double-blind placebo. Additionally, even after long-term studies, many things were only **afterwards** found to have negative effects (and then pulled from the shelves).

So you are right – we may not know for certain if something unusual that occurred was actually a result of the injection, but since it is still in the stages of being studied, no one has the right to say that it *wasn't* a result of it. The extremely high rate of “coincidences” in which people get blood clots, have strokes, contract an autoimmune disease, or suddenly die, etc., after this injection is off the charts, and bears no comparison to previous injections. Taken as a whole, these cannot realistically all be coincidences. **These very types of adverse reactions are exactly the ones that many scientists and doctors warned of in advance, and which even appeared on the FDA's list last fall of 22 possible side effects of the shot.**

Please try to take a step back and think for yourself: If, in a different situation, without any of the hype and pressure that is happening now, a new product came on the market under emergency use authorization, and you started hearing stories of just a few people who took it and shortly afterwards had unusual negative occurrences, would you start asking, “Well, who said it was from that?” or would you say, “I don't know, something looks strange. I'm not going to run for this...”?

Many of you might say, “Well, even if all these stories are true, since all the people I know who took the injection are fine, I don't need to worry about it.” Again, take a step back and think how you would react in other circumstances. For example, if you would hear stories of child kidnappings taking place in a certain neighborhood, but all the people you know in that area weren't among the victims, would you let your child walk around there alone because the people you know are fine? Or would you say – “I know stories are happening; I don't know how often, but as a responsible parent, there is no way I'm letting my child go there until a very long time passes without incident.”?

And just to be clear, the real dangers that the scientists and doctors are warning of are not expected to happen right away, but further down the road (which will make it less likely for people to make the association, and will possibly give the media and the others a way to excuse it and just blame it on a new deadlier variant that necessitates another dose...). The stories that are happening now just prove that there must be some harmful material in it, because if you would be giving out apples to millions of people you are probably not going to start hearing loads of stories (**even** if they're only happening to a very small percentage of those who ate them) of totally healthy people shortly afterwards getting blood clots or heart inflammation! Neither would you be seeing a large percentage of the people around you who got it (which everyone can attest to) not being able to function for a couple of days

afterwards (at a much higher rate than other injections). So if there is something evidently harmful in this, that is all the more reason to be suspicious about what can happen down the line (since, as explained, it takes years to see how immune systems react).

ARE YOU PLANNING TO GET THE COVID SHOT?

CHAPTER 1: DO YOU HAVE THE WHOLE PICTURE? THE TRUE CAUSE OF DEATHS, SUPPRESSION OF EFFECTIVE TREATMENTS, AND AN AGENDA

When we are faced with a potentially life-altering decision, we typically try to investigate as much as possible and thoroughly hear from all the sides. This is so even for an issue that isn't one of life and death, but only financial, like buying a car or house. We (hopefully) invest even more in our decision-making process when a serious medical question is involved. Yet somehow, in the push to get the injection, we are being persuaded to simply turn off our minds, blindly follow a one-sided narrative, and jump off the cliff.

The media is helping this along by covering only what is "politically correct" and suppressing the rest.

Here, I would like to present some other facts to you that you may not have heard until now so that you can hopefully start to think about this important decision from a broader point of view.

I have been trying to learn the truth about corona, and its prevention and treatment, for the past year. *Baruch Hashem*, I have been *zocheh* to join a group of volunteers worldwide who guide people in accessing safe and effective early at-home treatments for corona. As such, I have amassed much information. *B"H*, I have been able to help many people, and I have knowledge to share that many others aren't yet aware of.

There is a tremendous amount of propaganda being spread to push vaccination. I want to begin by stating emphatically that NO ONE dies "from not getting the injection," as the propaganda that is going around claims. People do sometimes die from LACK OF PROPER EARLY TREATMENT of corona. I will explain this, *b'ezras Hashem*.

Let's start by asking how deadly corona is. We are told that it's very dangerous, and that's why we must get vaccinated against it. Indeed, we all know people who have passed away from corona. Some of us, including my family, have lost dear friends and relatives.

But I want to challenge the idea that the people we know died "from corona."

They didn't die from corona. Unfortunately, they died either from lack of proper treatment of corona, or from other neglect or improper treatment at the hospital. (And others, as I will explain shortly, may have falsely been labeled as dying from covid.)

There IS excellent treatment for corona. Hydroxychloroquine (HCQ), plus zinc, and antibiotics if needed, with Vitamins D and C, **works!** Despite all who try to badmouth HCQ, the expert doctors who

use it the right way have seen **almost 100 percent cure rate** with HCQ, no matter **the patient's age or risk factors**.

By the end of last fall, there were 195 peer reviewed studies showing that HCQ is effective in treating corona. Perhaps that is why the American Medical Association quietly retracted their advice against using hydroxychloroquine on October 31, 2020.

Even without zinc and azithromycin, HCQ was 65% effective on average. Given with zinc and azithromycin, it was 85%+ effective if given within 3-5 days. *Many private doctors, though, such as Dr. Zelenko, find an even higher cure rate of almost 100%, when using it on patients in their practices.* I personally know a woman who works in a **local doctor's office that has been treating their patients **with HCQ since February 2020**. She testified to me that they have only lost one patient to corona, and that was in the beginning, before they were aware of the need to use blood thinners. **Since adding blood thinners to the HCQ protocol, they have seen every single Covid patient in their practice survive, Baruch Hashem.****

What were the two negative studies that everyone talks about? One was the fake study published in *The Lancet* (more about it later), which the esteemed journal had to retract after two weeks because so many doctors contacted them to complain that it was false. (It was; it used totally made-up data – supposedly from 90,000 patients spanning various continents. If you would like to see that retracted study, I have it.) Tragically, the *motzei shem ra* did its trick, and doctors and laymen alike STILL quote the discredited, false study as “proof”!

The second negative study was published in the *New England Journal of Medicine*, and was even more criminal because it involved giving TOO-HIGH DOSAGES OF HCQ, KNOWN TO BE LETHAL, to patients who were already deathly ill at a Veteran's Hospital.

Dr. Harvey Risch, Professor of Epidemiology in the Department of Epidemiology and Public Health at the Yale School of Public Health and Yale School of Medicine, said that 75,000–100,000 of the 160,000 Covid deaths would have been prevented if the patients had received hydroxychloroquine. He also mentioned that many doctors are being stopped from prescribing HCQ because of corruption, the retracted study, and how the media is suppressing news of its efficacy. See Dr. Risch speak about HCQ at <https://www.youtube.com/watch?v=dXC6PVGHJzA>

As wonderful as HCQ is, ivermectin works even better. Possibly this is because ivermectin fights corona by **seven different mechanisms** (hydroxychloroquine has four). Ivermectin has awesome

potential because it helps even at advanced stages, and also, often alleviates “long-haul Covid” as well. See <https://covid19criticalcare.com/> for lots of information proving the safety and efficacy of ivermectin for treatment AND prevention of coronavirus. See <https://c19ivermectin.com/> for **dozens of studies that prove ivermectin works!**

If you are wondering about ivermectin’s safety, know that it has been in use around the world for forty years, is over the counter in many countries (like HCQ), and is safe in babies starting from 6 months of age. In its four decades of use, only 16 people have died from ivermectin, while 500 die from Tylenol each year.

The lies that that have been told about the early at-home treatments have likely killed 500,000 people, says Dr. Pierre Kory, as HCQ and then ivermectin have been suppressed, vilified, and mocked...but the true studies show that they DO work! In the following article and video, you will get all the proof that you need, as Dr. Kory attests to the efficacy of ivermectin in preventing corona and treating it at all stages. You will learn that there have been a total of 56 trials involving 469 scientists and 18,447 patients, and 28 of these were the “gold standard” RCT trials. There was a 78% patient improvement when administered early, 46% when administered late, and a 74% improvement in mortality. Dr. Kory says that it is “literally criminal” that data on ivermectin has been suppressed, costing half a million lives. See <https://www.worldtribune.com/literally-criminal-suppressing-data-on-ivermectin-cost-half-a-million-lives-doctor-charges/> <https://covid19criticalcare.com/videos-and-press/the-whos-denial-of-ivermectin/> <https://c19protocols.com> https://www.thedesertreview.com/news/national/ivermectin-obliterates-97-percent-of-delhi-cases/article_6a3be6b2-c31f-11eb-836d-2722d2325a08.html https://www.thedesertreview.com/opinion/letters_to_editor/ivermectin-wins-in-court-again-for-human-rights/article_98d26958-a13a-11eb-a698-37c06f632875.html <https://covidcandy.net/coronavirus/how-to-kill-a-cure-the-war-on-ivermectin/> <https://dominantoday.com/dr/covid-19/2020/09/29/doctors-cure-6000-patients-with-covid-19-with-ivermectin/>.

An **anticoagulant** such as aspirin and an **anti-inflammatory** are also **extremely important** in any covid treatment protocol.

Another amazing corona treatment is miraculous, over the counter **enzymes** (more about them later) that are anticoagulatory and can raise a patient’s oxygen level in a matter of hours. Plus, the enzymes fight the virus by dissolving the biofilm around it.

Such a simple thing as having adequate blood levels of Vitamin D3 was found in studies to lower the risk of ICU admittance or death from corona by more than 90%.

For example, in this randomized, double-blind clinical trial of 76 patients with Covid-19, of the 50 who were treated with Vitamin D, only 1 went to the ICU, and none died, but of the 26 who did not take Vitamin D, 13 went to the ICU, and 7.6% died. See <https://doi.org/10.1016/j.jsbmb.2020.105751>.

ONE OF THE GREATEST RISK FACTORS for severe corona infection, complications, and death is low Vitamin D levels. Why didn’t anyone tell the American public to take Vitamin D? Why do blood tests during annual check-ups not automatically test for Vitamin D?

Adequate Vitamin D can also virtually cut in half one's risk of catching corona – based on data from almost 200,000 patients in the U.S. People with Vitamin D blood levels of at least 55 ng/ml had a 47% lower Covid positivity rate than those with levels lower than 20 ng/ml. See “Vitamin D and COVID 19: The Evidence for Prevention and Treatment of Coronavirus.”

<https://m.youtube.com/watch?v=ha2mLz-Xdpg>.

Hashem actually prepared the *refuah* before the *makkah*. **Contrary to what the media wants us to believe, there are a number of effective treatments!** There are even herbs that work wonders to kill the virus, such as artemisia, which some people use in Israel with great success. In summary, *Baruch Hashem*, we **KNOW HOW TO TREAT CORONA!**

(I'll take this opportunity to try to **save lives** by telling you that there are **organizations** that are staffed by **expert volunteers who can guide people to access doctors who will prescribe the appropriate medications**. They also can guide people in taking the right doses of supplements along with them. These volunteers have helped untold numbers of people to avoid hospitalization or worse, *chas v'shalom*. **Corona needs to be caught early. At the first sign of any symptoms, don't wait.** Call either Save-A-Life at 845-444-2619 or Somech at 212-419-8189. These organizations can also guide you to successful treatments for long-haul covid.)

It bears repeating, and the volunteers see this every day: Nobody has to get very ill. Nobody has to die. Even an elderly patient or one with risk factors will most likely be absolutely fine – if they start treatment immediately upon developing symptoms. **IT IS ALSO CRITICAL TO NOTE THAT WITH PROPER EARLY TREATMENT, PEOPLE FULLY RECOVER AND DO NOT EXPERIENCE “LONG-HAUL COVID”** (which so many are fearful of, and which is being used as a rationale for pushing the injection in young people).

Of course, if high risk, one is better off using the medications as **prophylaxis**, to avoid getting sick in the first place. **There are highly effective prevention protocols** consisting of either ivermectin or HCO, plus zinc, D, and C, and in fact, these regimens are **much better** at preventing corona than the “injection” is. If someone has been vaccinated, it is all the *more crucial that they do the prophylaxis regimen*, because the injections are not only *not* preventing covid, but are shown to be putting people at a higher risk for severe disease and death. (See sources further on.) Contact the above organizations if you need help finding a doctor willing to prescribe.

Why are these safe, effective treatments, and preventative medications being suppressed by governments almost worldwide?

Is there an agenda? You owe it to yourself to do independent research and find out (but Google and the mainstream media will not help you uncover the truth).

From what I have seen, I can say with 100% certainty that there is an agenda, and it's not for the benefit of you or me.

Therefore, think very carefully before you allow yourself to be injected with a new, experimental shot.

This shot is being pushed by the *same* FDA and CDC who are suppressing knowledge of the treatments that actually work, and which could have saved hundreds of thousands of lives had they not been suppressed, ridiculed, and banned.

I will bring an example of horrible, needless death from Elmhurst Hospital in Queens. You'll see from here how an untold number of deaths that didn't have to happen were *made* to happen, labeled corona deaths, and made national headlines – increasing exponentially not only the case count and death count, but the mass hysteria and panic.

You can click the following link to watch nurse Erin Olszewski give her chilling testimony. As you watch, think about all the other hospitals worldwide in which similar incidents undoubtedly took place.

<https://tinyurl.com/EpicenterNurse> (Men, please listen rather than view, for *tznius* purposes.)

Erin also wrote a horrifying, very crucial book called *Undercover Epicenter Nurse*. (I got it on Amazon.) She describes how she came from Florida, where corona patients were being treated with hydroxychloroquine and were doing well, and hospitals didn't have enough work for the nurses. She applied to work for a staffing agency and ended up in NYC.

This was during the height of the crisis last spring, and she was sent to Elmhurst Hospital, the "epicenter of the epicenter." Only ONE of her patients survived (and that is because as a drug addict, the sedative medication didn't work on him, so he was able to remove himself from the ventilator he was attached to).

Erin gives eyewitness accounts of the murderous horrors that transpired in that hospital:

Patients were intubated for no medical reason (for example, just for the resident to get to practice on them); ventilator settings were turned way up, blowing patients lungs out; patients who'd gotten off the ventilator were re-intubated solely for the convenience of the staff; non-Covid positive patients were put together with Covid-positive ones until they, too, developed Covid; and more horrors.

When Erin suggested actual treatments such as high-dose IV vitamin C, which had been proven to work for corona in three clinical trials in Asia, she was laughed at. The doctor callously stated that the patients would die anyway, and refused to try any treatment at all to possibly save them.

A stock of hydroxychloroquine tablets had been given to the hospital, but they refused to use them.

This conversation between Erin and the doctor, and other conversations that she had with staff there about the needless horrors that were being perpetrated, were recorded by her and can be heard on the video.

Yes, she actually got spy glasses and recorded the conversations because she felt as if she'd landed in the twilight zone, and she knew that nobody would believe what she was witnessing.

When she finally had a patient whom she thought would be her first to survive, she kept constant guard over him during her shift. He'd come off the respirator and was communicating, laughing at her

jokes, and recovering. One day, when he was doing beautifully, she was mysteriously called away to assist in the ER, where she was not needed, and during that time he “died.”

Why did some of the staff (not all!) *davka* want their patients to die? Erin repeatedly mentions **that staff cited “orders from above” as justification for their practices.** Was it just the money? None other than **CDC director Robert Redfield admitted in testimony before the government that hospitals were incentivized by being paid higher amounts for patients WHO DIED.**

This sounds too macabre and bizarre to accept easily, but it has been confirmed. Here is the **payment schedule that I saw:**

Every Covid positive patient = \$7,000-9,000.

Every vented patient = \$19,000.

Every “Covid” death = \$30,000.

The payment received actually varied by hospital. In another example I saw, provided by a physician, a patient put on a ventilator would earn the hospital \$40,000 in reimbursement. According to Erin’s testimony, even patients who came in with oxygen levels that did not require ventilation and did not even have corona (some came in for their blood pressure, others were having panic attacks because of corona fear) were put on ventilators and given paralytic IV medications. This was a death sentence, as the high ventilator settings pushed open spaces in their lung membranes, causing the need for ever-higher pressure settings, in a continuous cycle, until eventually even the highest settings would become insufficient and they would die.

According to the account of Dr. Scott Jensen, on April 3, 2020, the CDC instructed physicians and coroners to list Covid as the cause of death *even if it was not confirmed*, and even if there were *other, more primary* causes. He said “I’ve never been told HOW to fill out a death certificate before.” This was bizarre and unprecedented.

These directives for listing cause of death went completely against the way that reasons for death are usually determined, and if the certificates would have been written up using the usual criteria last spring, “corona deaths” would have been a *fraction* of what they were. In fact, I read that they would have been under 10,000 nationwide! I realize that may be difficult to accept, so I urge you to go and do your own research on this. Here is the actual letter from the CDC issuing the directive to change the way that cause of death is listed. <https://www.cdc.gov/nchs/data/nvss/coronavirus/Alert-2-New-ICD-code-introduced-for-COVID-19-deaths.pdf>

An interesting backup to this is that early in the crisis, some funeral directors were shocked that practically every deceased body they were handling “died from covid,” and it didn’t seem legitimate to them. <https://www.projectveritas.com/news/breaking-funeral-directors-in-covid-19-epicenter-doubt-legitimacy-of-deaths/>

Joseph Antioco, the director of Brooklyn's Schaeffer Funeral Home, told an undercover journalist if the deceased was not under the care of a private physician, the chances were very good their cause of death was going down as COVID-19.

One cannot help but ask, why was the government instructing the doctors to inflate corona cases? Why were they incentivizing hospitals to put patients on ventilators, which were virtual death sentences?

Much more disturbingly, why were they paying hospitals, in essence, to kill people by paying more for each patient who **DIED**?

Did they need a huge surge of “corona” deaths to justify a lockdown?

To ramp up fear and panic and create the **perceived need for an injection**?

Is there a financial interest by people who are making health recommendations to us in marketing the injection? It really seems that there is.

For example, as Dr. Ryan Cole points out in an article by Brian Shilhavy on Health Impact News, “... **the NIH (the National Institute of Health), which is a U.S. government agency involved with approving drugs, holds patents on the Moderna experimental COVID ‘injection,’** which is like asking the fox to guard the henhouse. This is also the agency that **Anthony Fauci** works for, and he has been employed there for over 30 years, making a higher salary than even the President of the United States. (Go ahead and fact check this for yourself.)”

Is the agenda simply money? Obviously, money is a big answer – **injections are HUGE profit makers! (And let us not forget that they have zero financial liability for their injections.)** For example, Pfizer reports that they project a whopping **\$26 BILLION** for the year in sales of their Comirnaty corona injection! You don't really need to look further than that.

But there definitely seems to be **much more** – there's so much evidence of a social agenda, too.

If you explore, you will find an entire web of interrelated players, who include policymakers and those who stand to profit from the injection, working hand in hand. Each member of this spider's web is profiled in detail in a book I'm reading, titled *Covid Operation*. (It's available on Amazon.)

A huge player in all this is Bill Gates, who has given tens of millions of dollars toward the development of the corona “injection.” **Gates's GAVI injection foundation has a long and terrible history of (purposely) giving shots in third world countries that caused death, miscarriage, and sterilization. For example, in Kenya, women were told that the shot they received would protect their unborn babies against tetanus. In reality, it caused them to miscarry, if pregnant, and made them sterile. (Half of the shots contained HCG.)** I read that **he sterilized a million women** in this way. See many more examples in *Covid Operation*.

Wherever Bill Gates goes with his supposedly “philanthropic” endeavors, he leaves behind a trail of death and tears – and it's not by mistake. His father was on the board of his local Planned Parenthood

abortion clinic, and Gates shares his father's passion for killing unborn children, sterilizing people, and **reducing world population growth.**

This isn't a "conspiracy theory" as "fact-checkers" would like us to believe. **Research and you will find that he has publicly and repeatedly not only declared his desire to reduce population growth but also talked about accomplishing that through INJECTIONS.** I viewed an entire video collection of the remarks he's made over the years about his beliefs and goals in this regard, and it is **extremely chilling.** **It's REAL! See:**

<https://www.youtube.com/watch?v=Gc16H3uHKOA>

<https://www.youtube.com/watch?v=pxCjpe0Wk5w>

<https://banthis.tv/watch?id=6071fe829ae3a816934d4efa>

There is very strong evidence for an even bigger agenda, which involves power and control, but I will leave that for you to find for yourself. **Bottom line – something is clearly fishy.** Whatever it may be, we **need to pause and think before running headlong into the arms of those who clearly do not value our lives.**

Back to Erin's video, which ends with footage of her crying inconsolably immediately after the loss of her one patient whom she believed would live, and whom the hospital had murdered during the 20 minutes that they spirited her out of his room.

After reading her book and watching her speak, I **now completely understand** what was meant when I read that most of the people who died "of Covid" did not die of Covid, but of neglect or worse. Some of those people were very young.

I thought about people in our community who passed away in the hospitals under questionable circumstances. We started talking on a corona group about what happened last spring, and people had a lot of stories (certainly there are hundreds more).

Here are some things that people shared:

"They were 100% murdered. Some starved to death and some choked to death because they weren't cleaning/suctioning out the respirators. The ventilators had a 10% survival rate."

"If you remember, back a year ago we would open our phones after Shabbos and there would be a list of people who were *nifter* over Shabbos. That's because many of the frum healthcare workers went home for Shabbos and no one was there to advocate for the frum patients. They mysteriously died in huge numbers."

"Every Shabbos, 60 Jews died and then the whole week it was quiet. They either pulled the plug or starved them to death. Once Jews got smarter and stopped going to hospitals, all of a sudden the death rate went down and corona wasn't as deadly anymore."

I personally heard this story from someone who heard it from the source:

“A frum man was in a hospital with Covid in NY, I'm not sure which one. He was weak from not eating and drinking for days already, after being refused each time he asked for a drink.

“One day, he fell off his bed and nobody helped him up, even though a few nurses passed his room. He crawled to the bathroom and drank the water out of the toilet bowl, managed to get outside help, and left the hospital. He said that had he not gone to the bathroom and drank up the toilet water he would have not survived.” (This story was verified by someone else as well, who knows the man it happened to.)

“My neighbor, who is a huge Rebbetzin, said she called her husband on Shabbos and left him a message on the machine saying, ‘I know it’s Shabbos, I’m not confused, pick up the phone.’ When she called again, she said it was pikuach nefesh to leave on Shabbos. She said nurses were just sitting by their station and every minute they were chatting and saying nonchalantly, oh, patient in this room died, and then that one died. They refused to walk into the rooms.”

“Rav Zvi Spira, Rav of Bais Horaah of Flatbush, was on a vent for a few days. He said that had he not had his son with him, he would've been murdered. He said it was all *retzicha*.”

“Shocking: The Chevra Kadisha found a note in a niftar’s pocket stating that he hasn’t died from corona, but from hunger, at the hospital.” (I have the photo of this heartbreaking note, scrawled in Yiddish.)

Understanding what really went on in the hospitals last year, and still goes on to an extent in many, is crucial because if the patients were simply neglected or murdered, it shows us that corona itself is NOT at all as deadly as it’s hyped up to be. (And let us not forgot that many deaths labeled as covid deaths may have been fraudulent.) Hence, the perceived need for the shot should go way down.

And also, obviously, it’s crucial because it forces us to open our eyes and realize that, unbelievable as it seems, an agenda must exist. We must question what this agenda may be and take the logical next step of being careful to protect ourselves against it.

Not all hospital deaths were the result of cruelty or callousness on the part of the attending staff, obviously. We know that there were so, so many heroic doctors and nurses who did all they knew how to do to save their patients.

But the government maligned and suppressed and banned known and proven treatments. I think of all those who actually died from corona, surrounded by caring nurses, who could have been saved had they simply been given the right medications, which the hospitals, by orders from the top, were not (and still mostly are not) giving.

Here is a NIH study from 2005 that discusses hydroxychloroquine’s effectiveness against coronaviruses, which I am sure Dr. Fauci knew about.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC1232869/>

So when did HCQ suddenly become dangerous, when heretofore it had been listed as an extremely safe drug that virtually anyone could take, as evidenced on the CDC website?

<https://www.cdc.gov/malaria/resources/pdf/fsp/drugs/hydroxychloroquine.pdf>

Of course, as I mentioned earlier, the same powers who blasphemed hydroxychloroquine are now working to badmouth ivermectin, as well. **Here is a crucial video in which Dr. Pierre Kory explains the disinformation campaign of the WHO and others against ivermectin** – and of course, the tactics they use are the same for HCQ. See: <https://youtu.be/3UTuT9TSRFQ>

Here is a link that contains an urgent petition from the American Academy of Physicians and Surgeons begging to have early treatment made available to the public.

<https://aapsonline.org/americans-need-covid-treatment-now-states-aaps/>

Sadly, while this request is from many months ago, very little has changed nationwide in terms of treatment available, and even less in terms of preventative medications being publicized.

Unfortunately, many hospitals in NY **still refuse** to administer hydroxychloroquine and ivermectin, and **two families have even had to sue the hospitals** (successfully, by the way!) to force them to treat their loved ones with ivermectin (it worked and the patients recovered!)

The most published doctor in his field, Peter A. McCollough, MD, MPH, testified in front of the Texas State Health and Human Services Committee on how the NIH gave no recommendations for the treatment of COVID-19 until people were hospitalized. Rather than focusing on treatment, their attention was on injections – and this philosophy (for the sake of pushing the injection program, he said) resulted in tens of thousands of needless deaths. (See him testify at the Senate Hearing at <https://banthis.tv/watch?id=60775e7a61f960232bd377f4>.)

Brian Shilhavy from Health Impact News stated **that the DOJ and FTC are seeking to silence doctors who promote Vitamins D, C, and zinc as treatments for corona. The DOJ announced recently that it would enforce a law called the “Covid-19 Consumer Protection Act,” which makes it illegal for anyone to promote non-pharmaceutical products as treatments for corona.** The real name of the law should be the “Covid-19 Pharmaceutical Protection Act” because it actually **protects the drug companies by eliminating our free speech.** The first victim of the law is a St. Louis chiropractor, who was recommending Vitamin D and zinc to his clients and is now being **charged as a criminal.** Please see <https://medicalkidnap.com/2021/04/22/covid-natural-remedies-banned-as-doj-and-ftc-seek-to-silence-doctors-promoting-vitamin-d-c-zinc-etc/> and <https://www.ksdk.com/article/news/crime/st-louis-county-chiropractor-charged-false-claims-covid-treatments-ftc/63-119e5eda-c6d8-4f4a-863b-76576a13f1ec> and keep in mind as you read, the **studies cited above that have proven Vitamin D to be likely the single simplest and most effective thing that the population could be taking to reduce ICU admission and death!**

(Now we truly can realize that we have no one and nothing to rely on other than our Father in Heaven.)

WHY is all this craziness happening? HOW is it possible? We thought we lived in an advanced country, where healthcare is on the highest standard, and where our lives mattered. Why are the governments of Uganda or Tanzania, for example, doing way better fighting corona than our government is?

Tragically, as we've shown, and will continue to demonstrate, it's **not** the result of an accident, coincidence, or lack of knowledge.

CHAPTER 2: WHAT'S SO BAD ABOUT THE "INJECTION"? AN INTERVIEW WITH A MEDICAL PROVIDER TREATING THE FALLOUT OF THE MASS VACCINATION IN ISRAEL

Why are we so concerned about the injection? First, here is one of the most powerful articles we have come across explaining the issues: <https://unbekoming.substack.com/p/a-letter-to-my-two-adult-kids-vaccines>, and here is a presentation by international scientific experts, including Dr. Herve Seligman: <https://www.bitchute.com/video/PgPoWZfqt99r/>.

Next, here is a summary of the dangers we are presently aware of, based on information directly from scientists and experts. It is not an exhaustive list. Please read further for sources and for more explanations. (Any information for which we have not provided sources here due to time or space constraints can be fully verified and further explained upon request, by emailing us.)

- 1) The possibility of **severe allergic reaction, anaphylaxis, and immediate death**, due to the PEG (polyethylene glycol) in the LIPID NANOPARTICLE in the injection.
<https://pubmed.ncbi.nlm.nih.gov/27196817/> <https://aacijournal.biomedcentral.com/articles/10.1186/s13223-016-0172-7>
- 2) The **SPIKE PROTEIN** that the injection induces the body to produce causes **heart damage, inflames lung tissue, and causes vascular issues such as stroke and blood clots**. Research shows that it is the *spike protein itself that is the problem in corona – and now we are programming people's bodies to make it in huge quantities!* (For an example of the science, see. <https://medicalxpress.com/news/2021-04-sars-cov-spike-protein-lung.html> <https://medicalxpress.com/news/2021-04-coronavirus-spike-protein-additional-key.html>) While it was previously claimed that the spike protein remained at the injection site, it has now been proven that the dangerous proteins in fact are being produced by, and are circulating throughout, the entire body of the vaccinated individual (see study below).
- 3) **MICROCLOTS: IT IS NOW CONFIRMED THAT A MAJORITY OF VACCINATED PEOPLE HAVE TINY BLOOD CLOTS throughout their bodies**. The clots cause slow, silent damage to blood vessels and organs, which will lead to heart failure and death, G-d forbid, within a few years, according to Dr. Charles Hoffe. The clots are too small to show up on scans, but are seen on D-dimer blood tests and on blood smears viewed under a microscope. See Dr. Jane Ruby explain British researchers' findings at <https://www.brighteon.com/0b936426-eea2-4e9d-8e21-e73f5dfa09b4> and see Dr. Hoffe at <https://rumble.com/vjini9-dr.-charles-hoffe-and-kevin-street.html>. (Please email us for possible ideas for treatment for those who are already injected.)
- 4) **RUINING OUR IMMUNE SYSTEM:** According to Geert Vanden Bossche, top vaccine developer, the massive quantity of highly specific antibodies, which the body is induced by the injection to make against a single strain of coronavirus, will crowd out and dominate our natural

antibodies that are NOT specific and can fight ANY pathogens. *Thus, we are immobilizing our immune system's response to other strains of the virus, and to other viruses and diseases.*
<https://www.geertvandenbossche.org/> and <https://youtu.be/ZJZxiNxYLpc>.

- 5) **GRAVE HARM TO FERTILITY AND PREGNANCY:** The antibodies that the body produces against the spike protein are highly likely to also attack the body's reproductive cells (egg, sperm, and placenta) in a process called molecular mimicry, since the two proteins are extremely similar. *There are crucial differences between the antibodies from natural infection and the injection-induced antibodies, **ONE** of which is the fact that the natural ones do not remain in circulation for long, but go into hibernation in the bone marrow, while the injection-induced ones ARE circulating long-term, in response to the spike proteins that the body's cells keep on churning out.*
- 6) **THE BODY ATTACKING ITSELF:** The function of the antibodies are to destroy the pathogen, which in this case, is the spike protein. But even as the antibodies attack the spike proteins, the body's cells, which have been genetically modified by the injection, are continuing to produce more spike proteins. When the antibodies are unable to completely rid the body of spike proteins, the immune system will call up killer cells to kill the cells that are producing the spike proteins. This is because, in a well-functioning immune system, the body is programmed to destroy any cells that are not natural to the body, as a protection against cancer. Since EVERY cell in the person's body has the ability to produce the spike protein, this can be DEADLY. The body can begin attacking its own cells. This can happen to every single cell, for example, ovarian, testicular, lung, heart, liver, epithelial (blood vessel lining), kidney, brain, eye, etc. causing destruction of fertility, blindness, autoimmune diseases such as Guillain Barre Syndrome, organ failure, and other devastating results. THIS IS A LONG-TERM EFFECT THAT IS NOT ALWAYS SEEN IMMEDIATELY, BUT IS ALREADY BEING REPORTED IN LARGE NUMBERS OF VACCINATED INDIVIDUALS.
- 7) **THE LIPID NANOPARTICLES, WHICH HAVE BEEN PROVEN TO CONTAIN HIGHLY TOXIC AND HIGHLY CARCINOGENIC SUBSTANCES,** have been found to settle in high concentrations in the ovaries, testes, spleen, and bone marrow, raising grave concerns about reproductive damage, leukemia, and other cancers. See Dr. Robert Malone, the inventor of mRNA technology, express his concerns at <https://youtu.be/XMxuNvVgxiU>. The Pfizer study showing these findings is available upon request.
- 8) **CELLULAR OXIDATION:** The injections were confirmed by independent laboratory analysis AND by a pharmaceutical industry insider to contain a highly toxic substance called **graphene oxide**, *which is a delayed-reaction poison*, and is in the lipid nanoparticles. This substance has been shown to cause cellular oxidation (aging), and to deplete the body of an essential substance called glutathione. The dangers of graphene oxide are numerous, as it causes damage to the cells, proteins, and DNA, and plays a role in the development of a range of health conditions, including diabetes, cancer, and neurodegenerative diseases such as Alzheimer's. Glutathione is an essential part of the cells' defense against these diseases, and it is also depleted by the poison that is damaging the cells. See <https://www.redvoicemedia.com/2021/07/breaking-discovery-the-actual-contents-inside-pfizer-vials-exposed/> and <https://www.bitchute.com/video/dnVgJZsbPqIq/>. All scientific documents available upon request.

- 9) **THE mRNA CARRIES A GREAT RISK FOR FATAL DEGENERATIVE DISEASES, AND THE DISEASES ARE ALREADY HAPPENING.** See research article titled “Covid-19 RNA Based Vaccines and the Risk of Prion Disease” by J. Bart Classen, MD, immunologist, published in Microbiology and Infectious Diseases (PDF available upon request), and see <https://childrenshealthdefense.org/defender/scientist-warning-covid-vaccines-parkinson-neurodegenerative-disorders/>.
- 10) **THE mRNA CARRIES UNKNOWN RISKS** for altering the DNA and chromosomes. What that will mean for future generations, only time will tell. It was previously believed that RNA moved in only one direction, in that the DNA delivers the code to the RNA, which in turn tells the cells what to do. We now know that this is outdated science, and it’s actually a TWO-WAY street. *The RNA can also alter the DNA as well as the chromosomes. Playing G-d by altering the DNA of humanity is mind-boggling.* https://www.bionews.org.uk/page_147419
- 11) **ANY CORONAVIRUS INJECTION CARRIES THE HIGH, LONG-TERM RISK OF ANTIBODY-DEPENDANT ENHANCEMENT (ADE),** which causes the immune system to overreact when faced with the virus it was immunized for, and can lead to death. This is a problem with certain specific viruses, coronaviruses among them, and vaccination for these viruses makes the body’s subsequent response to the virus worse, not better. Animal trials for previous coronavirus injections never made it to market for this exact reason, because the animals in the trials died *in the long term.* (With the current injections, they *skipped most animal safety trials. There is NO PROOF THAT THE CURRENT INJECTIONS WILL NOT CAUSE ADE IN THE LONG TERM.*)

Something weird happened. Someone actually looked up the ingredients in the Moderna injection with a simple google search under “active ingredient of moderna injection”. (Or, <https://www.hackensackmeridianhealth.org/HealthU/2021/01/11/a-simple-breakdown-of-the-ingredients-in-the-covid-vaccine/>.) He took a little video clip of the shocking results. One component of the lipid nanoparticle in the injection is SM-102 (made by Cayman Chemical Co.). SM-102 was listed on Cayman’s site as an EXTREMELY hazardous substance, not intended for human or animal use. It had a GHS06 Skull and crossbones classification (Acute Tox. 2, H310 Fatal in contact with skin), GHS08 Health Hazard classification (Carc. 2, H351, Suspected of causing cancer), Repr. 2, H361, Suspected of damaging fertility or the unborn child, STOT RE 1, H372 Causes damage to the central nervous system, the kidneys, the liver and the respiratory system through prolonged or repeated exposure, and MORE. I looked myself – I googled “what is SM-102” and the first thing that came up was Cayman Chemical. I clicked to go to their site and then clicked on download safety data, and that’s what came up.

HOWEVER, AFTER THIS WENT VIRAL, EVERYTHING CHANGED. Information on the site was switched, and SM-102’s image was cleaned up. Suddenly, it was no longer dangerous, but perfectly safe. Silly us! How could we have suspected anyone of putting something poisonous into people? It was only the chloroform that the SM-102 was PACKAGED in that was toxic, they say now. Hmmm...I can’t help but wonder why it wasn’t stated that way before.

PLEASE REMEMBER THAT BY LAW, THE INJECTION COMPANIES HAVE BEEN ABSOLVED FROM ALL FINANCIAL LIABILITY, NO MATTER WHAT INJURY OR DEATH THEIR PRODUCTS END UP CAUSING.

On September 21st, 2020, U.S. Health and Human Services Secretary Alex Azar stated, “Under the PREP Act, which is a provision in Congress, **any treatment or vaccine for purposes of a national emergency pandemic like this [Coronavirus] actually comes with liability protection.** Both the product as well as those who administer it or provide it.” <https://www.youtube.com/watch?v=6NBXrBa1UoY> (4:52 mark)
PREP Act with amendments: <https://www.phe.gov/Preparedness/legal/prepact/Pages/default.aspx>

Would you buy a car – or even a car seat – from a company that is not financially liable for any damage or death as a result of using their product? If the answer is no, why would you "buy" a covid injection?

Don't think that the vaccine/injection companies are such “tzaddikim” that you can rely on their trustworthiness for your safety, even with no liability on their part. Quite the opposite, unfortunately. ALL the vaccine/injection companies have faced lawsuits or huge fines for fraud and dangerous products. For example, in 2009 Pfizer was sued and had to pay \$2,300,000,000 for fraud and bribing doctors in their drug marketing. <https://www.corp-research.org/pfizer> <https://www.justice.gov/opa/pr/justice-department-announces-largest-health-care-fraud-settlement-in-its-history> <https://www.lifeextension.com/magazine/2010/3/drug-company-pleads-guilty-to-health-fraud>

And guess who ran Pfizer's Covid injection trial?? Not the FDA. Three Pfizer employees, all by themselves!

And Johnson & Johnson? How trustworthy are they? In the past, have they put the safety and well-being of the public first – or their own profits?

Let's see. As of July 20, 2021, Johnson & Johnson (together with three other drug companies) just reached a \$26 BILLION settlement to end litigation over opioid lawsuits. (<https://medicalkidnap.com/2021/07/20/criminal-pharmaceutical-cartel-providing-covid-19-injections-back-in-the-news-this-week-as-their-products-harm-the-public/> and <https://www.newsweek.com/johnson-johnson-3-drug-distributors-settle-opioid-lawsuits-26-billion-1611488>)

ON MAY 9, A GROUP OF 57 LEADING SCIENTISTS, DOCTORS, AND PUBLIC HEALTH EXPERTS CALLED FOR AN IMMEDIATE END TO THE VACCINATION CAMPAIGN. See <https://newsvoice.se/2021/05/57-scientists-study-covid-vaccinations/>.

Here are links to Drs. McCullough, Risch, and Byram Bridle as they discuss new information which has come out recently in a study from Harvard, about how the spike protein does NOT STAY IN THE ARM MUSCLE AS CLAIMED – BUT TRAVELS ALL AROUND THE BODY, OFTEN WREAKING HAVOC ON THE HEART, IN THE BLOODSTREAM, ETC. The last link is a PDF to the Harvard study.

<https://uncoverdc.com/2021/05/31/vaccine-expert-warns-we-made-a-big-mistake/>

<https://uncoverdc.com/wp-content/uploads/2021/05/Bridle.pdf>

Here, I present to you a **Question and Answer session** with A.B., an expert from Israel who is a Holistic Health Consultant, and has helped untold numbers of people with corona treatment. Now, sadly, A.B. is busy trying to help people with **severe reactions to the corona shot. A.B. is in constant contact with top scientists and doctors worldwide, and the information presented here comes from the most up-to-date, scientific sources.**

Question: Would the Rambam say to take this vaccine?

Answer: **If this were a true vaccine**, we could argue in any and in all directions about whether to take it or not, or whether the Rambam would say to take it or not. **This is, however, NOT a vaccine.** Vaccines are designed to stimulate the body to have a full immune response, which can include hundreds if not thousands of reactions. We, as mere mortals, would like to believe that we understand all the processes involved, but if we did, we would be able to do away with ALL disease.

This new product is purely genetic modification, also known as genetic engineering. This is where the scientists take a piece of genetic material containing a code (much like a computer program) and inject it into the genetic material of their chosen life form, be it animal or vegetable.

I will explain by way of analogy – most of us own computers, and on our computers, we have firewalls and anti-virus software. If we want our computer to do something, such as calculate, we add software to our computer that allows us to calculate. If we want to create documents, we add software such as Word so that we can create documents. Even our phones rely on software, and when you “WhatsApp,” for example, you are downloading software that tells your phone what to do, in this case, communicate with people who are not in the room with you.

The Pfizer product, and all mRNA products, contain software that tells your body what to do. It is injected into your muscle, bypassing your “firewall” (the mouth) and your “antiviral software” (your immune system). Once the program is in place, it tells your cells to begin processing a protein that is foreign to the body – the protein that makes up the spike part of the virus, which is a non-human protein.

Our immune system's first line of defense are killer cells that destroy an invading pathogen, which, in the case of corona, is a virus. Once the virus is destroyed, antibodies are produced to mop up the mess left behind. But what happens, as is in the case of this injection, if only a portion of the virus (the spike protein) is there? The killer cells are not summoned to kill, rather only the cleanup crew (antibodies) are called in to mop up the mess. **But what happens if, no matter how hard the antibodies try to clean up the mess, more and more spike protein is produced? (This injection is permanent – there is no stopping or reversing it.) In this instance, a new kind of killer cell is summoned that destroys the cells that are producing the spike protein.**

This injection has the potential to have every cell in our bodies producing spike proteins. This means that every cell becomes the target for these killer cells.

The world's top virologists and injection developers seem to agree that we would start seeing this deadly effect between 6 weeks and 2 years after the second injection, with most believing that it would take at least 4 to 6 months before we see the first cases.

The first case that I had been presented with was this past October or November, where a woman who had been in the original trial called with what appeared to be multiple organ failure four months after her second shot. Due to the complexity of her case, and my then lack of understanding of how this genetic modification affected our system, and the fact that she was taking so many medications, I told her that I couldn't help her. **The sad thing is that now that I have spent so much time researching what to do for someone like this, I still have no answers. Since her own body is producing the non-human cells that are antagonizing her immune system, even if there were some kind of way to detoxify her, it would not last more than a day. It is like waking up every morning and getting hit by a car for every day of a person's life. There is injury upon compound injury.**

I received a call about an 80-year-old man with diabetes and high blood pressure. The man had called Hatzola, who, because of the odd nature of the symptoms, called me for my opinion. The man had taken his second injection six weeks prior to the call. His symptoms were that he was weak and faint, and felt starved for air. Upon examination, the man's oxygen saturation was only 72, and when he stood to walk, it went into the 50s. He must be very strong because most people would be unconscious with those numbers. (Normal is between 95-99, and 93-94 is considered desaturation.) His lungs were clear – no pneumonia. **This is exactly the scenario that I had read about in the research papers, which warned of lung failure.** He was sent to the hospital so I don't know what happened to him.

I had a call from someone else, also 6 weeks after the injection, who said that he felt as though his brain was swelling inside his head. He was hearing things that weren't there, having smells and tastes that weren't there, and felt lightheaded and almost as if he had a migraine without the pain. He is a **young husband and father, and he is unable to function normally.**

Once again, the virologists said that this type of genetic experiment can cross the blood-brain barrier and cause these symptoms. The doctors will not (are not allowed to) admit that this is from the injection, and are admittedly unable to treat these new and unique symptoms. The fact that these symptoms (and more) were predicted by the very people who developed this and other injections makes me suspicious (to say the least) of the doctors' claims that there is no connection to the injections.

I have seen and heard from credible sources many other reactions, including reproductive damage and the inability to have normal married life.

Question: If someone has taken the first shot and they don't take the second shot, then is the damage less?

Answer: It appears so – the reason why they push the second shot is because it is needed to force this reaction.

Always remember that Hashem is the *Rofeh Cholim* – since most of us have not taken the shot to rebel against Hashem, but rather took it on the advice of a doctor or Rabbi, through our *Tefillos*, *Tzedaka*, Torah, and *Teshuva*, we can rely on Hashem to prevent/reverse or heal the damage.

Question: How do you answer someone who says Hashem made the injection possible so that's why it should be taken?

Answer: Hashem also made the destruction of the first and second *Beis Hamikdash* possible, and He also allowed the Holocaust to happen. That doesn't mean that we should ask the guards at Auschwitz or Mauthausen to let us in.

Question: My family has been self-quarantined since last March due to my elderly immunocompromised parents who have been living with us, and my husband is at very, very high risk. I myself am immunocompromised. My adult daughter is also self-quarantined since last March since she does not want to take any chances to bring COVID home. We have not left our home except for walks or the occasional urgent doctor's appointment. My husband is giving me a hard time about wanting the injection and keeps telling me that we are going against Hashem, because Hashem gave us this warp speed cure. He wants out of living like this. It's so difficult as the rest of us are not willing to experiment with this shot.

Answer: I understand that your life is very difficult and that you need to escape from this prison that you are in. It is a very difficult situation and *Kol Hakavod* that you have been able to have such *Mesiras Nefesh*, especially your daughter.

I and many of my colleagues have been successfully treating people with corona who have all sorts of underlying and immunocompromised situations and age categories, and so far no one has had to go to the hospital. Early intervention is the key, and most doctors are not treating corona at all, telling people to stay home, drink plenty of fluids, and stay in bed. While that advice is great for the common cold, the common cold does not cause the body to produce bradykinin or fibrin, the sources of the deadly symptoms of the virus.

The protocol that I use, for example (and there are many other excellent protocols), uses substances that flush the bradykinin and fibrin out of the system, while the herbs and essential oils that I prescribe help the body to fight the virus, while the patient remains as comfortable as possible. This protocol is being successfully used worldwide as I have trained people in the US, Belgium, England, and of course Israel. I advise people to keep the protocol in their homes, and at the first sign of symptoms, start it right away. Don't bother to get tested, as the tests are not accurate, anyway. And since there are no side effects (besides restored health for whatever virus it may be even if not corona) it is safe to take even if you are not sure that you are getting sick.

So far the evidence that we have is that MORE people are dying from the injection than are dying from the virus. Clalit submitted their study to the *New England Journal of Medicine*, which showed that they had 596,618 participants in the study who had both shots, and 596,618 people in the study who had not taken the shot. Study participants were matched by age, gender, and general health.

Vaccinated participants were checked for antibodies and when all were confirmed to have sufficient amounts, they started tracking the vaccinated and unvaccinated participants. In that 42-day period, 112 unvaccinated people died from corona, as did 32 vaccinated participants. But what was not included in the study was the fact that Israel admits that there is a 0.2% death rate from the injection itself. Therefore, if we do the math, 119 people died from the injection ($596,618 \times 0.002 = 119$) for a total of 151 people. That's almost 40% more vaccinated people than unvaccinated people.

Question: I was wondering if you could tell us, aside from the preventative care routine of supplements, how do you recommend we conduct ourselves in regard to family Chasunas, where basically no one will be wearing masks, inviting people over for Shabbos and Yom Tov, etc.? My immediate family except for my youngest son has not had Covid, *B"H*, *bli ayin hara*. Should we be tiptoeing around still?

Answer: The irony is that since the injection neither prevents the virus nor the spread of the virus, and a large percentage of the vaccinated may be asymptomatic, they could end up becoming super-spreaders. So if it is an event with a lot of vaccinated people, it may be best to be cautious. On the other hand, people who have had Covid have a natural immunity that prevents them from spreading the virus. So if you are in a group with unvaccinated people who have had it you are pretty safe.

There is something that I take which works very well, as I am regularly exposed to people who are either carriers or who actually have the virus and don't know it. It is an enzyme formula *that contains substances that dissolve the cloaking mechanism (biofilm) around the virus, and dissolve the spike protein, which the virus uses to attach to the cells.* If the enzymes are in the bloodstream when the virus enters, the virus will be destroyed or weakened. If while taking these capsules the person starts to feel like they might be coming down with something, increasing to a therapeutic dose should knock it out quickly. These are the two products: Enzymedica Enzyme Defense Extra Strength (not regular strength) and Arthur Andrew Medical Nattovena. The preventative dose for one who is around people is 2 capsules of each, twice a day with a large glass of water on an empty stomach, not more than one hour before to two hours after eating. The therapeutic dose is 3 capsules 3 times a day with a large glass of water on an empty stomach, not more than one hour before to two hours after eating. Each dose should be taken with one Nattokinase 4000 FU. These products can be purchased on iHerb. **(Note: Pregnant women can only use Neprinol and Serretia enzymes, which are very effective.** They are made by Arthur Andrew and are available on iHerb, Vitamin Shoppe, and even on Amazon. **They have a hechsher.** The treatment dose is 3 capsules of Neprinol and 2 of Serretia, three times a day, at least two hours after, and one hour before, eating.) **(Aside from the enzymes, the other main part of my corona treatment protocol is an essential oil rub, which aids breathing tremendously, B"H. Here are the directions: Combine ¼ cup liquid coconut oil, 1 tablespoon each eucalyptus and peppermint oils, and ½ teaspoon tea tree oil. Rub on chest every 2 to 4 hours or as needed. Also, put one drop of each oil on a plain tissue, and breathe in the vapor to calm the cough and open airways.)** Of course, it is also crucial that you eat real food, not processed food-like substances, because healthy food is a very important part of an effective immune system.

CHAPTER 3: SYSTEMIC CORRUPTION AT THE FDA AND THE MISLEADING PFIZER TRIALS: IS THE “INJECTION” FDA APPROVED, AND DOES IT EVEN WORK?

Many people are under the misconception that the shots have been approved by the FDA. They actually have NOT. What they are being used under is Emergency Use Authorization. EAU is granted when a product’s safety is NOT fully known, but there’s an emergency and no other way to treat it. (To prove to yourself that the injections have not been FDA approved, call Pfizer at 1-800-879-3477, and then press 1, and then 9 to speak to a representative. As you wait, you will hear a recording stating that the injection is not approved by the FDA.)

Clearly, it’s untrue that there is no other prevention or treatment for corona, and the injections shouldn’t have even gotten Emergency Use Authorization because we have HCQ and ivermectin. I am sure that’s one reason those drugs are being vilified and suppressed.

But I want to make you aware of even more than that. Do you know that **even if the FDA would approve the corona injections, it would be meaningless?**

I was shocked when I became aware just recently that **the FDA has a very long and documented history of corruption, including approving drugs and medical devices that they know to be deadly. Drug makers have tremendous influence at the FDA.** I read a report of an instance where all the advisors voted unanimously NOT to approve a drug because of its dangers, yet they were overruled by the chief and it was approved anyway. (Money talks.)

Did you know that the drug companies run their own drug trials and simply report their results to the FDA? (Would you eat from a hechsher that allows the food companies under its watch to self-report, rather than actually supervising them? We know that halacha recognizes the likelihood of a person falsifying things when there is a large profit involved.)

In one documented instance, the FDA became aware that the drug trial was a sham and had never actually taken place, yet they went ahead and approved that drug anyway!

For an introductory peek at documented corruption at the FDA, see this short video:
<https://tinyurl.com/FDACorruptionVideo>

Did you know that in the case of the Pfizer corona injection, with billions of dollars in profits to be made, it was just three people – all Pfizer employees – who oversaw the trials? And everyone is blindly trusting these reports. That’s mind-boggling to me.

It would be laughable if the results weren’t so tragic.

You should read what’s been released of the **trial report** (they still won’t release the raw data). **A few things stand out as highly problematic. One is a large group of people whom they removed from the trial midway, for an unspecified reason. Were these people who had severe reactions to the shot so they didn’t want to count them?** See <https://anthonycolpo.com/more-problems-with-the-pfizer-biontech-covid-19-vaccine-trial-data/>

The biggest issue is the one disproving the 95% efficacy that Pfizer claims. The Everly Report (quoting the chart on the injection insert) explains that their calculation of efficacy is based on just 170 people in the trial who were the first to develop symptoms and test positive for SARS-CoV-2, within the two-month monitoring period starting 7 days after the second shot. 162 of them were placebo recipients, and 8 were injection recipients. That's where the 95% efficacy claim comes from. However, the REST OF THE PARTICIPANTS WERE NOT TESTED FOR INFECTION. So, imagine, billions of people worldwide are supposed to be taking a shot that was "proven effective" on the basis of a group of 170 people, 8 of whom received the injection? Does anyone realize what nonsense they are falling for? The true statistic for risk reduction for each vaccinated individual is 0.7% or 0.8%, which of course is only against symptoms, and remember, that is excluding adverse symptoms arising from the shot itself. Please see a detailed explanation of this here: <https://thecovidblog.com/2021/05/31/new-lancet-report-shows-pfizer-moderna-et-al-misled-the-public-with-deceptive-efficacy-statistics/>.

Further proof: In the FDA Briefing document, on page 42, Pfizer says: "Suspected COVID-19 cases that occurred within 7 days after any vaccination were 409 in the injection group vs. 287 in the placebo group."

As the Everly Report points out, that means that over 70 percent of those who developed symptoms of corona within the first 7 days following each shot were those who RECEIVED the injection.

So if you would include suspected corona cases and not just the ones who they tested, you would come to the conclusion that the injection does NOT PREVENT CORONA.

Pfizer's briefing document also states: "Among 3410 total cases of suspected but unconfirmed COVID-19 in the overall study population, 1594 occurred in the injection group vs. 1816 in the placebo group." **This means that over the 105 days of the trial, almost half of the people who developed corona symptoms were people who had received the injection.** It is quite obvious that **by not testing them**, Pfizer avoided counting these people as corona cases, and ruining their claim of the efficacy of the shot.

It is inescapable that an honest calculation of the results of the Pfizer trial shows a much, much lower efficacy rate at preventing corona than stated. If you are good at math, do yourself a favor. Delve into the numbers they give and analyze them honestly. Hopefully, soon you will realize, as other smart people have, that Pfizer and their cronies have duped the world (with a wink and a nod from the CDC and the FDA).

The Everly Report has much more information and gives links to Pfizer's reports. Go to <https://everlyreport.com/what-you-need-to-know-about-the-covid-vaccine/>. **You will also find there that the pharmaceutical industry, including Pfizer, has a long history of criminal convictions. Do you know that Pfizer has been fined \$4.7 BILLION dollars for false claims, drug and medical equipment safety violations, off-label promotion, corrupt practices, kickbacks, and bribery? Here is some information on them: [Pfizer: Corporate Rap Sheet | Corporate Research Project \(corp-research.org\)](#).**

“Pfizer has been a ‘habitual offender,’” persistently engaging in illegal and corrupt marketing practices, bribing physicians, and suppressing adverse trial results.” (Source: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2875889/>.)

IT IS CRUCIAL TO READ THE FOLLOWING ARTICLE AND SEE HOW PFIZER MANIPULATED THE CHILDREN’S TRIAL PROTOCOLS IN ORDER TO OBTAIN THE EAU FOR 12-15 YEAR OLDS. They designed the rules in a way that 1) only adverse events occurring within 30 days would get included in the report, and 2) only diagnoses made by Pfizer’s own trial doctors would be counted. See <https://greatgameindia.com/pfizer-manipulated-injection-trial-protocols/>.

If you think you’d do better with **Moderna**, know that they’ve *never* managed to bring a product to market before, despite trying their hand with at least 9 injections, which never made it through Phase 3 clinical trials. And remember, **their corona injection Phase 3 clinical trials are ongoing (as are Pfizer’s)**, and you will be one of the trial participants if you get their shot.

If you are considering the **Johnson & Johnson shot**, just be aware that J & J is named in **hundreds of thousands of lawsuits for dangerous products** they sold. See: <https://www.drugwatch.com/manufacturers/johnson-and-johnson/> In fact, the Johnson & Johnson shot seems to be the worst of all. It has the highest percentage of adverse reactions associated with it. Perhaps because this is because it works through the mechanism of an adenovirus vector (which is, by the way, gene therapy), so the body has to mount an antibody response BOTH to the virus AND to the foreign (perhaps non-human) DNA in the injection.

THE MOST IMPORTANT QUESTION: As I update this book on July 21, cases in VACCINATED INDIVIDUALS are going THROUGH THE ROOF. Although the media tries to deny it and spin the story the other way, if you look hard enough you can find the actual data. **THE INJECTION IS NOT WORKING.** Data from Israel shows that 84% of new covid cases are in vaccinated individuals. <https://thegatewaypundit.com/sen-ron-johnson-data-israel-shows-84-new-covid-cases-vaccinated-individuals-video/>. And this video gives a little example of what’s happening all over the US: at an Urgent Care clinic in Key West Florida, 19 out of 25 PCR-positive-test patients were vaccinated. See <https://youtu.be/aP-nCHl1M8k> at 32:45 minutes.

And Dr. Peter McCullough states that the injections are becoming OBSOLETE because they are NOT WORKING against the Delta variant. See Dr. McCullough tell the truth about the injection at <https://rumble.com/vjy61w-covid-19-and-injection-truths-with-dr-peter-mccullough.html>

THE TRAGIC TRUTH IS that not only are the injections *not working against corona*, **THEY GREATLY INCREASE A PERSON’S CHANCES OF DYING FROM THE VIRUS, SHOULD THEY CONTRACT IT, *chas v’shalom*.** **THIS IS WHY DR. ZELENSKO URGES ALL VACCINATED PEOPLE TO PROPHYLAX WITH EFFECTIVE PREVENTATIVE MEDICATIONS, SUCH AS IVERMECTIN.** **The very sad data shows: 40% INCREASED RISK AMONG VACCINATED INDIVIDUALS IN ISRAEL of death from covid, compared to unvaccinated.** From England, a PHE report shows a **SIX TIMES GREATER CHANCE** among hospitalized patients with the Delta variant of dying if fully vaccinated, compared to unvaccinated patients. See <https://childrenshealthdefense.org/defender/covid-delta-variant-lockdowns/>.

CHAPTER 4: MORE THAN TEN THOUSAND DEATHS REPORTED IN THE UNITED STATES AFTER INJECTION IN JUST OVER 6 MONTHS OF USE – AND NO ANSWERS FROM THE CDC

10,991 deaths and 551,172 adverse events have been reported to the Vaccine Adverse Event Reporting System (VAERS) (as of July 9) following the three corona injections. These are deaths that happened within days or weeks of the shot. They can be viewed at VAERS or accessed through <https://www.medalerts.org>. (See <https://vaers.hhs.gov/data/datasets.html> https://en.wikipedia.org/wiki/Vaccine_Adverse_Event_Reporting_System <https://wonder.cdc.gov/vaers.html> <https://www.openvaers.com/>)

MANY PEOPLE QUESTION WHETHER THE VAERS DEATHS ARE ACTUALLY CAUSED BY THE INJECTION, OR JUST “HAPPENED” TO COINCIDE? Yes, we have proof that most of the deaths are definitely caused by the injection: An independent company analyzed a sample of the reports and found that 86% of the deaths were directly linked to the injection. See: https://www.researchgate.net/publication/352837543_Analysis_of_COVID-19_vaccine_death_reports_from_the_Injection_Adverse_Events_Reporting_System_VAERS_Database_Interim_Results_and_Analysis

Contrary to claims made by some, it is absolutely impossible that the CDC has done a thorough investigation into all the deaths and concluded that they are *not* caused by the shot. An investigation into all those deaths would take *years*. Remember that at least 67% of these deaths were reported by healthcare professionals who cared for the dying patient and believed that the shot caused their death, and 50% of the reports are of patients who died **WITHIN 48 HOURS OF VACCINATION**.

The CDC themselves now admits that the injection results in a hospitalization rate **FOUR TIMES HIGHER THAN** that of covid itself. See <https://alexberenson.substack.com/p/vaccines-reasons-for-concern-569>.

We can get a good comparison of the results of the genetic Covid injection with regular vaccines by going into the VAERS database. In 2019, the last “normal” year, VAERS received 43,488 reports of adverse events for the **WHOLE YEAR** for ALL vaccines combined. That was typical. But as of June 25, **IN JUST THE FIRST 6 MONTHS OF 2021 SINCE THE COVID SHOT ROLLOUT**, they received 411,931 reports of adverse events for **JUST THE COVID INJECTIONS!** Projecting to the rest of the year by multiplying by 2, that’s a forecast of about 823,000 adverse events for **ONE SHOT – MORE THAN NINETEEN TIMES THE TYPICAL AMOUNT IN A YEAR** for ALL vaccines/injections **COMBINED!**

HOSPITALIZATIONS following ALL vaccines in 2019 were 2,827, but **JUST** for the six months of the Covid injection alone, they are at 23,257 (as of June 25). **DEATHS** for *all* vaccines combined were 196 for the year 2019, but as of July 9, they are at 10,991 for *just* the covid injections. (<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/adverse-events.html>) **THIS NUMBER EXCEEDS THE TOTAL NUMBER OF DEATHS REPORTED TO VAERS FOLLOWING ALL 70 VACCINES IN THE LAST 30 YEARS COMBINED!**

G-D help us! How do people have the gall to lie to us and claim that there is “no downside” to the shot?

Here are some specifics. As of June 25, following about 6 months of use of the Covid injections in the U.S., there have been reported to VAERS:

- 54,551 ER visits, 23,257 hospitalizations, and 1,003 patients in ICU
- 1,794 cases of facial paralysis
- 1,874 strokes
- 1,945 cases of pulmonary embolism (blood clot in lung)
- 722 cases of cardiac arrest
- 909 cases of oxygen saturation decreased
- 1,434 cases of deep vein thrombosis
- 208 cases of kidney failure and 610 of acute kidney injury
- 8,829 cases of tremor
- 4,160 cases of blurred vision, 2,263 of vision impairment, 233 of eye hemorrhage, and 614 cases of blindness
- 3,775 cases of gait disturbance and 2,135 cases of balance disorder
- 917 cases of speech disorder
- 766 cases of memory impairment and 644 cases of hallucination
- 902 cases of deafness
- 423 people required resuscitation and 514 required intubation

These and more can all be verified at medalerts.org.

For statistics from the worldwide W.H.O database, go to <http://www.vigiaccess.org/> and put in Comirnaty (Pfizer's European brand name) to see a breakdown of 1,277,772 adverse events reported from this injection. Interestingly, we know that these numbers are really way lower than the reality because we hear numerous reports of doctors REFUSING to make a VAERS REPORT, CLAIMING THAT A STROKE OR HEART ATTACK A FEW DAYS AFTER THE INJECTION "WAS UNRELATED TO THE SHOT," and because studies have shown that typically only 1% -10% of vaccine/injection adverse reactions get reported. <https://digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-lazarus-final-report-2011.pdf> (p. 6) <https://www.congress.gov/106/crpt/hrpt977/CRPT-106hrpt977.pdf> (p. 19)

You can see endless personal stories of injection deaths and disabilities worldwide at <https://thecovidblog.com>.

Crazily enough, until and except for the clots involved in the J & J pause, the CDC still refuses to acknowledge **any link** between the corona injection and those deaths, so, as Brian Shilhavy wrote in Health Impact News, the network news sites are still telling people that "there have been no deaths associated with the injection." Mr. Shilhavy points out that the **CDC is a corrupt private organization with no elected officials, they hold numerous patents on injections, and they earn revenue from the sale of injections.**

Dr. Peter McCullough is a mainstream doctor who recently has come out very strongly about the dangers of the corona shot. He is a Professor of Epidemiology at Baylor University, consultant

cardiologist and Vice Chief of Medicine at Baylor University Medical Center, and Principal Faculty in Internal Medicine for Texas A & M University Health Sciences Center. He has over 1,000 publications, and is the most published scientist in the history of his field. **Dr. McCullough was interviewed by Alex Newman of The New American recently and said:**

“A typical new drug, at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it’s pulled off the market.” He compared what is happening now with the corona shots to 1976, when the Swine Flu injection was given an EUA. It caused 500 recorded cases of paralysis and 25 deaths, and was pulled off the market. **Remember, we’re now up to over 10,000 deaths, and about to start a massive campaign giving it to 12-year-olds, and we have thousands of little kids and babies in trials...has our nation lost its mind??** <https://leohohmann.com/2021/04/30/highly-cited-covid-doctor-comes-to-stunning-conclusion-govt-scrubbing-unprecedented-numbers-of-vaccine-related-deaths/>

Dr. McCullough says that what we’re seeing now, with so many deaths after an experimental drug, is unprecedented. Here are a number of VERY important links to view by Dr. McCullough:

<https://rumble.com/vhdqop-vaccine-coercion-prof.-risch-and-dr.-mccullough-speak-out.html>
<https://thenewamerican.com/covid-shot-killing-large-numbers-warns-top-covid-doc-peter-mccullough/>
<https://rumble.com/vhp8e1-massive-world-renowned-doctor-blows-lid-off-of-covid-vaccine.html> <https://rumble.com/vgjw85-covid-shot-killing-large-numbers-warns-top-covid-doctor-peter-mccullough.html>

<https://www.bitchute.com/video/shVbHD5jaezE/>

CONTRARY TO CLAIMS THAT VAERS REPORTS ARE AN EXAGGERATION, NEW EVIDENCE SHOWS CLEARLY THAT THEY ARE A GRAVE UNDERREPORTING OF THE TRUE DEATH TOLL. A lawsuit was just filed on July 19 in California against the CDC, based on the sworn testimony of a whistleblower within the government whose access to the databases allowed her to discover that **45,000** Medicare and Medicaid patients *alone* have died **WITHIN 3 DAYS** OF THEIR SHOTS, AND THE CDC has been hiding this information. See <https://dailyexpose.co.uk/2021/07/19/vaers-whistleblower-45000-dead-from-covid-19-vaccines-within-3-days-sparks-lawsuit-against-federal-government/>.

Dr. Zelenko testified that he personally knows of **TWENTY CASES OF DEATH** from the shots in which a doctor tried to file a death report with VAERS, but the system would not accept the report.

Taking all the considerations limiting what actually appears on VAERS into account, such as:

- 1) known chronic underreporting of adverse events, confirmed previously by studies showing that only 1%-10% of adverse events get reported to VAERS
- 2) the CDC *taking down VAERS reports*, according to whistleblowers within the agency (here is a fascinating presentation offering evidence of the same:

<https://www.cnbsnews.live/documentaries/cdc-removes-150k-deaths-from-vaers-system-vaccine-genocide/>),

Dr. Zelenko estimates the TRUE NUMBER OF DEATHS IN THE U.S. FROM THE SHOTS TO BE 200,000 as of July 2021.

Ironically, when the Johnson & Johnson injection was paused in the U.S., **supposedly because of 6 cases** of a certain severe blood clot, some people whom we spoke to expressed approval and

admiration for the “extreme caution” being taken by the government in pausing the injection after only 6 cases of blood clots! **If only they knew the truth! Not only have so, so many MORE people than this been killed and grievously injured by the J & J, but Pfizer and Moderna are EQUAL offenders. The CDC and FDA disingenuously chose to focus here on the 6 people (turned out to be 8, or by another count, 15, that the CDC’s advisory panel later found) who had ONE TYPE OF BLOOD CLOT, “cerebral venous sinus thrombosis combined with thrombocytopenia” (blood clots in the brain combined with low platelets), but there were many people who died from OTHER types of clots, after all 3 injections.**

For example, on the VAERS site, if you search for death from any type of thrombosis (blood clot), there are 27 deaths listed for Pfizer, 19 deaths for Moderna, and 13 deaths for J & J. (This was written a few months ago. Updating now, there are a total of 182 cases of thrombosis after Covid-19 vaccine in which the patient died, as of July 30. See www.medalerts.org.)

To my utter shock, on April 23, an advisory panel for the CDC voted to RECOMMEND the resumption of the use of the J & J injection WITHOUT adding any extra warning about the link to blood clots that was discovered, claiming that while resuming the J & J would indeed be expected to lead to about 24 more cases of thrombosis with thrombocytopenia syndrome, it would “prevent 1,435 deaths from Covid.” If you have read what we wrote previously about the gross inflation of “Covid deaths,” you will realize that this justification for resuming a killer shot is simply a murderous lie. In particular, consider that more of the cases of this rare blood clot are found in YOUNG WOMEN. The highest risk is in ages 30-39. These women are at an infinitesimally small risk of dying from corona. How is it ethical to expose them to the danger of a possibly lethal clot, particularly without even informing them of the risk? One of the women previously affected was a Nevada teenager, **Emma Burkey, who underwent 3 brain surgeries to repair blood clots she developed about a week after receiving the J & J injection.** How would Covid have hurt her if had she contracted it? The survival rate for 0 -19 year olds is 99.997%!

Consider the tragic, needless death on April 19 of Anne VanGeest, a 35-year-old wife and mother, 11 days after receiving the Johnson & Johnson shot. She developed an acute subarachnoid hemorrhage (bleeding between the brain and tissue around the brain) 8 days after being vaccinated, and died three days later. See <https://childrenshealthdefense.org/defender/35-year-old-woman-dies-brain-hemorrhage-johnson-johnson-vaccine/>. **Anne’s chances of survival, had she contracted Covid, even without proper treatment, were 99.98%. Why did she need a deadly injection?**

(As a side note, The Defender reported that the FDA released a 13-page report about the manufacturer of the J & J shot, Emergent BioSolutions, detailing a series of problems with their plant. The report states that the plant was not maintained in a clean and sanitary condition, was poorly designed and dirty, unsealed bags of medical waste were observed, the facility could not be adequately cleaned, and employees were not properly trained. Wow. And people are blindly rolling up their sleeves to get the stuff made at this plant put into their bodies.)

A study released recently by Oxford University found the number of people who developed CVST blood clots after Covid injections was about the same for Pfizer, Moderna, and Astra Zeneca. (Astra

Zeneca in the EU, like J & J in the U.S., was paused because of blood clot issues. The study did not look at J & J because it wasn't approved in the EU, where the study was done.)

There must have been an agenda behind the "pause" of the J & J, but it's certainly not because they truly are cautious with our safety. **If they were so caring**, they would have paused the J & J **right after its rollout**, when in early March, 32-year-old New York stagehand Benjamin Goodman **died less than 12 hours after injection** and **25-year-old Connecticut educator Desiree Penrod died a week after her shot**. See the COVID Blog for these stories and many more.

In the end, the FDA gave the go ahead to resume the J & J shots that caused the fatal blood clots, despite their admission that it is linked to the clots!

Had the CDC and FDA truly cared about our safety, they would have immediately paused the **Pfizer right after its rollout in December, when a healthy 56-year-old Miami obstetrician, Gregory Michael**, developed a rare blood disorder, idiopathic thrombocytopenic purpura, **within 72 hours after vaccination, causing him to have no platelets**. Although he was hospitalized in the ICU, **none of the treatments were able to stop his internal bleeding and he died 16 days after vaccination from a hemorrhagic stroke**. (Unsurprisingly, the Pfizer spokesman said "We...don't believe at this time that there is any direct connection to the injection." Does that pass the straight-face test in your eyes?) See <https://www.nytimes.com/2021/01/12/health/covid-vaccine-death.html>

Here is a very dramatic story: **A 48-year-old plastic surgeon in Ohio, Dr. Thomas Flanigan, had mocked "anti-vaxxers" and made fun of fears of the Covid shot. He received the first dose of Moderna on January 6, according to his Facebook page, and the second dose on February 3. At some point afterwards, he wrote his own obituary – perhaps as a joke or maybe after adverse effects of the shots started. He passed away on April 27, leaving a wife and three children ages 10 to 14. See <https://thecovidblog.com/2021/05/07/thomas-flanigan-ohio-doctor-writes-his-own-obituary-after-moderna-shots-dead-11-weeks-later/>**

Time and space make it impossible to write all the tragic stories I've read. Here are some recent headlines, all REAL people!

"57-Year-Old Man Mocks "Anti-vaxxers," DEAD Seven Days After Johnson & Johnson Shot"

"45-Year-Old California Father of Two DEAD 10 Days After COVID Vaccine"

"22-Year-Old Israeli Girl Dead Following Pfizer mRNA COVID Vaccine"

"Healthy 27-Year-Old Chicago Doctor Dead 3 Months Following COVID shots Raises Long Term Safety Concerns"

"Entire City in Shock as Another Italian Professor is DEAD Following the AstraZeneca COVID Vaccine"

"Death Rates in Israel Skyrocket Following Pfizer Experimental COVID "Vaccines"

"28-Year-Old PhD Physical Therapist DEAD 2 Days After Being Injected With COVID Experimental mRNA Vaccine"

“22 Elderly With Dementia Dead in 1 Week After the Experimental mRNA COVID Vaccine in the Netherlands”

“German Microbiologist: “They are Killing People with these COVID Vaccines to Reduce the World’s Population”

Aside from the deaths, there are many thousands of hospitalizations and disabilities as well listed on the VAERS database. To give you a taste, **I just watched a video on Youtube about a young, healthy Mississippi man, Brad Malagarie, who was left partially paralyzed and unable to talk after suffering a stroke immediately after the J & J, while another Youtube video shows a young, healthy 33-year-old woman in Pennsylvania who became paralyzed from the chest down, 12 hours after the Pfizer injection, without suffering a stroke. Doctors could find no reason for her sudden paralysis. They ran every test that they could on her and all came back clear.** (The most frustrating part of that video was watching her arrogant doctor at Allegheny General Hospital claim that there could be “multiple reasons” for the paralysis, and refuse to acknowledge that it was caused by the injection.)

A sampling of the other tens of thousands of horrible side effects reported on VAERS after the corona injections (as of June 25): 584 reports of miscarriage or premature birth, 2,310 cases of Bell’s Palsy reported, 365 cases of Guillain-Barre Syndrome (an autoimmune disease that leads to death, and which is on the FDA list of 22 possible negative effects of the injection), 1,217 permanent disabilities, and much, much, more.

Sadly, the deaths and injuries reported certainly represent only a tiny fraction of the true amount because studies have shown that generally only one percent to ten percent of negative effects of vaccines/injections are reported to VAERS. HHS-sponsored [2010] Harvard Medical School project reported, “Adverse effects from drugs and injections are common, but under-reported...Likewise, **fewer than 1% of vaccine adverse events are reported.**”

<https://digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-lazarus-final-report-2011.pdf> (p. 6) In 2000, former FDA commissioner David A. Kessler estimated **only a fraction of adverse reactions** were being reported to VAERS, the U.S. government database to track vaccine adverse reactions. <https://www.congress.gov/106/crpt/hrpt977/CRPT-106hrpt977.pdf> (p. 19) There are also numerous injection horror stories and videos on websites and social media, but they are often taken down.

Similar stories are happening worldwide. For example, the European database, EudraVigilance, reports 18,928 deaths and 1,823,219 injuries, as of July 17, following the four injections in use in Europe. Strangely (or actually, not so strangely), while the Norwegian government says that the AstraZeneca corona injection is more dangerous than corona, especially for young people, the European Medicines Agency continues to recommend it! See <https://medicalkidnap.com/2021/07/20/18928-dead-1-8-million-injured-50-serious-reported-in-european-unions-database-of-adverse-drug-reactions-for-covid-19-shots/> for a breakdown of the 10,570 deaths by the brand of injection received and by the cause of death that resulted from it, such as cardiac, blood and lymphatic system, respiratory, psychiatric, nervous system, metabolism, renal, etc., disorders. **There is also a fascinating video on the above link by Mordechai Sones, with data compiled from healthdata.org and IHME (The Institute for Health Metrics and Evaluation), that shows the effects of the COVID-19 shots in various countries with their**

mortality rates. In almost every country, death rates INCREASED JUST AFTER THE INJECTION ROLLOUTS. Also see this link for an extremely strong presentation by a French doctor showing the same thing. Where the injection goes, very bad things follow. <https://www.globalresearch.ca/covid-19-vaccines-lead-to-new-infections-and-mortality-the-evidence/5746393>.

There are also 19,916 eye disorders, including hundreds of cases of blindness, following the Covid injection, reported to VigiBase, a database for the WHO.

In the U.K., there are 1,440 reported dead and 1,037,376 reported injuries, as of July 1. **Adding up the U.S., Europe, the UK, and the low estimate we have for Israel, we see that there have been *more than 30,000 deaths* and 3,200,000 injuries that we *know of* within a very short time after injections.** Of course, we know that there are *so many more unreported*, and this isn't counting India and other countries for whom we haven't seen a reporting system yet. (India is seeing an awful spike in deaths since it ramped up its mass injection campaign. More on India later.)

WHAT IN THE WORLD IS HAPPENING IN ISRAEL? People think that Israel is a success story, but it's actually a horror story. The government ran a huge trial on its citizens without their permission, telling them falsely that the shot was FDA approved, and did not provide almost any reporting system for adverse events and deaths. Not only that, but doctors, nurses, patients, and family members are threatened and/or paid off to keep quiet about deaths and disabilities resulting from the shot. The resulting "safety data" from Israel was then used by other countries, including the U.S., to justify the use of the shot in their populations. Now, the people are suffering horribly, with sudden death, myocarditis, paralysis, autoimmune and neurological disorders, infertility, fetal death, repeated miscarriages, and much more. If you want to hear the truth, call Rabbi Uri Sofer, a Dayan in Bnei Brak, at 011-972-53-310-0170. Also, see this extremely powerful article that explains clearly how the Israeli government betrayed its citizens, and what they are now suffering: <https://americasfrontlinedoctors.org/frontlinenews/israel-and-pfizers-dirty-little-secret-opinion/> and <https://www.the-people-committee.com>.

CHAPTER 5: THE INJECTION AND FERTILITY, PREGNANCY, NURSING, AND CHILDREN: THE SCIENCE AND PERSONAL STORIES

Fertility and Pregnancy:

You may have seen or heard the unscientific, pat propaganda being parroted by some organizations and doctors claiming that "there is no reason to fear that the injection poses a risk to pregnancy or fertility." I am here to **warn you with all my heart** that these "safety statements" are *against* what the **top scientists** in the world are *actually* saying, and **the injection poses a *very significant risk* to pregnancy *and* to both male AND female fertility.** I will start with a collection of statements from numerous acclaimed doctors and scientists, titled "Japanese Study Confirms Every Parent's Worst Nightmare."

Early warnings about possible infertility issues from the Covid injection were called propaganda and conspiracy theories. Injection proponents said there was no biological way the Covid injections could affect fertility.

Now, Pfizer’s data, recently released by the **Japanese regulatory agency**, shows the injection mRNA accumulating in the ovaries, raising new concerns about the Covid injections causing infertility. ¹

Dr. Byram Bridle, M.D., Associate Professor of Viral Immunology at the University of Guelph, Ontario, Canada, at whose request the Japanese agency released the data, stated:

“With [the injection mRNA] accumulating in the ovaries...will we be rendering young people infertile?”²

Dr. Robert Malone, M.D., M.S., Discoverer of in-vitro and in-vivo RNA transfection and inventor of mRNA injections said: “We have concentration in ovarian tissue of a novel lipid reagent that is previously untested...we just don't know what that means...that's all about reproductive toxicity and potential consequences in terms of birth defects.”³

Roger Hodkinson, MA, MB, FRCPC, FCAP, CEO of Western Medical Assessments says, “There is “sufficient evidence...to show the [injection] could kill unborn babies in current pregnancies and permanently stop men from having children.”⁴

Dr. Zev Zelenko, M.D., who saved thousands of people worldwide from Covid with his hydroxychloroquine protocol, and advised President Trump, the president of Honduras, and the president of Brazil, said: “Increase in miscarriages and spontaneous abortions by 8 to 24 times before 20 weeks gestation”; “Infertility from reduced [seed] counts and ovarian dysfunction.”⁵

Dr. Christiane Northrup, M.D., OB/GYN says, “We’re getting disturbing reports from fertility clinics. Men who have had the shot have seed that is no longer viable. The women who have had the shot have eggs that will not develop.”⁶

Dr. Michael Yeadon, M.D., former Chief Scientific Advisor, Pfizer, and **Dr. Wolfgang Wodarg, M.D.**, lung specialist, said, “... infertility of indefinite duration could result in vaccinated women.”⁷

Do parents have the right to subject their children to a dangerous experimental injection, particularly when doctors agree that children aren’t even affected by Covid? ⁸

8 <https://www.israelnationalnews.com/News/News.aspx/304124>

In a May 3 article, Dr. Mercola reports the shocking news that the **CDC** is now recommending pregnant women to get the Covid-19 injection *based on preliminary post-marketing surveillance data(!)* The CDC has *absolutely no way* to gauge the safety of these shots in pregnancy at this point. It will take years of follow-up on the women who have received it, and their babies, to know the real effects. And yet, even with all the pregnancy losses reported on VAERS, and the thousands of reports of menstrual irregularities and hemorrhaging already coming in, the CDC has the chutzpah to pretend that a few months of *post-marketing surveillance* is a reliable way to ascertain the safety of a brand-new drug in pregnancy? Since when are medical studies conducted this way? Please see

<https://articles.mercola.com/sites/articles/archive/2021/05/03/covid-vaccine-for-pregnant-women.aspx>.

Something is very, very wrong. We have never in our lives seen a drug – and a totally brand-new technology, to boot – being recommended to pregnant women based on so little safety data and with so much evidence of danger, both theoretical and factual. I cannot fathom how obstetricians and medical associations are ignoring the science that shows that there IS INDEED VERY GREAT REASON TO BELIEVE THAT THE COVID-19 INJECTION CAN RESULT IN PREGNANCY LOSS AND INFERTILITY, chas v'shalom. Among the many scientists and doctors issuing this warning cry is Dr. Michael Yeadon, former Chief Scientist and Vice President of Pfizer itself.

FROM the New England Journal of Medicine (April 21, 2021): “Preliminary Findings of mRNA Covid-19 Vaccine Safety in Pregnant Persons” (April 21, 2021). While the summary attempts to obfuscate the serious findings, a careful reading of the numbers in this study shows that covid injection in the first two trimesters increases miscarriage by a factor of more than 10 times the national average. The study looks at 829 completed pregnancies.

<https://www.nejm.org/doi/full/10.1056/NEJMoa2104983>

700 women got the injection in their 3rd trimester.

129 women got the injection before their 3rd trimester.

104 miscarriages (loss of pregnancy before 20 weeks) happened in the 129 women who got vaccinated before the 3rd trimester.

DOING THE MATH, THIS MEANS THAT 81% OF WOMEN WHO GOT THE INJECTION BEFORE THE 3RD TRIMESTER HAD A MISCARRIAGE.

What is the NORMAL rate of miscarriage? Once a woman has missed her period and knows she's pregnant (this is called “4 weeks pregnant” because doctors backdate the count to date of the last period onset), the miscarriage rate is only 10-15 percent.

Two weeks later, once the heartbeat is heard at approximately 6 weeks of pregnancy, the miscarriage rate drops to 5 percent.

Assuming that all the “pregnant” women in the study knew they were pregnant because they were past 4 weeks (obviously, or they could not have declared themselves pregnant), and that statistically the majority of them had to be past the 4-6 week window, we can estimate a 7 percent risk of loss at most that the first-two-trimesters group should have had overall.

YET 81% OF THEM LOST THEIR BABIES. Read this article and understand how this information was hidden: <https://whiskeytangotexas.com/2021/06/30/huge-red-flag-medical-researchers-caught-burying-data-proving-82-miscarriage-rate-in-jabbed-expectant-mothers/>.

To be fair, we must note that these numbers reflect *completed pregnancies*, so as more women who did not lose their pregnancies go on to give birth, hopefully these numbers will not be quite this

high. However, there is absolutely no question that a HUGE RATE OF LOSS is being seen in our own communities among vaccinated women, *Hashem yeracheim*.

(This is NOT to say that the injection is safe in the 3rd trimester. There are many unexpected losses and preterm births from the 3rd trimester being reported to VAERS and in the community. We are just highlighting the most startling findings from the study.)

A.B., HHC, who is highly versed scientifically, studies the papers on this topic and maintains contact with Molecular Biologists and other researchers, summarized some of the scientific reasons for the danger to pregnancy and fertility as follows:

The injection induces the body to produce spike proteins that are almost exactly identical to the protein needed for placenta formation, called syncytin-1. If one forms an antibody response against the spike protein, as is the whole point of the injection, this means that it is highly likely that the body is also now trained to attack syncytin-1, causing the inability to form a placenta and carry a pregnancy. (See *Nature*, March 2000, "Syncytin is a captive retroviral envelope protein involved in human placental morphogenesis.")

To explain why the scientists expect this, in simple form, understand that there is a process called "molecular mimicry." This means that if the body's immune cells are called upon to attack a foreign substance such as a virus (or spike cell), and there are cells in the body that contain similar proteins to the invader under attack, the immune cells will also attack the person's healthy cells. This process is the cause of autoimmune diseases. (*Journal of Autoimmunity*, Molecular Mimicry and Autoimmunity, October 2018)

The antibodies induced by the corona injection are **very different from the naturally occurring antibodies resulting from infection, in a number of crucial ways**. One is that while the cells producing the natural antibodies soon go into hibernation in the bone marrow (ready to be called upon if needed), the injection-induced antibodies continue to be produced, and circulate in the bloodstream, as the body continues to make spike proteins.

It is very frightening to realize that the syncytin-1 protein is also contained in egg and sperm cells (gametes). Do you really want to risk having your own body destroy your own eggs or sperm? (Indeed, we read that injected men found that their sperm counts have greatly decreased.)

If this is the opinion of world-class scientists, how is it possible that pregnant women are being encouraged and coerced to be injected with an experimental genetic treatment that is untested in pregnancy and is already correlated with many poor fetal outcomes? These women and their helpless babies are now the guinea pigs, and when the results become apparent, it's too late for their babies, *Hashem yeracheim*.

A.B. continues expressing the scientists' concerns with genetic possibilities, which are too awful to contemplate, explaining:

Anything that grows has within it specialized cells that work together to produce the building blocks that make up the organism. These specialized cells are referred to as the organism's genes, which are

primarily made of DNA and RNA. DNA contains the instructions that each part of our body needs in order to develop, survive, and reproduce.

The mRNA takes the instructions from the DNA and carries it to the cells, so that the cells can carry out the functions that they were created for. It was previously believed that this was a one-way design, in that only the DNA can give messages to the mRNA, but recent discoveries show that the mRNA can also alter a person's DNA, which is what makes us human. (*Science Daily*, January 22, 2020, "Surprise Discovery Shakes Up Our Understanding of Gene Expression.")

In the case of the injection, mRNA has been programmed to bring the message to the cells to make spike protein from the SARS Covid-19 virus. Therefore, our own bodies will be factories that produce the weapon of our own enemy, the very protein that causes the worst symptoms of the virus, including death.

There may come a time when the body will no longer produce enough antibodies against the spike protein. Should that happen, the immune system will then begin producing a type of killer cell designed to destroy abnormal cells (such as cancer cells), meaning that every cell that produces these spike proteins will become a target for these cells. What will happen if every cell in the body is producing these cells? The person can end up with multiple organ failure, chas v'shalom!

While no one is talking about this, there is another real threat to the future of the human race. There are genetic disorders that come from one small damage to a person's DNA. One example is Progeria, also known as Hutchinson-Gilford syndrome. It is an extremely rare disorder that causes children to age rapidly, and while still teenagers, they die from old age. It is caused when the DNA gives faulty instructions for the production of just one protein (prelamin A).

We need to ask the question – If the mRNA changes a person's DNA so that it is now coded to produce instructions for spike proteins, what kind of influence will this have on the fetus? Will future generations survive? If so, what will their lives be like? It's too frightening to consider.

No wonder this HHC cannot sleep at night. If only all the rest of Klal Yisrael would realize how badly we need to be crying out to Hashem to save us!

Why do women allow themselves to go against their logical, innate hesitations and receive this new injection in pregnancy? Obviously, it's because they're being scared to death by the media and their doctors, telling them that they could lose their baby if they contract corona. But this is propaganda because there IS SAFE PREVENTION and SAFE, EFFECTIVE TREATMENT for corona, in pregnancy! According to the CDC's own recommendations prior to the pandemic, hydroxychloroquine (HCQ) is totally safe in pregnancy. Based on the advice of two expert doctors that I consulted, a pregnant woman can safely prevent corona by taking 200 mg of hydroxychloroquine daily for 5 days, and then continue taking 200 mg once a week. Doctors recommend that women should also take daily: 25 mg of zinc, 3,000-5,000 IU of Vitamin D, and 500-1,000 mg of Vitamin C.

In case a pregnant woman should contract the virus, a safe and effective treatment, based on expert MD advice, is 400 mg of HCQ TWICE A DAY on day one, and then 200 mg twice a day on days 2-5, plus 5,000 IU daily of Vitamin D, 1,000 mg of Vitamin C, and 50 mg of zinc daily. Additionally, please see the protocol I detailed above from the HHC in Israel, which includes enzymes and an oil rub, and is extremely effective. This can and should be used together with the HCQ protocol.

Every woman who is pregnant, or wishes to have children, should keep in mind the words of Dr. Simone Gold who made a heartfelt plea to women of childbearing age to realize what they are doing to themselves by taking the shot. She relates: A woman who was 5 months pregnant got very sick with corona. (Note: Remember, that only happens to a small percentage of women.) She survived, but lost her baby. The examination of the placenta revealed that it was extremely inflamed (due to the spike proteins of the virus). Dr. Gold passionately points out that by receiving the injection, a woman is causing her body to continually produce that same spike protein, which inflames the placenta, very possibly forever! So in a misguided and dangerous attempt at protecting a current pregnancy (which actually endangers the current pregnancy), a woman who receives the injection is also gravely endangering any future attempts at pregnancy.

Please, mothers of Klal Yisrael, WAKE UP! At least, wait, and don't give the shot to your young sons and daughters!

I received a screenshot of a Facebook post that tells of a Utah fertility clinic that now HAS THE EVIDENCE THAT THE INJECTION CAUSES STERILIZATION. They report that a female egg donor had done three rounds of egg donation, so they absolutely knew that she was fertile. She got the corona injection, and came in to do a fourth round. The sperm source has a history of healthy embryos so they know he is fertile. But on this round, while over 30 eggs were retrieved, ZERO embryos survived past day 4-5 of development! That's when the cells that will be the placenta start to form...

It's not just this woman, she wrote. They're actually seeing a lot of this, except in this case they had absolute evidence because they had worked previously with both the donors.

And at their staff meeting, they discussed the incredible, unprecedented numbers of miscarriages that they are seeing.

Fertility clinics are also seeing that vaccinated men's sperm is no longer motile, and their sperm counts have gone way down.

All this is not only theoretical or far away. In addition to the reports on VAERS and social media, we have heard many personal accounts of tragedy in our communities after pregnant women were injected, *Rachmana litzlan*. Nobody wants to go public with these personal situations so I don't have names or details to share with you, but the stories are tragically there.

But I'll start with, *l'havdil*, one of the only stories that I have with a happy ending. It, too, serves as a note of caution to anyone thinking of getting the shot in pregnancy.

I got a message on an Erev Shabbos about a woman in approximately her 5th month who had taken the first shot the day before, after a **tremendous amount of pressure from her doctor**. She was being made to feel that every day she waited to get the injection, she was putting her baby in danger. Although she had strong misgivings, she finally forced herself to go get it. The next day, she was burning up with fever and feeling progressively weaker until she could barely move. Another volunteer recognized that the woman's body was in a hyper-inflammatory state, and there was no telling what could happen next, *chas v'shalom*, to her or her baby. She and I worked for hours on Erev Shabbos, and into Shabbos, to get a special tea concentrate to the woman, sending it about two hours by Uber. The tea modulates the immune system and calms down the hyper-inflammatory response. **B"H, she**

started feeling better right away when she began drinking it, and recovered. However, there are no guarantees, so nobody should take the shot thinking that the tea will take care of any problems they may have afterwards.

This tea concentrate **has** successfully helped many people with their symptoms after the **first** shot but it has not been successful after the second shot. So if you are between shots, **STOP WHERE YOU ARE!** (If someone needs this anti-inflammatory tea concentrate for corona or for an adverse injection reaction, you can get it from Hindy Rabinowitz in Lakewood. Her number is: (732) 600-6001.)

Unfortunately, Mordechai Sones and Rabbi Uri Sofer in Bnei Brak have many stories about women who weren't as fortunate and lost their babies right after the shot, R"l. OB-GYN Dr. Northrup says that there are SO many miscarriages, all of a sudden. See statistics quoted above from NEJM.

But in some communities, to our shock and horror, obstetricians are *pushing* the injection on their pregnant patients – and making them feel guilty if they are hesitant!

Here are some other horrible reports that we have received, *Rachmana litzlan*:

***A woman who was 8 months pregnant took the injection and lost her baby a week later. Their Rav said that he's hearing this story from *many* people!**

***A woman who was 7 months pregnant lost her baby after she was vaccinated.**

***A young woman was 5 months pregnant with a healthy pregnancy and lost her baby right after the injection.**

*Another frum woman just had a **miscarriage after the injection.**

*We heard another story of a woman who took the injection, and when she had her checkup soon afterward, **there was no sign of life, R"l.**

*A medical practitioner recently told us about a **woman who had a miscarriage after the injection.**

***Just in: A woman who had been by her recently injected in-laws lost her baby and three months later is still bleeding heavily with clots (see below.)**

*My friend in Eretz Yisrael wrote to me recently that she had spent the day before in the GYN emergency room at Hadassah Hospital. She was bewildered to see about 25 to 30 women who came in waves throughout the eight hours she was there, **all hemorrhaging. Some women were pregnant, some were middle-aged, some were OLDER. One was 70 years old!**

I gasped when I read her words because that's **exactly what the VAERS site reported as well – hemorrhaging in older, post-menopausal women.**

It is one thing to read it on VAERS and quite another to hear an eyewitness report. Of course, we don't know for sure if all these women were injected. Most of Israel has been injected, but some of these

women could also have been experiencing the phenomenon we've just become aware of: **injection side effects, particularly those relating to women's reproductive systems, in non-injected people who spend time around injected ones.** More on this later.

My friend told others what she had seen, and received screenshots of people's posts on social media and links to articles describing this issue. **Apparently, hundreds and hundreds of women in Israel have been having the very same bleeding disorders post-injection, as have tens of thousands of women worldwide.** See <https://www.haaretz.com/israel-news/.premium-women-say-covid-vaccines-affect-their-periods-so-why-don-t-doctors-care-1.9754865>. And see more on this later, as we discuss taharah issues.

A Rav who is working to spread knowledge of the corona injection dangers just sent me this: A dear friend of ours who is an experienced doula just told me the following alarming report:

A pregnant woman received the Covid injection. Shortly before her first shot, she had an ultrasound showing that everything was totally normal. One week after her injection, she had a stillbirth. Her placenta was found to be severely calcified. This is highly abnormal and totally unheard of. Small and isolated amounts of calcification on the placenta are occasionally discovered in women who are overdue (i.e., at 42 weeks), but not COMPLETELY calcified! And the small amounts of calcification are EXTREMELY rare at an earlier stage. Plus, it's unheard of for a sonogram to be fine, and a week later, a fully calcified placenta. It's impossible. It has to be chemically induced.

A calcified placenta means that the placenta is aged. A thought: If the Covid injection effects a "warp-speed" aging process on a placenta, could it be having the same effect on the bodies of adult recipients?"

Right after I shared this story, someone sent me one back! It was a screenshot of the VAERS site at wonder.cdc.gov. A 37-year-old woman from Texas had a sonogram at 28 weeks, which showed a healthy placenta. She got her Covid shot the next day, on January 14. A week later, a repeat ultrasound at 29 weeks, 1 day, showed significant placenta issues. It had calcified, aged prematurely, and was damaged in other ways. She stated on January 26 that she was currently hospitalized until delivery. Her VAERS ID # is 974345-1.

The injection also can cause preterm labor. There are countless cases, both from VAERS and community reports. Here is **one** story, which a woman posted on my WhatsApp group: "My daughter-in-law was pregnant and got corona in her 7th month rather badly. She, fortunately, managed to stay out of the hospital, and it took her at least three weeks to sort of recover. She went to the doctor and he told her to have the injection. A week later she suddenly went into labor and gave birth to a 2.3k baby, 5 weeks early. BH, he is out of the ICU but still in the hospital."

There are many cases of premature sudden **rupture of membranes** (water breaking) **post-injection.** In **one tragic case I read about, the baby was too young to survive** outside the womb. The young mother's previous three pregnancies had been uncomplicated.

MORE TESTIMONY ABOUT CYCLE COMPLICATIONS AND INABILITY TO ATTEND THE MIKVAH:

*I received this message recently. It is horrifying in its implications for the shalom bayis and kiyum of our communities: “Hi, thanks so much for all you put into this massive project to help people! In case you’re collecting more injection stories, I wanted to share with you something that someone **I know personally** heard from her sister. She was speaking with a **kallah teacher** who said that her **kallahs who have had the injection are having issues with Taharah for the wedding, really having problems...** A **Rav** we know in an Anglo community in EY also **said that he is seeing many menstrual bleeding issues in injected women.**”

Since receiving this, I got **more “kallah teacher reports”** of the **same issues**, as well. **It’s real, and it’s very, very scary.**

***A kallah teacher came to a Rav about her student who was regular from ages 12-18, until she took the injection. The Rav replied: “I get this same story MORNING AND NIGHT!”**

People in our community say (and this is “a drop in the bucket” of what’s being seen):

“My friend, who is injected, has been bleeding nonstop for FOUR MONTHS STRAIGHT! She hasn’t stopped bleeding for even ONE DAY. She’s going out of her mind!”

“My friend’s friend had abnormal menstruation after receiving the shot (a teenager, who is normally immensely regular, clockwork style).”

“My friend’s 19-year-old daughter, formerly regular, has had THREE periods in the last approximately 40 days!”

“My friend knows a woman whose cycle completely stopped after the injection.”

“I just met a man who knows a young couple. The wife's period stopped after the second injection.”

THE TWO RABBONIM OF ASHDOD, Rav Dovid Hakohen Gross of Ger and Rav Tzvi Vizhnitzer of Vizhnitz, WROTE A LETTER WARNING ABOUT THE CORONA SHOT, BECAUSE OF THE POSSIBILITY THAT IT CAN CREATE BOTH MALE AND FEMALE INFERTILITY. IN THE LETTER, THEY MENTION WOMEN WHO WENT INTO MENOPAUSE AFTER THE INJECTIONS.

It turns out that in response to an online survey from a curious doctor, tens of thousands of women have now reported adverse reactions to the corona injection involving their menstrual cycles.

NURSING: A nursing woman who receives this shot can pass the genetic modifications injected into her body on to her baby through her milk, and is *participating in a genetic experiment on her innocent, helpless infant who has zero risk of dying from corona and has no need for any “protection” this injection pretends to offer.*

Here is a **horribly tragic story of a 5-month-old nursing baby who died** after his mother took the injection. It’s so scary and sad that we **all** need to know it, and spread the word. The baby developed a head-to-toe rash, and by night was inconsolable. He went to the ER and was diagnosed with thrombotic thrombocytopenic purpura (a very rare blood clotting disorder that has been seen in other

covid injection victims) and elevated liver enzymes. He was hospitalized but unfortunately passed away, despite medical treatments. <https://techstartups.com/2021/04/23/5-month-old-infant-died-receiving-breast-milk-vaccinated-mother-recently-received-second-dose-pfizer-vaccine-cdc-vaers-data-shows/>

(This death was reported and the VAERS ID number is 1166062.)

CHILDREN'S VACCINATION – THE EVIL ONLY GROWS AND GROWS

We are now facing a new horror: “Children’s injection trials” (child abuse) are now being performed ON BABIES FROM 6 MONTHS OLD AND UP, and to our utter shock, the FDA HAS RECENTLY APPROVED the injection for KIDS from 12-15 years old!

According to The Defender, “*While health officials admit that ‘kids do not generally suffer from severe Covid-19’ and are unlikely to directly benefit from the injections, they have no intention of excluding them from their herd immunity calculus. Instead, they claim “inoculating children could reduce the spread to people at higher risk.”* See <https://childrenshealthdefense.org/defender/fda-authorize-pfizer-vaccine-for-adolescents-experts-question/>. Of course, all this wickedness is predicated on a previous lie about asymptomatic spread, WHICH IS DISPROVEN ELSEWHERE IN OUR ARTICLE, and the lie of kids being likely to spread the virus, which they are not (more about that soon).

As the above Defender article states, the federal government estimates that one injection injury results from every 39 injections administered. In other words, if you inject 117 kids, you basically know that you’re injuring 3 children. You do the math for the millions of injections they plan to give to kids and babies! How many kids will be left dead or paralyzed, chas v’shalom?!

Here is a new article that shows the absolutely criminal Pfizer children’s trial protocols, designed in such a way as to greatly minimize any possibility of a negative diagnosis or adverse effects showing up on the records. How? In terms of what appears on the FDA report, children were only followed for ONE month after the shot (they did this in a tricky way, see details in report below), and additionally, any diagnosis made by a doctor OUTSIDE of the trial team doesn’t count. I couldn’t make this up if I tried. But how is the FDA going along with this sham trial? <https://americasfrontlinedoctors.org/frontlinenews/serious-violations-and-manipulations-of-trial-protocol-how-pfizer-obtained-fda-emergency-authorization-for-children/>.

Someone tweeted this data, reportedly from the CDC themselves (<https://wonder.cdc.gov/>):

*Almost 4,000 children have been vaccinated for Covid-19 in the United States (I haven’t checked this stat myself – maybe there are more.)

* 9 died within 28 days (0.2%). *7 children almost died. *3 children were permanently disabled.

*71 had to see a doctor, were admitted to a hospital, or had their stay prolonged.

While I was unable to navigate the above site to confirm the numbers myself, I am independently aware (from news reports I get) of 8 of those deaths, which I will list, and you can count them up

yourself. (Note upon updating: this was a while ago, and the children's deaths are tragically much higher now).

Think about this awful but crucial calculation, which someone I know made: If there are 800,000 Jewish children in our communities, and if we project the numbers from the trials onto our population, the results **ONLY IN THE SHORT TERM** are too horrific to contemplate, *chas v'shalom!* Multiply the 4,000 kids in the trials by 200 to arrive at the projections, *Hashem yeracheim*.

***1,800 dead? *1,400 almost dying? *600 permanently disabled? *14,000 needing medical attention or hospitalization?**

Whether these numbers are exact or not, even if the numbers would only be a fraction of the above, the tragedy to Klal Yisrael would be too much to bear.

What about the **LONG-TERM** effects on their lives, health, and fertility, of which we know so little but have received grave warnings from the world's top scientists?

Hashem yeracheim! WHY, WHY, WHY? Why are they going after our precious children, the future of our nation? WE KNOW THAT IT ISN'T FOR THE PURPOSE OF KEEPING THEM SAFE!

Kids DON'T need this injection!

YOUNG PEOPLE 0-19 YEARS OLD HAVE A 99.997% SURVIVAL RATE FOR COVID, and that's even without proper treatment, which the CDC suppressed, and that's even with their inflated counting methods for corona deaths.

We all need to WAKE UP!

I feel like this is a prime example of the ability of falsehood to cause death, *Rachmana litzlan*. They started with the total, absolute lie that kids are super spreaders. **WHERE did that even COME FROM?** Now, even though this has been repeatedly disproven, many people still believe it, and this lie is now being used as a basis for endangering children's lives with deadly shots – "to keep others safe from them!" There are numerous studies proving that children **RARELY** spread corona. Not because they practice great hygiene – they don't – but because their bodies don't shed much virus. Even people who supposedly catch corona from a child do not get extremely ill. In fact, living with children seems to convey some type of protection on the adults in their household. See these studies:

I HAVE A LOGICAL QUESTION. DOES ANYONE HAVE AN ANSWER FOR THIS?

IF “EMERGENCY USE AUTHORIZATION” IS GIVEN FOR A DRUG THAT IS NOT YET KNOWN TO BE SAFE, BUT IS NEEDED BECAUSE IT IS AN EMERGENCY AND THERE IS NO OTHER TREATMENT, WHAT IS THE POSSIBLE RATIONAL FOR AN EUA FOR THE CORONA INJECTIONS FOR KIDS, FOR WHOM AN “EMERGENCY” DOES NOT EXIST? (CHILDREN DID PERFECTLY WELL WITH CORONA UNTIL NOW...of the small number of kids who reportedly died from corona, many of those were sick to begin with and on chemotherapy. It also is certain that they used the trick of testing kids who came in for accidents, etc., and then reporting their deaths as corona deaths.)

It’s so, so tragically unnecessary to inject kids, and I quote here from Professor Zvi Bentwich, one of Israel’s leading immunology experts who advises international bodies on health and immunology-related issues, has extensive clinical research experience in vaccines/injections, and is the primary author of 285 scientific articles. Here are some of his statements:

*In the under-18 age group, the rate of hospitalizations from corona is 14 times lower than the rate of influenza hospitalizations.

*The number of children hospitalized in critical condition because of corona was a quarter of the number of children hospitalized in a severe outbreak of influenza in 2019.

*At least 70% of the children hospitalized “for corona” were actually found positive by chance, and were actually hospitalized for other things, like accidents and burns.

*The risk from the injection to children is greater than the benefit that will be derived from it. (I think we all knew that, too.)

IN ISRAEL, 93 DOCTORS RECENTLY SIGNED A PETITION TO THE GOVERNMENT, CALLING ON THE AUTHORITIES NOT TO INJECT CHILDREN. <https://israelnationalnews.com/News/News.aspx/304124>

HOW EXTENSIVELY DID THEY STUDY THE INJECTION IN KIDS, AFTER ALL?

According to WebMD (March 17, 2021), both Pfizer and Moderna were reported to have “launched clinical trials for coronavirus injections in children AGES 6 MONTHS TO 11 YEARS OLD. Pfizer said that the trial will enroll more than 4,600 children, and babies younger than 6 months may be evaluated later. Moderna, which is already conducting trials on children 12-17 years old, aims to enroll 6,750 younger children in the US and Canada.” (Here is a painful article about a new trial for 6-month-olds, *Hashem yeracheim*. <https://newjersey.news12.com/pfizer-begins-vaccine-study-on-children-as-young-as-6-months-old>.)

While the normal process for a new injection is MANY YEARS OF TESTING, FIRST ON ANIMALS, AND ONLY THEN ON PEOPLE TO ENSURE SAFETY (IT CAN TAKE UP TO 15 YEARS TO DEVELOP A NEW INJECTION), the FDA has somehow, miraculously in A MATTER OF MONTHS, determined that the injections are safe for kids – and are TELLING 12-YEAR-OLD KIDS to get injected...(with “approval” for younger ages as well, sure to follow) *but are they telling you about the kids who died or became paralyzed in the injection trials?*

It's not only the FDA, but to our horror, the **American Academy of Pediatrics** and the CDC (whose corporate sponsors include vaccine/injection manufacturers like Pfizer <https://www.cdcfoundation.org/partner-list/corporations>) are now **recommending this injection for all children 12 years and older**. They also decided it can be given **at the same time** as other childhood injections.

On what scientific basis did they make that decision? None, according to Pfizer: “CAN I RECEIVE THE PFIZER-BIONTECH COVID-19 VACCINE WITH OTHER VACCINES? There is no information on the use of the Pfizer-BioNTech COVID-19 Vaccine with other vaccines.”

<https://www.fda.gov/media/144414/download> (p. 4)

THE ANIMAL SAFETY TRIALS WERE barely existent, and we're NOT being given any reassuring information about how those animals are faring (surely, they were killed). THERE WERE NO LONG-TERM TRIALS. THERE IS NO SUBSTITUTE FOR LONG-TERM TRIALS – WE NEED TO SEE WHAT HAPPENS IN THE LONG-TERM!

Are you equally horrified? I *thought* that most people, even if they're okay taking the injection themselves or giving it to an elderly parent, aren't okay with experimenting on their babies and kids, and agree that there's no need for this.

Sadly, not everyone is giving this enough critical thought. I am heartbroken to hear that teens are running to get injected “for camp” without a clue of the possible consequences. There have been many young people hurt and killed in the short amount of time that this age group has been getting the injection. Nobody seems to know this! <https://medicalkidnap.com/2021/06/04/cdc-begins-mass-extermination-program-of-americans-children-aged-12-to-17-implementing-eugenic-population-control-measures-through-covid-19-bioweapons/>

A 12-YEAR-OLD GIRL IN THE JEWISH COMMUNITY TOOK THE INJECTION IN ORDER TO GO TO ISRAEL, AND BECAME PARALYZED. I spoke personally to someone with a connection to the family and verified this story. WE RECEIVED A TEXT TO DAVEN FOR ANOTHER YOUNG GIRL WHO WAS UNDERGOING SURGERY TO REMOVE A BLOOD CLOT BY HER HEART, AFTER THE INJECTION.

Someone sent me a screenshot of a heartbreaking post by Rachel Haggerty, reposted by Ashley Everly, with the note, “Parents of the child signed her up for the trial.”

“I just got off the phone from a tearful phone call from a dear friend who lost her two-year-old niece after she received the Moderna injection, hours prior to developing clots all over her tiny body. She

died. She mattered. *She was newly two.* I'm not anti-vax. I'm really not. I'm anti-human experiment."

Somehow the tragedies hit home harder when it's a tiny, defenseless being, either unborn or still very small, who didn't even choose to take the shot, but was helplessly killed.

Here is another one to make you cry (I apologize.) I quote from Brian Shilhavy at Health Impact News: [Maddie, a 12-year-old girl in Moderna's vaccine trial, is now paralyzed from the waist down, unable to urinate on her own, requires a feeding tube, and has been suffering from a bowel obstruction, excruciating pain, fainting episodes, and other neurological problems.](#) Maddie's heartbreaking story can be seen on Youtube, on the channel named "WhatsHerFace," and at <https://www.youtube.com/watch?v=8GKIFgmm7xl>

Caution: It's guaranteed to make you boiling mad. And there are more stories:

VAERS ID 1187918, 15-year-old female in New Hampshire, death from cardiac arrest about three to four days after second Moderna injection.

VAERS ID 1218081, 17-year-old female in Wisconsin, cardiac arrest and death.

VAERS ID 1225942, 16-year-old female, Kamrynn Soleil Thomas of Waunakee, Wisconsin, cardiac arrest on March 28, nine days after Pfizer injection. Death on March 30. (Further details from report: "Hemodynamic collapse at home. Persistent cardiac arrest requiring ECMO. Event believed secondary to pulmonary embolism.") <https://circleofmamas.com/health-news/16-year-old-kamrynn-thomas-dies-suddenly-shortly-after-pfizer-vaccination/>

VAERS ID 1242573, 15-year-old male, Colorado, heart failure and death.

VAERS ID 1255745, 2-year-old girl in Virginia, died on March 3, five days after second dose of Pfizer injection.

VAERS ID 1261766, 1-year-old baby boy in Florida, suffered convulsions and seizures after the Moderna shot and died two days later.

[\(https://healthimpactnews.com/2021/cdc-reports-2-more-infant-deaths-following-experimental-covid-injections-during-clinical-trials/\)](https://healthimpactnews.com/2021/cdc-reports-2-more-infant-deaths-following-experimental-covid-injections-during-clinical-trials/) (If you count all the 17-and-under-deaths that I have listed, you will find 8 children, out of 9, in the tweet, identified.)

I just received a horrible video today of a boy who appears to be about 8 years old, in his mother's arms, shaking like a leaf nonstop, just like the adults in those post-injection videos we saw a couple months ago!

Isn't experimenting with the injection on children – for whom corona is not dangerous – a criminal, immoral, and unethical act? Isn't this akin to child sacrifice? (That's Mr. Shilhavy's keen observation. He even quotes *pesukim* from *Tanach* in *Sefer Devarim* and *Sefer Melachim* about child sacrifice and idol worship.)

THE REALLY BAD NEWS IS WHEN YOU THINK AHEAD TO WHERE THEY'RE OBVIOUSLY GOING WITH ALL THIS – to try to mandate this poison shot for your kids, and mine, *chas v'shalom*. They will surely make up some cases and horror stories to scare parents so that many concerned and frightened mothers and fathers will be literally begging for a chance at getting the injection for their child. Next, it will be a requirement to enter school in the fall! I AM COMPLETELY SERIOUS – PFIZER EXPECTS TO HAVE APPROVAL FOR AGES 2 AND UP BY THE FALL! (In Israel, the push for mandatory injection of children has been an ongoing debate, and finally just started. May Hashem save us all!)

Even the people in their twenties and thirties who are now taking the injection aren't thinking logically. Their age group is not in danger from corona, so why are they senselessly risking their lives?

I've read on the news numerous reports of young people in their 20's who died immediately after injection. How absolutely heartbreaking. Corona would not have hurt them had they contracted it, but the shot took their life needlessly. (See Healthimpactnews.com for stories.)

Just in the last few weeks, the reports came in of the death of a 20-year-old Scottish boy, 12 hours after receiving the Pfizer shot, and a 21-year-old University of Cincinnati student, 24 hours after getting the J and J. (He got it two days before the pause, which came too late to save his life. How many more people have to die before Pfizer and Moderna get paused?)

Everest Romney, a healthy 17-year-old athlete at Corner Canyon High School in Draper, Utah, developed blood clots in his brain after the Covid injection. The day after the shot he felt his neck swelling, but his pediatrician initially dismissed it as a pulled muscle. Thankfully, his mother's intuition told her that it was more serious, as Everest couldn't even move his neck without the assistance of his hands, and developed fevers and incessant headaches. She kept on advocating for her son to the doctors, knowing something wasn't right, and after a more than a week of the symptoms, he was found to have two blood clots inside his brain and one on the outside. "The hardest this was I let him get that shot. And he was healthy and well before," said his mother. This story was covered on ABC4 television news. Unbelievably, the media REFUSES to identify which brand of the Covid injection Everest received. <https://www.abc4.com/news/local-news/draper-teenager-hospitalized-with-blood-clots-after-covid-19-vaccine-shot/>

Parents and pediatricians would do well to heed the words of Dr. Paul Alexander, FORMER HHS COVID ADVISOR, who warns: **"Do NOT give Covid shots to children!"**

Dr. Alexander was recently on The Ingraham Angle show on Fox News. He stated that he is opposed to giving the injections to children as they have almost zero risk of dying from corona **AND DO NOT PASS THE VIRUS ON TO OTHERS. He expressed his bewilderment at why the CDC and Dr. Fauci are allowing these injections for children, as they, too, have the data showing that kids aren't at risk of dying from Covid and aren't spreaders of the virus.** Dr. Alexander opines that if they want to give these shots to kids, then the immunity that the pharmaceutical companies have should be removed so they can be sued if any of the kids die or become injured from the injections. What a smart idea. (Please see <https://rumble.com/vgs2gn-former-hhs-covid-advisor-dr.-paul-alexander-do-not-give-covid-shots-to-chil.html> The entire show can be watched on Fox News.)

In a powerful article titled “64 Days and Counting – Why Won’t the CDC Answer Our Questions?” Megan Redshaw describes how the Defender first reached out to the CDC on March 8 with a list of questions about COVID injection injury reports in VAERS, including ongoing investigations into reported deaths, but despite constant follow-up, their questions remain unanswered. See

<https://childrenshealthdefense.org/defender/64-days-why-wont-cdc-answer-questions/>

When will people wake up? I daven to Hashem that it will be in time to save the kids, at least.

CHAPTER 6: STROKES, HEART ATTACKS, CLOTS, ANEURYSMS, SEIZURES, KIDNEY FAILURE, SUDDEN DEATH, AND MORE STORIES AFTER THE INJECTION

I spoke to a longtime Hatzala member in Israel to corroborate the messages I had seen in his name. He testified to the following: Two men who had severe strokes right their injection – one who was in the ICU for two weeks, the other a young person in his 50’s who became paralyzed. Two men who started having severe stomach pains after the shot, described as feeling like knives cutting the stomach, to the point of being unable to eat, and having to hold a pillow over the mouth to keep from screaming. One of these men also had chest pains and went to the ER. The doctor, whom he was acquainted with, told him “We are not allowed to say that anything is from the injection.”

He mentioned that other people have ringing in their ears and migraines since their injection. The worst of all is what a nurse told him – that they get tens of patients a day, about a hundred a week, coming into the hospital with autoimmune problems (this means the body is attacking itself, and was an adverse reaction to the shot that scientists warned about in advance).

This correlates with a video that I received of a television interview in Israel, dated April 21, in which Professor Dr. Michael Dersher, who is in a senior position at Beilinson Hospital, states that the emergency situation in the hospitals in Israel is one never seen before, worse than during the height of the “third wave.” Professor Dersher says that the large hospitals are seeing 500 patients coming in to the emergency room per day, while the middle-sized hospitals are getting 300-400 daily. STRANGELY, HE DOES NOT SAY WHAT THEY ARE COMING IN FOR. When the interviewer asks him what can be done to avoid catastrophe, he answers cryptically that the public must get the attention of the decision makers in the government. To anyone familiar with the terrible pressure the government has placed on the citizenry to get injected, and on the medical providers to ensure compliance, it is obvious that the professor is afraid to speak freely but is hinting at terrible numbers of injection adverse effects being seen, and is begging the public to rise up and call out the government policy. Taken together with the Hatzala member testimony that I described above, it presents a compelling and horrifying picture.

All this is corroborated by the following article, which describes how reports of post-injection deaths and illnesses in Israel have been intentionally covered up, and actually, 1,000-1,100 people have already died from the injection. See:

<https://www.unz.com/gatzmon/the-israeli-people-committees-april-report-on-the-lethal-impact-of-vaccinations/>.

Also see: <http://ch7.io/cblcu> about myocarditis in young people after injection. Please realize that as horrible as this article is, it represents only a “drop in the bucket” of the full picture of injection reactions that have occurred in Israel.

*I spoke to Rabbi Uri Sofer of Bnei Brak who told me of numerous miscarriages and stillbirths after the injection, menstrual bleeding that goes on and on, old women getting their periods, and people who contracted severe Covid after injections and passed away.

*I also spoke to Rabbi Yaakov Cohen of Bnei Brak who testified to what he has personally seen: three women in the 65-70 range getting a period after injection, bleeding problems in pregnancy and mid-cycle, two miscarriages, digestive problems and headaches.

*I also spoke to a gastroenterologist in NY who has seen many people coming in with terrible flare-ups of digestive problems post-injection. Examples include nausea, abdominal pain, worsening IBD, ulcerative colitis flare-up, and even a NEW case of a small bowel obstruction from Crohn’s, in a person who never had Crohn’s before. The GI felt that it was important to note that the patients are NOT making the connection between their problems and the injection that they had just received, so they have NOT been reporting these adverse events, and neither is she, for lack of time.

***I have received reports of FOUR people in the religious Jewish community who became paralyzed from the waist down after the corona injection.**

***I received a story of a 30-year-old man who became blind after vaccination.**

*Y. reported: “One of my *mechutanim* had a healthy and vibrant father who was in his 80’s. He was a retired chazzan and sang beautifully at my son’s *sheva brachos*...my *mechutan* begged his father NOT to get the shot, but he chose to listen to his doctor instead. A few days after the injection, he got a severe headache. After 3 days of unremitting pain, he went to the hospital, and was found to have blood clots in his brain. He was *nifter* three days later, on April 29.”

*N. reported about a friend’s relative who has allergies, but got the injection, anyway. She had an anaphylactic reaction and was hospitalized for a week. Unfortunately, she’s now back in the hospital because of uncontrollable shaking.

*M. reported that her uncle got the shot and passed away the next day.

*A Rav noticed someone saying kaddish and started a conversation with him. It turned out that TWO of his relatives had passed away at almost the same time, EACH ONE HAVING A HEART ATTACK ON THE NIGHT AFTER RECEIVING THE SHOT. (He had not connected the dots until it was pointed out to him. This explains a lot about why nobody realizes what is going on. When you’re convinced a product is safe, you aren’t even thinking along those lines.)

*B. reported how a new customer entered an establishment and was asked “What happened to your old supplier?” Turns out he had been injected and then had a stroke.

*A woman was seen healthy, vibrant and dancing at a *chasunah*, and right afterwards she received the injection and had a heart attack the next day.

***A 70-year-old man received the injection and has been deteriorating by the day since then, Hashem should help him, with shaking symptoms that appear like Parkinson's.**

***A man who had health problems (nothing deadly, though) took the injection and passed away out of the blue 2 weeks later.**

***A woman who had some health issues was injected and then had a seizure, and is now in a coma. (Time and again, we see that when people have pre-existing conditions, they are more likely to have immediate ill effects from the injection.)**

***My friend told me that her friend's husband got the first shot and had a stroke within days.**

***Another older man we recently heard about also got one dose and suffered a stroke.**

***Recently, my son-in-law heard about a 95-year-old man (he knows which shul he davened in) who had done well during corona but whose family decided to give him the injection. Soon afterward, he became weak and then passed away.**

***A man with stable liver disease received the first dose and took a turn for the worse. He developed pneumonia and became incoherent, and passed away within several days.**

***Rabbi S., a heart patient, was convinced by his doctors to take the injection. After the first shot, he felt unwell, tested negative for Covid, and was subsequently pressured to take the second shot. He became extremely sick after the second dose and was eventually put on a respirator. The family was called in twice to say their last goodbyes, but, B"H, he's doing a little better now, in a NJ hospital.**

***My friend was just told firsthand about a healthy older man who got the injection, and suddenly, two months later, had a clogged artery and needed a stent placed, when he'd never had these problems before. He has another clogged artery since then, and he still isn't feeling well. My friend is hearing other similar stories as well.**

***Right after reading my friend's message, I opened a link and saw that the very same thing is happening in India, with their injection also causing blocked arteries. A famous comedian named Vivekh, who was also the health ambassador in Tamil Nadu, just died at 59 years old. He had pushed for others to get the injection, and his injection was filmed publicly and aired on television. He was brought in unconscious the day after his injection, with 100% blockage of a blood vessel, and underwent a coronary angiogram and angioplasty. He was placed on ECMO life support and passed away early the next morning of cardiac arrest. The government denies that his death has any correlation to his injection – but there are many similar cases happening there among people who were also injected. (See <https://www.naturalnews.com/2021-04-20-india-health-ambassador-dies-covid-vaccine.html>, and elsewhere in this book for more about India.)**

***A man called me with the story of his grandmother, who is 80 years old, and was told by the doctors how important it was for her to get the injection due to her preexisting conditions (in actuality, the preexisting conditions are more likely to increase the chance of injection adverse events). She got both doses of Moderna and 10 days later had a right aortic heart attack. She had a stent put in for her**

clogged artery, but instead of feeling better, she is just feeling worse and worse as time passes and the doctors are still trying to figure out what is wrong.

***A man told us that his father-in-law passed away after his second dose of the injection.**

***A 65-year-old man took the J & J injection and now is in major pain all over his body. He developed Bell's Palsy, has visited the emergency room twice, and the kidney numbers on his bloodwork are now elevated, which the doctor says is from all the Advil he's taking to try and control his pain.** Prior to the shot, his only issue was high blood pressure. Still, the doctor refuses to acknowledge that his disabling new health issues arose from the injection!

***A man in his 60's is suffering from progressive paralysis after his first dose.** Sadly, his doctors have been ignoring his cries and doing nothing for him (obviously, there's nothing they can even do). *B"H*, I heard subsequently that the tea and enzymes, etc., are helping him since he only took one dose of the injection.

***An elderly man who had a medical history received the first shot and got very sick. He became incoherent and required dialysis and a feeding tube. After a few weeks, he had a massive heart attack and passed away.**

***R. just recently shared with me that her elderly mother, who was injected twice, says that her heart hurts her** on an ongoing basis and she **feels as if she's going to die**, *chas v'shalom*.

***S.E. reported that she was in the park recently, and a woman there told her about a lady she knew in her 70's, in California, who was full of life. She had her second dose recently and passed away shortly afterward.**

***My good friend L. reported that her elderly cousin had a stroke** very shortly after being injected. Unlike many families who are oblivious, in this case, fortunately, the family immediately made the connection to the shot. *B"H*, this woman survived.

***B. A. said: "I met a young man named David A. whose healthy 80-year-old uncle died right after the second injection."**

***An elderly man took the injection and now has a blood clot on his lungs and can't walk.** His daughter-in-law believes that it's a direct result of the shot he received.

***A woman developed an autoimmune blood disorder** shortly after the injection.

***A woman developed pimples on her eyeballs after the injection,** and the doctors are powerless to explain or treat it.

***An elderly Jewish woman, who was healthy except for some memory loss, took the injection. Days later she was rushed to the hospital for internal bleeding,** which resulted in **paralysis** on half her body.

***A man in his 60's in Israel who took the injection about a month ago is constantly extremely tired and spends most of his day in bed sleeping now.** The doctors are trying steroids to see if that will help...

*A. reported that her friend took the injection a couple months ago and **now is very fatigued and suffers from headaches.**

*A mostly healthy, active, and independent senior had an injury and had to go to the hospital. From the hospital, the senior was sent to rehab, **and at the rehab center she was given the injection WITHOUT FAMILY BEING CONSULTED.** The senior became ill very quickly afterward with corona, despite the fact that the facility was on lockdown, and was sent back to the hospital where she **tragically passed away.**

*My friend recently attended the **funeral of an amazing woman who was so full of life.** She was **forced by her retirement home to take the injection, or leave.** She took the shot and passed away.

*We just received the following heartbreaking and mind-blowing report from the acquaintance of the patient's friend: "Over Shabbos I went to visit a friend. He got the second injection, and had terrible migraines, followed by what appeared to be a stroke. **He couldn't speak and was rushed to the ER, where he was treated as a stroke patient. He got his PhD two months ago, and now it takes him time and effort to speak. He's a father of two, in his forties. He can't drive or walk without someone with him. I asked him if he thought that it was a reaction to the injection. Absolutely, yes,** he said, as the timeline was obvious. Then I asked if his opinion had changed about the Covid injection. No, he said. 'We believe in the science of it, and my wife just got her second dose.'"

*Vaad Harabbanim sent out an email soliciting funds for the widow and children of **46-year-old** Chaim Yehuda Yakovson of Sanhedria Murchevet, Jerusalem, who **reportedly passed away in his sleep within weeks of his second dose.**

*As reported to B.K., a yeshiva in EY vaccinated all the students, and one bochur subsequently landed up in the hospital with **kidney failure, R"l.**

*B.K's friend was at a *sheva brachos* and noticed that both the father of the chosson AND the father of the kallah were absent. It turned out that they were **both** in the hospital for post-injection complications, *R"l.*

*S.M., a healthy and active frum man about 82 years of age, resided in a senior assisted living place, as his wife had passed away. He wanted to be able to go out to shiurim, etc., as before corona, and was told that to do so, he would need to take the injection. **He got the shot and was nifter the next day from a heart attack.**

Reports from all over the world confirm that NUMEROUS previously healthy people, even young ones, suddenly pass away from heart attacks or other causes directly after the injection.

A woman I know related to me the following, which she **personally knows factually:**

*At Mt. Sinai hospital in Brooklyn, a nurse took the injection and a **few days later dropped dead while walking in the hallway in the hospital.**

*A doctor who took the injection **lost his ability to swallow** for a week afterward.

-*A 39-year-old mother had an **aneurysm** while taking a shower and **passed away**, a few days after the injection.

*My brother has a friend who was injecting people. One day, back toward the beginning of the injection rollout, he told my brother that he would be off work and available to assist him the next day. He'd had a rough day on the job. **TWO people died in one day after he gave them the shot. One person collapsed immediately in front of him and died despite CPR. The other had a bad reaction and died later in the day.** I am now told that the person who died on the spot had mistakenly received 7 times the dose she was supposed to have received. I have the screenshots of the texts that the friend sent my brother that day, when the people died after he gave them the shot.

*I received a voice note about the Chabad *shliach* in Vineland, NJ, Rabbi Yisroel Rapoport, who was nifter on February 4. In the voice note that Rabbi Rapoport's niece recorded, she states that her uncle had pre-existing health conditions, including diabetes, and was pressured to take the injection. **She says that her uncle felt unwell and began shaking after the first injection, but was still pressed to take the second one. Within two days he was shaking uncontrollably. His friend drove him to the ER where he passed away from a massive heart attack.** Our friend's brother knew the Rabbi well.

The uncontrollable shaking that the niece mentions that her uncle experienced is the same as seen in the videos of other people with terrible injection reactions, which are being posted on social media and circulating. I have received at least three of those videos myself, and they are horrible to behold. The people are having seizures nonstop.

*I received a private message from a woman on March 1, who reached out to me with the **tragic story of her husband's very, very good friend, a healthy 70-year-old man in Brooklyn who was nifter in his sleep the Shabbos before.** She stated: "He was perfectly healthy...had gotten corona in the summer and didn't even know it...why did he take the injection? **He passed away Shabbos morning, didn't wake up...**he had no health issues. It's literally devastating. Injection was about 2 weeks ago. My husband got together with him last week. He was totally fine. He had some reactions to the injection ...both times...why in the world was he encouraged to take this shot? He had antibodies...just celebrated a simcha...heartbreaking. The nicest, NICEST guy, the nicest wife. He took care of her like a queen."

Yaakov Vishnevsky of Lakewood, who I am in contact with, recently related the following to me:

*His wife's grandmother's sister was a healthy 95-year-old woman. Everyone in her family got the shot. Everyone else got sick, but recovered (for now). **However, the 95-year-old great aunt passed away in her sleep after taking the injection.** Yaakov Vishnevsky's number is: (215) 421-8539.

*On the note of reproductive disorders post-injection, the story that was going around about the man in Lakewood with the terrible injection reaction, **which created a problem having children** (to put it delicately), **was personally verified by Yaakov Vishnevsky**, who tracked the family down.

*Yaakov Vishnevsky also has heard a number of stories of **kidney failure** after the injection.

*The following story was related to Mr. Vishnevsky by the son of the patient. (The son is a big Rabbi in the U.S. His father, the patient, lives in Israel.) He stated that his father, a perfectly healthy man, got the shot, and a few weeks later he experienced a mini-stroke. He is now facing various health problems, *Rachmana litzlan*.

*A woman named S. G. recently shared on March 2: “My friend in Israel just told me her friend has **kidney failure** after the second dose. And that friend says her other friend is having the same.”

*Mrs. Pinto, in Israel, whom I’m in contact with, told me that her cousin has a **nursing home in Yerushalayim. He started administering the injection to his residents. All 14 of the people who received the injection passed away within 2 days.** He stopped giving the injection in his nursing home.

*G. S. said: A close friend (who did not want the shot but finally gave in following enormous pressure from community and family) is **still trying to recover 3 and a half weeks following the first shot. She could hardly stand nor eat the first week, had terrible nausea, diarrhea, dizziness, weakness, pulsing sensations.** She has been working with a homeopath and acupuncturist, and, *B"H*, there has been some improvement, but the diarrhea, weakness, and lack of appetite keep recurring. Following all-night-in-the-ER blood tests last week, she was told "tests are fine, you're healthy" (and implied no reason she can't get the second shot - yes, really...).

*Batsheva, in Israel, also on my treatment group, posted the following stories she knows personally: **“Sadly, I just heard firsthand of a 40 something-year-old woman who didn't get Covid all year even though her whole family had it, and she was with them. Now, she took the injection and died 4 days afterward.** Of course, they're saying she caught Covid while waiting on line for the shot!”

*“Also, I know of an 18-year old that started having **heart problems** 3 weeks after the second dose and the family is in denial that it's from the injection.”

The Holistic Health Consultant whom I quoted above had some more stories to share from a tragically vast collection:

“I have lots of stories – most of my day today was working with doctors trying to come up with treatments for the more serious reactions. The problems that I am hearing about **after the injection include: men who cannot ejaculate, have ED, women who can't stop bleeding or who no longer get their periods, many, many, reproductive side effects, fetal death, fetal tachycardia, spontaneous abortions, and more.**”

“The actual cases that I have personally seen include: neurological damage, muscle weakness, fatigue, psychosis, brain inflammation, life-threatening diarrhea, cognitive disorders, pneumonia, preterm labor, tachycardia, lung damage, depression, and personality changes.”

“I had another ‘6 weeks after second shot’ person today. Nervous system collapsing and cognitive difficulties. Feels like his brain is trying to flee his head.”

“I hear from my colleagues that from about two weeks or more after getting the injection, people are **getting pneumonia, often double pneumonia**. I personally saw two cases, plus one case six weeks after the second shot, who had a **rare lung infection**.”

Calls this HHC received one day:

“My first call in the morning was from a woman who **got her first shot 6 weeks ago. She’s had diarrhea ever since and is weak and dizzy, and she can’t think straight.**

“As I was trying to arrange to get treatment to this woman, I got a call from a man who’d gotten his second shot. **He felt like his brains were blowing out of his head, and he reported all kinds of sensory issues, like smelling and tasting and hearing things that weren’t there, and a sense of foreboding, panic, and depression** that weren’t part of his normal personality.

“Soon afterward, I got a call about a woman who is 7 months pregnant and received her first shot last week, and wasn’t doing well.

“It has been my experience that the side effects of the first shot appear to respond to treatment, but after the second shot I have not yet been able to treat these side effects nor do I know anyone else who has had success either.”

From a conversation with the HHC about whether people can suddenly collapse a few months post-injection when they previously appeared ok: “I just heard of that happening tonight. My family member was speaking to a Rav he is close with, who said that he was in the Kupah waiting his turn when the guy who works there (all are forced to get the shot) **collapsed without warning right in front of him!** This Rav had had the first shot, but when he saw all the guys in his yeshiva getting sick after the first shot (including himself), he refused the second.”

ALL THE ABOVE STORIES CORRELATE PERFECTLY WITH THE WARNINGS OF DR. SHERRI TENPENNY IN A CLIP MONTHS AGO, IN WHICH SHE WARNS OF EIGHT “KILL MECHANISMS” THAT THE CORONA INJECTION POSSESSES. Dr. Tenpenny explains how the spike protein, and the anti-spike protein antibody that the injection induces the body to produce, are deadly. A summary: The antibody is not like a natural antibody that the body produces naturally in response to a virus. Based on scientific papers she researched, she predicted attacks on two types of brain cells in the central nervous system (astrocytes and oligodendrocytes), the inner mitochondria membrane, and the motor neurons. **Now you can understand post-injection reactions being seen, such as severe fatigue, inability to walk, and nonstop shaking.** The pancreas can also be attacked, resulting in diabetes, as can the lung tissue and many other types of bodily tissues. The M2 (anti-inflammatory) macrophages can be inhibited,

resulting in cytokine storm. Dr. Tenpenny points out that there is no off-switch to stop one's cells from manufacturing the spike protein once a person has received the injection.

It is crucial to realize that these autoimmune disorders are NOT immediate reactions. According to Dr. Tenpenny and other expert doctors and scientists weighing in on this subject, such as Dr. Michael Yeadon, it will take 6 months to a couple of years for most people to come out with the symptoms. If we keep running full speed ahead with injecting everyone, just imagine the nightmare scenario we will be facing, *chas v'shalom*.

CHAPTER 7: UNENDING LIES AND WORLDWIDE INSANITY

If anyone might think all this craziness is confined to our area of the world, it's not. The exact same scenarios of killings in hospitals, inflated numbers, and hype to create fear and justify lockdowns, people being coerced or basically forced to get injected, and the withholding of effective treatments are occurring in most countries around the world.

THE FIRST LIE THAT I WOULD LIKE TO ADDRESS IS THE ONE THAT MAY BE ONE OF THE MOST APPLICABLE TO OUR COMMUNITY – THAT SOMEONE WHO HAS HAD COVID “STILL NEEDS THE INJECTION”. This untruth reflects a great lack of knowledge about how our immune system works, and the fact that many doctors are spouting the idea that immunity only lasts for three months, or doesn't work against other variants, simply reflects their tragic lack of education in immunology. In reality, there is way more to our immune system than visible antibodies. Antibodies can indeed seem relatively short-lived, but in actuality, they never disappear. The cells producing them go into hibernation in our bone marrow, ready to churn out more antibodies should the need arise. <https://www.studyfinds.org/mild-covid-19-antibody-for-life>. Our amazing bodies have T-cells, too, which provide extremely long-lasting immunity. In unbelievable research that I heard about from a doctor, individuals who had survived the Spanish Flu as children were tested 90 YEARS LATER, AND THEY STILL HAD IMMUNITY AGAINST IT! Go ahead, google “Spanish Flu and T cell immunity 90 years later,” as I just did. You will find 6 ARTICLES ABOUT THIS STORY! I referenced some below. So whoever had corona already, hold off on the injection, and let's talk about it again in 91 years, shall we? Another great proof of long-lasting immunity are the survivors of the SARS-Cov-1 outbreak, 17 years ago. They were tested and still found to be immune now. See <https://www.conservativereview.com/news/horowitz-new-study-shows-17-years-potential-t-cell-immunity-sars-infected-patients/> <https://www.nytimes.com/2020/11/17/health/coronavirus-immunity.html> <https://www.theblaze.com/news/johns-hopkins-professor-ignore-cdc-natural-immunity-works#toggle-gdpr> <https://www.studyfinds.org/mild-covid-19-antibody-for-life/> https://www.pbs.org/newshour/science/science-july-dec08-influenza_08-22 <https://www.cidrap.umn.edu/news-perspective/2008/08/researchers-find-long-lived-immunity-1918-pandemic-virus> <https://api.nationalgeographic.com/distribution/public/amp/science/article/flu-survivors-still-immune-after-90-years> <https://www.sciencedaily.com/releases/2008/08/080817223642.htm>.

Now, about variants. Around the world, borders are being closed because of hysteria about the South African variant and other variants, and people are being told that they will need booster shots against the variants, even if they have already been immunized. THIS IS A HUGE LIE.

Dr. Michael Yeadon, who is an immunologist, scientist, injection developer, and former Pfizer VP, explains that the variant that is the MOST different from the original virus in Wuhan is only 0.3% different. SO, ALL THE VARIANTS ARE 99.7% OR MORE IDENTICAL TO THE ORIGINAL. If you already have immunity to Covid, there is not a chance in the world, he says, that your body will not recognize any variant as a virus it already knows how to fight against. See Dr. Yeadon in this short, powerful video: https://www.youtube.com/watch?v=pP2s8j_Bw7Q&feature=youtu.be

Why are booster shots being pushed if they are unneeded? For sure, they are huge profit makers. But Dr. Yeadon has a grave concern that there is something worse going on, because he suggests that the same money could be made simply by charging double for the original injections. His concern is compounded by the fact that the manufacturers are claiming that no testing is needed since the boosters are “so similar” to the originals. With nobody testing them, anything can be put into those vials. Dr. Yeadon passionately warns everyone to stay FAR AWAY from the booster shots. See <https://dailyexpose.co.uk/2021/05/09/another-interview-with-dr-mike-yeadon-please-warn-everyone-not-to-go-near-top-up-vaccines/>.

NEWS AROUND THE WORLD: What is going on in other countries? For example, a few people have asked me recently about India because they were famously using ivermectin, and now they are doing so poorly, with a major wave of corona. Since Hashem has been putting the necessary information in front of me at every step of the way, I knew the answer because I saw a map of the corona hotspots in India – those were areas NOT using ivermectin.

In fact, a woman originally from India joined my chat, looking for help to get ivermectin for her elderly parents in India because their doctor there refuses to prescribe it for them, saying “It’s not necessary.” (Of course, we know another major reason for the spike in illness in India – it’s surely because of the injection rollout there, just like we witnessed in Gibraltar, Israel, and many other countries worldwide. Where the corona injections go, a spike in illness and death follows. Please see elsewhere in this article for documentation of this phenomenon, and more information about India’s situation.)

Here are articles about India, which are truly crucial to help us understand that there’s an agenda going on worldwide. First, look how beautifully ivermectin worked in India recently, when they tried it on a hotspot: https://www.thedesertreview.com/news/national/ivermectin-obliterates-97-percent-of-delhi-cases/article_6a3be6b2-c31f-11eb-836d-2722d2325a08.html Then, look what the Indian WHO doctor has been saying about ivermectin, to the point that now the Indian Bar Association is suing her – imagine how much death she has on her hands. <https://thecovidblog.com/2021/06/08/india-bar-association-serves-legal-notice-on-who-chief-scientist-soumya-swaminathan-for-lying-about-ivermectin-effectiveness-against-covid-19/> And saddest of all, look how the government is now planning to take every early treatment they can think of, including ivermectin, zinc, and zithromax, OFF the list of approved medications for corona. Make sure to notice what the scientist supporting this law works for (a vaccine/injection organization.) <https://www.livemint.com/news/india/govt-removes-ivermectin-other-popular-drugs-from-covid-19-treatment-list-check-revised-guidelines-11623074154396.html>

Here's a conversation that I recently had with a lovely woman, Mia, from **Guatemala**, who works in my school. Mia shared with me a picture of her sister's friend who worked as a nurse in Guatemala and **was forced to take the injection because of her job. She got sick immediately "with corona" and passed away in the hospital from breathing complications right afterward. She was 30 years old and left little children.**

Mia's friend, back in Guatemala, is diabetic and works in a school. She was forced to take a corona test because of her job. After the test, she immediately became sick with corona (a story we're hearing repeatedly) and almost died. She didn't go to the hospital, as she knew that they would definitely kill her there. She thought her end was near, and cried and prayed at home, and recovered.

I used to be naïve enough to think that if the government or media was reporting data, the underlying numbers had to be true even if they presented them falsely, in a way that suited their agenda. Now, I've read and heard enough to realize that they are absolutely not above lying and presenting made-up numbers of cases and deaths.

The most obvious example of blatant lies is the absolutely made-up hydroxychloroquine meta-study, published in both the *New England Journal of Medicine* and *The Lancet*, two of the most prestigious medical journals worldwide. These articles had to be retracted two weeks later. Surgisphere, the tiny five-employee company who supposedly had aggregated the data on over 90,000 patients worldwide showing that HCQ was not beneficial and was actually harmful, turned out to not possibly possess the manpower or expertise to have conceivably executed such a gargantuan task. The patients and their data were fake. The entire thing was a total fraud. Yet this "study" had "somehow" gotten into these top journals, which aren't easy to get published in – and cost the lives of untold numbers of people. Based on these articles, HCQ trials were suspended. Many people still believe in the "results" of this fraudulent "study." (I have the copy of the retracted "study" available upon request.)

In England, very strict lockdown measures were enacted, with the government citing overflowing hospitals as the reason they needed to take away the citizens' freedom. A smart woman went to check out the situation for herself and found a hospital EMPTY. Wards were dark and silent. She walked unimpeded around the entire hospital, filming what she saw, and met almost nobody. The emergency room contained only a few patients. After she went public with her video, she was arrested. (I watched the video. Unbelievable.)

In Covid Operation, the author, who lives in Ohio, details how the governor locked the state down by giving numbers of corona cases and deaths that were found to be totally fabricated.

As you may know, the PCR tests yield very questionable results, and the NY Times reported that as much as 90% of the positives can be false. See <https://www.nytimes.com/2020/08/29/health/coronavirus-testing.html>. **Kerry Mullis, who invented the PCR test (and died under questionable circumstances), stated that it should not be used for diagnosis and that you can find almost anything you want in anyone, just by running it at a high enough cycle setting.**

<https://www.bitchute.com/video/wOSeTz57xrCF/>

Just recently, a Portuguese court ruled that a person cannot be forced into quarantine based on a positive PCR test since the tests are so unreliable. See <https://www.uticaphoenix.net/2020/11/17/portuguese-appeals-court-deems-pcr-tests-unreliable/>, and an Austrian court also ruled that the PCR test is not suitable for Covid diagnosis and that lockdowns have no legal basis. <https://greatgameindia.com/austria-court-pcr-test/>.

How much Covid policy and protocol has been arranged on the basis of positive test numbers? It is mind boggling to think of. Everything from national lockdowns to school closures – all these decisions that have impacted billions of lives, all justified on the basis of an unreliable test with up to 90% false positivity rate!

But now we know that what happened in some places, such as Ohio, goes even beyond that, into the realm of **simply manufacturing false numbers out of nowhere at all.**

In Canada, a woman had the idea of calling funeral homes in various cities, including Toronto, to check whether they had actually seen a large surge of deaths in 2020. She recorded a video of herself as she called about a dozen funeral homes, and they all said that deaths had been about the same as in other years, with just one home saying they'd seen a slight increase.

In the book *Corona – False Alarm? Facts and Figures*, distinguished immunologist Dr. Sukharit Bhakdi in Germany talks about the draconian lockdowns imposed there (which subsequently spread to the rest of the world) on the basis of laughably flimsy evidence. For example, the whole idea of asymptomatic spread, the main basis for lockdowns, was started by the case of ONE woman who was said to not have been ill at the time that she visited a car shop in Germany. She was reported to have infected a few others who were present during her visit. However, even this one case was false – as it turns out that the woman indeed had a fever when she visited the shop.

Asymptomatic spread has never been proven, and Fauci himself said on January 28, 2020, “Even if there is some asymptomatic transmission, in all the history of respiratory-borne viruses of any type, asymptomatic transmission has never been the driver of outbreaks. The driver of outbreaks has always been a symptomatic person.” (<https://www.publicradiotulsa.org/post/chinas-coronavirus-cases-rise-us-agencies-map-out-domestic-containment-plans#stream/0>.) Of course, it soon became politically expedient to say the opposite, so you will find Fauci contradicting himself later on.

Think about the repercussions that this **unfounded notion** has caused throughout the world.

Space constraints make it difficult to include everything – but please check out immunologist Dr. Bhakdi's dire warnings about the awful dangers of the Covid injection. Here are some of many links to view information from this TOP IMMUNOLOGIST'S interviews and videos:

<https://thenewamerican.com/tna-interview-with-renowned-covid-19-expert-dr-sucharit-bhakdi-triggers-fact-checker/> <https://www.brighteon.com/7a11d611-3d09-4ad7-ad9e-ec16cfb53d59>
<https://youtube.com/watch?v=pyPjAfNNA-U&feature=share>

Here in NY, we all remember scratching our heads at Sukkos time when Cuomo claimed that we were red zones and slapped restrictions on our stores, shuls, and schools. We didn't know where all those

cases were because we saw that our community was doing well. Then we found out that we simply needed to test more, as he was counting what percent of our tests were positive. But it went way beyond even that. An article some time ago revealed that nine of Cuomo's top health officials had resigned, saying that Cuomo would decide what lockdown measures he wished to implement and then force them to manufacture scientific justification for those measures. We knew something was off, didn't we?

Of course, it goes without saying that Cuomo increased the death toll in NY State by at least 10,000 by ordering nursing homes to admit patients from hospitals who were ill with corona, bringing the virus into the homes, which was absolutely unnecessary in terms of relieving the hospitals. The vast field hospital set up in the Javits Center, as well as the floating hospital ship docked in NY harbor, went virtually unused.

In Canada, doctors MUST do EXACTLY as the government directs them, and not question the injection, lockdowns, etc., or they risk losing their license. See

<https://blog.nomorefakenews.com/2021/06/10/o-canada-youve-got-medical-nazis/>

In Israel, the false propaganda and manipulation of data could fill books, but here is a recent example. The media helpfully reported the happy news that since a majority of the country had been vaccinated, people were able to enjoy a more normal Pesach, with various attractions having reopened. An example was given of the Hall of Yitzchak and Rivka in Me'aras Hamachpela, which was opened on Chol Hamoed to Jews who presented a Green Passport. However, this was a misleading claim to try to persuade people to vaccinate and acquire a Green Passport, as the Hall of Yitzchak and Rivka is actually open ALL year-long to non-vaccinated Muslims.

Interestingly, I read that the European Union first published a proposal for vaccine passports on April 26, 2018. Hmm...

Food for thought. What is going on in this world? Why are governments almost everywhere doing everything possible, including causing untold death and misery by suppression of effective treatments and by lockdowns, to try to get everyone injected?

CHAPTER 8: BUT WILL THE INJECTION AT LEAST KEEP ME FROM GETTING CORONA, INFECTING OTHERS, OR DYING FROM CORONA? AND IS THE CDC ATTEMPTING IN GOOD FAITH TO BRING THE TRUE DATA TO THE PUBLIC?

The simple answers are no, no, no, and no!

The injection will not necessarily keep you from getting sick with Covid, and in fact, data from around the world shows that it may CAUSE you to GET SICK WITH corona if you didn't have it before.

And the CDC's recent announcements prove that they are trying to hide the fact that the injection does NOT work well. More about this soon.

Most people believe that they at least will be protecting their family members from getting corona if they get the shot, but this is sadly untrue. While that's the propaganda that's being hyped by the government and media, a careful look at the Pfizer injection's insert and their published information shows that they themselves **don't** make that claim.

The vaccine/injection companies simply say that being injected will lessen the severity of your symptoms if you do catch Covid.

Contrary to popular belief, not only do the vaccine/injection manufacturers and the government not claim that when injected you cannot contract corona or can longer be contagious, experience has also proven that many people specifically get corona right after the injection (and then infect their family).

Here is what Pfizer themselves has to say about infection and transmission in the published phase 3 clinical trials, under "Limitations and Remaining Questions":

"Further study is required to understand the following:

-Safety and efficacy beyond 2 months and in groups not included in the trial (for example, pregnant and nursing women).

-Whether the vaccine protects against asymptomatic infection and transmission to unvaccinated persons."

See <https://www.fda.gov/media/144245/download> (pp. 46-48), and here is link to Moderna document with similar information: <https://www.fda.gov/media/144434/download> (pp. 48-51).

The truth is that their whole "95 percent efficacy" claim is a very big lie in a few ways. One way is the tricks done in the trial to manipulate the results in their favor (see explanation elsewhere in this book.) Another way they mislead us is by reporting the relative risk reduction rather than the ABSOLUTE risk reduction, which is the number that truly is meaningful. The absolute risk reduction for Pfizer is 0.8 percent. You read that correctly. <https://thecovidblog.com/2021/05/31/new-lancet-report-shows-pfizer-moderna-et-al-misled-the-public-with-deceptive-efficacy-statistics/>

HERE IS THE REAL-TIME EVIDENCE THAT THE SHOT IS NOT WORKING AS ADVERTISED: A news report states that as of April 16, 9,245 fully injected Americans have already contracted Covid, of which nearly 835 required hospitalization and 132 died. See https://www.theepochtimes.com/mkt_breakingnews/at-least-9245-americans-tested-positive-for-covid-19-after-vaccination-132-dead_3798410.html.

Dr. Risch actually said that 60 percent of covid cases are now among the injected. <https://m.thebl.com/health/yale-university-epidemiologist-60-of-new-covid-cases-are-in-vaccinated-people.html>

THE CDC ANNOUNCED THAT AS OF MAY 14 THEY WILL NOT POST "BREAKTHROUGH" CASES ON THEIR WEBSITE, ONLY HOSPITALIZATIONS AND DEATHS. Of course, they will STILL POST ALL CASES IN

NON-INJECTED INDIVIDUALS. (They claim that this is “to help maximize the quality of the data collected on cases of greatest clinical and public health importance.” Are they that short on manpower? Lol.) So – if you see you’re losing the game, just invent new rules! I couldn’t make this stuff up if I tried! See <https://www.cdc.gov/vaccines/covid-19/health-departments/breakthrough-cases.html> and <https://articles.mercola.com/sites/articles/archive/2021/06/11/cdc-covid-vaccine.aspx>.

So how will the public EVER know if the injections are indeed effective or not? How will doctors and scientists ever be able to make informed decisions about this new treatment, which is still in Phase 3 clinical trials? HOW ON EARTH DOES THIS ANNOUNCEMENT FROM THE CDC BEGIN TO MAKE SENSE?

What WILL happen, *chas v’shalom*, is that it will SEEM FROM THEIR NEW TWISTED METHOD OF DATA COLLECTION as if injected people almost never get corona anymore, and that the nasty, awful, non-compliant, disease-spreading non-injected individuals are driving the virus and ruining things for EVERYONE!

More examples showing the ineffectiveness of the injection: In a new study by Israeli researchers, released April 10, injected people were found to be 8 times MORE LIKELY to catch the South African variant than non-injected people.

The *Wall Street Journal* reported that while more than 7.6 million people – half of Chile’s adult population – have already received at least one injection dose, health officials are scrambling to deal with a surge in new infections and deaths.

Coincidence? Result of “easing up on masks”? WE THINK NOT, because we see this pattern elsewhere. Where injections go, increased cases and deaths tend to follow, as Israel tragically proved. IT IS CRITICAL TO LOOK CLOSELY AT ISRAEL BECAUSE SINCE MOST OF THEIR POPULATION HAS BEEN INJECTED, it is AN EXAMPLE OF WHAT OTHERS WILL FACE if they follow suit. It is not easy to find the true data, because it’s being systemically hidden and unreported. See elsewhere in this booklet for on-the-ground testimony from Israel, and see <https://www.the-people-committee.com/> **I quote from this report, because it is so crucial:**

While the Prime Minister of Israel and senior officials of the Ministry of Health brag that Israel serves as a global model for nationwide vaccination, and while they boast that Pfizer has chosen us to be the experimental country thanks to the advanced technological systems of our HMOs [Health Maintenance Organizations], the state has systematically shut down all monitoring and tracking systems, which are designed to identify and alert of adverse events that occur in proximity of receiving the vaccine.

This irresponsible conduct by the Ministry of Health during this mass operation providing an experimental treatment to millions of people, regardless of whether such conduct is negligent or intentional, has led to an unprecedented flood of thousands of serious adverse event reports after the vaccine on social media, which seems to be the only forum that still allows people to share their experiences. Surprisingly, such widespread phenomena have not received any media coverage or attention from public officials.

The silencing mechanisms of the health system regarding the vaccine's adverse events, and the denial of their severity and worrisome scope, combined with the fact that the mainstream media have ignored adverse events and avoided reporting them, have created a situation whereby the Israeli public is almost completely unaware of the existence, nature and prevalence of the vaccine's adverse events.

This smoke screen which exists between the Israeli public and this vaccine's adverse events prevents citizens from receiving all the information they need to make a balanced and responsible decision about the vaccination; and moreover, raises the concern that the lack of contraindications for susceptible populations to the vaccine has unnecessarily harmed the citizens to the point of needless mortality.

The healthcare system's failure to monitor the vaccine's adverse events and issue alerts, coupled with the media's transgression of its roles as an important mechanism for monitoring and criticizing the establishment's conduct and as a pivotal platform for exposing the hard truth, have led to the abandonment of the health of the citizens of the country.

In the vacuum that has ensued we, as an independent investigation committee comprising of concerned citizens, have been left with no choice other than using all means, albeit limited, at our disposal to research and expose the truth regarding the corona vaccine's adverse events.

From our inquiry a disturbing image has emerged of the high rate of serious adverse events, observed in proximity to receiving the vaccine, even among young people. Many adverse events are life-threatening, and regretfully, more than a few ended in death.

The inconceivable gap between the existing reality and the information published by the Israeli Ministry of Health and by the Israeli media raises concern of a dangerous deception not only of Israeli citizens but of citizens of the entire world who view Israel as the research laboratory of Pfizer's corona vaccine. Such a deception, whether negligent or premeditated, could create additional cycles of harm to humans around the globe.

In this report we wish to say to the Israeli Government and governments throughout the world: a lack of transparency kills people. Deception and concealment lead people to disability and loss of life. Remove all confidentiality, create transparent and controlled reporting mechanisms; only then can lives be saved and further damage avoided from the very tool that is supposed to preserve health.

Is this a case where the drug is more deadly than the disease? Or is it equally or less deadly?

We can only come to a true conclusion if comprehensive data is revealed in real time and if the press, which is supposed to be free and a watchdog of democracy, will remain on guard and raise the alarm when necessary. And it is indeed very necessary.

Here are our main findings:

- We received 288 reports of deaths occurring in proximity to the vaccination (90% up to 10 days after the vaccination). 64% are men. According to the Ministry of Health's figures: only 45 deaths occurred in proximity to the vaccination.
- **According to data from the Central Bureau of Statistics (CBS), during January-February 2021, in the midst of the vaccination operation, there was a 22% increase in overall mortality in Israel compared to the bi-monthly average mortality in the previous year. In fact, the period of January-February**

2021 is the deadliest one in the last decade, with the highest overall mortality rates, when compared to the corresponding months over the last 10 years.

- **Among the age group of 20-29, the increase in overall mortality rate is even more dramatic. In this group, during the same vaccination period, January-February 2021, there has been a 32% increase in overall mortality compared to the bi-monthly average mortality in 2020.**
- A statistical analysis of data from the CBS combined with information from the Ministry of Health leads to the conclusion that the mortality rate amongst the vaccinated is estimated at 1:5,000 (1:13,000 for ages 20-49, 1:6,000 for ages 50-69, 1:1600 for ages 70+). According to this assessment, it is possible to estimate that the number of deaths in Israel that have occurred in proximity to the vaccination, currently stands at about 1,000-1,100 people.
- There is a high correlation between the number of people vaccinated per day and the number of deaths per day, in the range of up to 10 days post vaccination in all age groups. For ages 20-49 – a range of 9 days from the date of vaccination to death; for ages 50-69 – 5 days from the date of vaccination to death; for ages 70 and up – 3 days from the date of vaccination to death.
- The risk of death after the second vaccination is higher than the risk of death after the first vaccination.
- Up until the publication date of this report, **a total of 2,066 reports of adverse events have been recorded by The Israeli People's Committee and the figures continue to flow in. These reports indicate damage to almost every system in the human body.** These figures also highlight the inconceivable gap between official Israeli media reports and what is actually happening, enabling a “two worlds” situation due to journalistic failure to sense, identify and report on what is actually happening in citizens' real-life.
- There are close similarities in the reports of adverse events from countries with relatively high vaccination rates, with hundreds of death reports, as well as reports of damage to many human body systems.
- In our analysis, we have found a relatively high rate of cardiac-related injuries. 26% of all cardiac events occurred in young people below the age of 40, the most common diagnosis in these cases being myocarditis or pericarditis.
- **Additionally, a high prevalence of massive vaginal bleeding, neurological, skeletal and skin damages have been observed.**
- **It should be noted that a significant number of adverse events reported are related, directly or indirectly, to coagulopathy (myocardial infarction, stroke, miscarriages, disruption of blood flow to the limbs, pulmonary embolism).**
- The reporting of adverse events from hospitals and HMO clinics has been very low, and there is a tendency for a diagnostic bias that excludes the possibility of a link between the adverse events and the vaccination. **There are probably many thousands of unreported cases.**
- **In light of the extent and severity of adverse events we are witnessing, we would like to express the committee's position that vaccinating children may also lead to adverse events, as observed in adults, which could result in the death of completely healthy children. Since the coronavirus does not endanger children at all, the committee believes that the Israeli government's intention to vaccinate children endangers their lives, their health, and their future development.**

Another source to find out the truth about the injection's true effects in Israel and in other countries worldwide is this: <https://ourworldindata.org/>. Navigate to find the charts of different countries under the covid vaccinations tab, and under the deaths tab, and make the correlations. There is someone who has meticulously analyzed this data in Hebrew, and you can see his work on YouTube at <https://www.youtube.com/channel/UCxJbmbgAozco82Tm56vINfQ>. His telegram channel is <https://t.me/s/falsepositiv?before=391>.

He has posted numerous graphs that show the huge spike in covid cases and deaths in many countries all over the world, including India, Colombia, Argentina, Uruguay, Brazil, Chile, Croatia, Hungary, Poland, and Israel, the timeline correlating exactly with mass injection in each location.

While the governments typically act blind and continue with the rollouts, some astute people DO notice. For what's happening in India, see <https://www.activistpost.com/2021/05/a-case-of-graphical-correlations-making-sense-of-indias-covid-19-surge.html>.

The results of the injection have been particularly obvious in Gibraltar since it is such a tiny country and it had never locked its borders. Laborers from Spain had continued to enter the country each morning and leave every night, yet very few people on the island had passed away from corona until the injection was rolled out. As soon as the injection campaign started in Gibraltar, there was an immediate surge of corona cases and deaths. See <https://markcrispinmiller.com/2021/01/could-the-new-vaccines-be-causing-all-those-covid-deaths-the-case-of-gibraltar/>.

This was seen very clearly in old age homes worldwide. I read a tragic article about a home in Wales, which did well throughout corona but lost a group of 12 residents to the virus as soon as they injected them. The heartbroken staff reportedly did NOT get the connection. See: <https://www.northwaleschronicle.co.uk/news/19090809.it-heart-breaking--anglesey-care-home-boss-speaks-loss-12-residents-coronavirus/> and <https://childrenshealthdefense.org/defender/nursing-home-residents-spain-die-pfizer-covid-vaccine/> and <https://dreddymd.com/2021/02/18/elderly-population-suddenly-dying-off-for-unexplained-reasons-and-its-no-longer-coded-as-covid-19/>.

(See elsewhere in this booklet for other nursing home stories with identical results.)

It's really too obvious to ignore, unless you insist on closing your eyes. Here are some personal anecdotes about people getting corona right after the injection, which fit right into the worldwide pattern:

*A woman wrote that one of her coworkers took the injection, and two weeks later, all of a sudden, her husband tested positive, as well as the rest of her family. Her family never had Covid all year – until she got injected. Two of her kids also had crazy weird rashes all over them.

B.K. told me:

*His friend told him that out of all the 7 people he knew who got the injection, 1 passed away and the other 6 got corona right afterward.

*Someone told him about a whole group of people who flew in on a private plane from Toronto to get the injection, and all came down with corona afterward (they blamed the pilot).

*My daughter witnessed her workmate get corona immediately after the injection.

*My son-in-law told me that his friend's father-in-law took the injection, and right afterward got corona, and then his whole family caught corona, too.

*My brother's friend **got the shot, and then got corona 21 days later, together with 40 other people** at that site who had all gotten the injection on the same day.

This is a story that is happening innumerable times. I mostly gave up on keeping track of the stories of people who got corona right after the injection because it was too many to count.

Supposedly, there is no virus in the injection, so **why** are many people who didn't get corona all year long **specifically getting corona immediately after being injected**, and often spreading it to their family members? It's a good question, but we need to know that the reality is that it **IS** happening.

Biomedical researcher Herve Seligmann (who has over 100 peer-reviewed international publications) attributes this phenomenon to the weakening of the immune system caused by the injection. (He published a scientific evaluation outlining FOUR severe dangers that he sees with the corona injections.) So it is very possible that what's happening is that before getting the shot, people were being exposed to corona but fighting it off very well on their own, but after the shot, they were ironically MORE susceptible and thus developed the infection.

Some experts believe that we are seeing a form of ADE. More about ADE later.

On December 1, 2020, Dr. Michael Yeadon (former Pfizer Vice President, Chief Science Officer, and Head of Respiratory Research, and lung specialist) and former Head of the European Health Council Dr. Wolfgang Wodarg filed a petition with the European Medicine Association for the immediate suspension of all corona injection trials, in particular that of BioNtech/Pfizer, for the protection of the life and health of the volunteers due to their very serious concerns about ADE, and those of an increasing number of other renowned scientists. https://2020news.de/wp-content/uploads/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

The cry of the scientists went unheeded, and the coronavirus injection development continued full steam ahead. We are now reaping the tragic fruits of this murderous decision.

The phenomena of becoming more susceptible to corona post-injection played out in a heartbreaking way in Eretz Yisrael: I have a voice note and video from my WhatsApp group, which has many members in Israel, from relatives of the Benshitreet family. Mrs. Osnat Benshitreet was about 7 months pregnant. **Her husband took the injection, got corona, and infected her. Mrs. Benshitreet developed pneumonia, was denied antibiotics, and was nifter, as was her baby.** She left 4 children, the youngest 1-year-old.

The "BREAKING NEWS" that has horrified us recently is the newly discovered phenomena THAT INJECTED FAMILY MEMBERS AND COWORKERS seem to somehow NEGATIVELY AFFECT THE HEALTH OF THOSE AROUND THEM in other ways besides spreading corona. Injected people seem to be "shedding" something, and people who come in close contact with injected individuals are reporting extremely high rates of very strange ailments, often reproductive in particular.

THERE ARE THOUSANDS OF STORIES ON SOCIAL MEDIA of family members and coworkers of injected people experiencing:

*Horrible menstrual bleeding like nothing they ever experienced in their lives, with huge clots, crazy bleeding to the point of danger, bleeding that goes on and on, feeling very ill, and cycles that start again two weeks later

*Cessation of cycles

*Post-menopausal women in their 70's starting to menstruate again

*Miscarriage

*Thousands of women experiencing the sloughing of their uterine lining after being around injected people. This is called a decidual cast, and it means that their entire uterine lining falls out in one piece. (Ever heard of that before? Neither did I.) *As per Dr. Christiane Northrup*

*Very weird rashes, out of nowhere, after being around injected people

A Facebook group of 20,000 women with adverse reactions from being around injected individuals was removed by Facebook. I don't have social media, but someone sent me a huge collection of

screenshots of these posts, and it's exploding all over the place. See:

<https://medicalkidnap.com/2021/05/14/covid-19-vaccine-bioweapons-update-on-spike-proteins-being-transmitted-from-vaxxed-to-unvaxxed-people/>

<https://montanadailygazette.com/2021/04/16/unvaccinated-women-report-miscarriages-after-interactions-with-vaccinated-people/> <https://medicalkidnap.com/2021/04/19/women-complaining-of-severe-menstrual-disorders-post-covid-vaccines-even-if-they-did-not-get-the-shots/>.

Upon checking Pfizer's trial protocols, it turns out that they DID seem to have an awareness that this could/would happen, because they state on page 62 of their 137-page protocol, in Section 8.3.5 (Exposure During Pregnancy), various exposure events that needed to be reported to Pfizer Safety within 24 hours, and they include: A woman who discovers she is pregnant while participating in the trial, SECONDHAND EXPOSURE - a man who has received the injection and exposed to his wife by inhalation or skin contact to himself at or around the time of conception, a female family member or healthcare provider who reports that she is pregnant after having been exposed to the injection (from someone who took it) by inhalation or skin contact, and craziest of all, THIRD-HAND EXPOSURE – A MALE FAMILY MEMBER OR HEALTHCARE PROVIDER WHO HAS BEEN EXPOSED TO SOMEONE ELSE'S INJECTION BY INHALATION OR SKIN CONTACT, and then exposes his wife at or around the time of her conception.

What on earth does all this mean? What did they know, and why aren't they telling us? Why is the medical establishment now pretending that what tens of thousands of people are witnessing has no basis in science and is impossible?

If you really want to feel spooked out, check out these articles. I do not yet know if this is what we are facing or not, but I think the thought should at least give us pause:

<https://www.newscientist.com/article/mg24732960-100-we-now-have-the-technology-to-develop-vaccines-that-spread-themselves/>

<https://www.naturalnews.com/2021-05-05-gates-foundation-darpa-funding-self-replicating-weaponized-vaccine-apartheid-exterminate-blacks.html>

IF THE INJECTION DOES NOT EVEN WORK WELL, WHY ARE RATES OF CORONA DOWN IN ISRAEL?

Good question. They were actually going down BEFORE the injection was rolled out, just like they went down last May. It's called Farr's Law. Every virus follows a curve. Infection rates don't stay high for long – they subside naturally on their own. (Update: tragically, while the rates WERE down for a while, Israel, which is almost completely vaccinated, is now (in August) in a freefall, with a huge new wave of corona, REQUIRING OPENING NEW HOSPITAL WARDS. The hospitals are filled with vaccinated people, according to Dr. Kobi Haviv on News Israel 13. He said that 95% of the SEVERE patients ARE FULLY VACCINATED, and 85-90% of the hospitalizations are in fully vaccinated people. See <https://www.infowars.com/posts/israel-australia-report-95-99-hospitalized-fully-vaccinated/>.)

WILL THE INJECTION AT LEAST PREVENT DEATH FROM CORONA?

Does the injection at least protect against death from corona, as we're being told it does? **NO.** Back to Pfizer's briefing document, page 48: "A larger number of individuals at high risk of COVID-19 and higher attack rates would be needed to confirm efficacy of the vaccine against mortality."

In other words, there is **NO DATA** showing that the injection keeps you from dying from corona because there were no deaths from corona in their trial, not even among the 21,728 participants who received the placebo. But it gets worse than that. As quoted above, as of April 16, 9,245 fully injected Americans had already contracted Covid, in what are being called "breakthrough cases." Of these, 835 required hospital treatment and 132 died.

CHAPTER 9: ADE AND OTHER GRAVE, LONG TERM RISKS: ARE PEOPLE BEING INFORMED SO THEY CAN DECIDE PROPERLY? A WHISTLEBLOWER NURSE IN THE U.K. SPEAKS OUT, AND THE NEW NUREMBERG TRIALS 2021

Do you imagine that the people being given the injection are at least being given a chance to give informed consent? Are they being made aware of the possible future dangers – such as ADE that Dr. Michael Yeadon, a former top Pfizer scientist, is gravely concerned about and which experts have recommended having people give informed consent for?

Answer: Well, what do you think? Of course not. The doctors themselves usually don't even know the risks so the patients certainly aren't being informed.

A summary of ADE (antibody-dependent enhancement): ADE is the problem with some viruses, including coronaviruses, where when you give a injection for it, it just makes things worse. Often, instead of the body's immune system fighting off the virus well on its own, as it was doing until now, the person or animal becomes violently ill when exposed to the virus after injection, usually leading to death. **This was clearly seen during previous attempts at creating coronavirus injections for SARS and MERS, OVER A DECADE AGO, AND IS THE REASON THAT NO CORONAVIRUS INJECTION WAS EVER SUCCESSFULLY BROUGHT TO MARKET UNTIL NOW.**

To be very clear – ADE is a severe side effect that is expected, based on animal trials in previous coronavirus injections, to mostly be seen in the LONG-TERM, EVEN YEARS AFTER TAKING THE INJECTION – primarily when the injection-induced antibodies begin to wane. At that time, there is a severe risk of cytokine storm and death, *Rachmana litzlan*.

That's what happened to the ferrets and cats in previous coronavirus injection trials. At first, they were OK after the injection, but when they were released and encountered the virus that they were injected for, they died. This is why no coronavirus injection was ever approved up until now! See www.ncbi.nlm.nih.gov/pmc/articles/PMC7645850/pdf/IJCP-9999-e13795.pdf.

Strange how the vaccine companies skimmed on the animal SAFETY trials this time around, don't you think? The trials they quote are EFFICACY STUDIES. Why don't they tell us how those animals are doing now, if they have nothing to hide?

And not only that, but they "rushed" the human trials, abruptly stopping the tracking of the participants after only TWO MONTHS – before long-term effects could be seen. Subsequently, they also gave the injection to those who had previously received the placebo, eliminating the possibility of long-term observation of the differences between the two groups.

NO AUTHORITATIVE ORGANIZATION HAS ISSUED A STATEMENT SHOWING THAT THE RISK OF ADE HAS BEEN RULED OUT (because it has not been). Please see these links to understand more fully the grave dangers that ADE poses: <https://sciencewithdrdoug.com/2020/08/01/is-a-coronavirus-vaccine-a-ticking-time-bomb/>

<https://www.rodefshalom613.org/2021/03/fda-admits-covid-vaccine-worse-than-illness/>

<https://www.primarydoctor.org/covidivaccine>

But nobody is warning injection recipients about ADE before they get the shot!

Neither is anyone informing them of the risk of irreversible LIVER DAMAGE, potentially even causing death as per the report of the manufacturer to the SEC as a result of the PEG found in the injection. (This has already occurred in the past.)

And, of course, nobody is being told of the long-term risk of BRAIN DAMAGE from the injection-induced spike protein antibodies attacking essential protein in the brain. (The study detailing the risk of brain damage is "Reaction of Human Monoclonal Antibodies to Sars-Cov-2 Proteins With Tissue Antigens: Implications for Autoimmune Diseases," and was published in *Frontiers in Immunology* on

January 19, 2021. It was conducted by world-renowned experts Aristo Vojdani, Elroy Vojdani, and Datis Kharrazian.)

Immunologist J. Bart Classen, M.D., just had a paper published in the journal *Microbiology and Infectious Diseases*, titled “COVID-19 RNA Based Vaccines and the Risk of Prion Disease.”

In the extraordinary testimony of a whistleblower nurse from the NHS in Great Britain, she reveals that most people involved in the injection rollout and administration, including physicians, are simply “following orders” and have no knowledge of the injections’ safety. As a senior nurse involved in vaccination programs on an administrative level for many years, and experienced in reading trial data, she says that she immediately recognized the flaws in the trial design and the alarming fact that there was little to no safety data made available. She quickly realized that the claims of the vaccine/injection companies as to the efficacy of the shots were “poetic license” and designed to mislead. She was greatly alarmed at the speed with which the shots were being rolled out and the fact that nobody was questioning the results of the animal trials for previous coronavirus injections (SARS and MERS), for which they’d been attempting to develop an injection for 18 YEARS.

This brave whistleblower laments the fact that by orders from the top, the package insert containing the risk information (PIL- patient information leaflet) is NOT TO BE OFFERED to injection recipients unless they specifically request it (most people don’t know it exists AND THAT THEY SHOULD RECEIVE IT, and therefore don’t ask and remain blissfully unaware of the risks it lists).

She discovered that even MOST DOCTORS (AND CERTAINLY PATIENTS) are unaware that TRIALS HAVE NOT BEEN COMPLETED, AND THAT EVERYONE RECEIVING THE SHOT IS PART OF THE PHASE 3 TRIAL. They are certainly not being informed of this.

However, she has found that at the senior level within the NHS, there IS total awareness of the issues with the corona injections, and the dangers involved.

For voicing her logical questions and misgivings in these matters, and challenging the corona injection rollout at every turn due to her grave concerns, this nurse has been ridiculed, labeled an anti-vaxxer, which she is not, excluded from certain meetings, and told that she needs to “watch her step.” She fears losing her job and being unable to support her family but detests her job more each day. She’s tried very hard to recruit colleagues to join her in speaking out but has found no one willing, and she cannot do it alone or she will lose her job and not be able to pay for a roof over her children's heads. Therefore, while her interviewers were able to confirm her name and post, she could not afford for the information to be made public.

This courageous whistleblower believes that the day of judgement will come when those involved in the injection program will be tried for genocide, and she will be asked to testify against her colleagues, which she will do. She states that she looks forward to this day even though she knows that having reluctantly remained at her post, she may be judged as also bearing culpability in the crimes against humanity, and she says she will accept her punishment.

It was truly chilling to hear her speak.

So next time you wonder why “If all the doctors are saying to take the injection, how could it be so bad?” you have a partial answer. For most, a lack of actual knowledge and critical, independent thought, and for some, great pressure to go along with the program. And for those at the top, a lack of regard for human life.

The day of judgement will indeed come, just as the whistleblower nurse knows. When it comes, let us be on the RIGHT SIDE OF HISTORY. I CONSTANTLY THINK OF Esther HaMalka, of the Maccabim, of Recha Sternbuch, and of Reb Michoel Ber Weissmandl. The side with the most people on it is the convenient side, but often the wrong one. We must have the courage to seek the truth, and to stand up for it, and attempt to save lives. Otherwise, we risk being the guilty parties, *chas veshalom*.

See this fascinating document, translated from Swedish. Also available at <https://sorendreier.com/1000-lawyers-and-10000-doctors-have-filed-a-lawsuit-for-violations-of-the-nuremberg-code/>. **(The CDC, etc., are being sued for crimes against humanity. So any schools, organizations, or doctors who believe that they are safe just parroting the CDC or AAP guidelines about injection with this experimental gene therapy should think again.)**

The New Nuremberg Trials 2021

A team of over 1,000 lawyers and over 10,000 medical experts led by German Dr. Reiner Fuellmich have begun legal proceedings against the CDC, WHO & the Davos Group for crimes against humanity. Fuellmich and his team present the faulty PCR test and the order for doctors to label any comorbidity death as a Covid death as fraud. The PCR test was never designed to detect pathogens and is 100% faulty at 35 cycles. All the PCR tests overseen by the CDC are set at 37 to 45 cycles. The CDC admits that any tests over 28 cycles are not admissible for a positive reliable result. This alone invalidates over 90% of the alleged Covid cases/“infections” tracked by the use of this faulty test.

In addition to the flawed tests and fraudulent death certificates, the “experimental” vaccine itself is in violation of Article 32 of the Geneva Convention. Under Article 32 of the 1949 Geneva Convention IV, “mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person” are prohibited. According to Article 147, conducting biological experiments on protected persons is a grave breach of the Convention.

The “experimental” vaccine is in violation of all 10 of the Nuremberg Codes, which carry the death penalty for those who seek to violate these International Laws.

The “vaccine” fails to meet the following five requirements to be considered a vaccine and is by definition a medical “experiment” and trial:

1) Provides immunity to the virus

This is a “leaky” gene therapy that does not provide immunity to Covid and claims to reduce symptoms yet double-vaccinated are now 60% of the patients requiring ER or ICU with Covid infections.

2) Protects recipients from getting the virus

This gene-therapy does not provide immunity and double-vaccinated can still catch and spread the virus.

3) Reduces deaths from the virus infection

This gene-therapy does not reduce deaths from the infection. Double-vaccinated infected with Covid have also died.

4) Reduces circulation of the virus

This gene-therapy still permits the spread of the virus as it offers zero immunity to the virus.

5) Reduces transmission of the virus

This gene-therapy still permits the transmission of the virus as it offers zero immunity to the virus.

The following violations of the Nuremberg Code are as follows:

Nuremberg Code #1: Voluntary Consent is Essential

No person should be forced to take a medical experiment without informed consent. Many media, political and non-medical persons are telling people to take the shot. They offer no information as to the adverse effects or dangers of this gene-therapy. All you hear from them is – “safe and effective” and “benefits outweigh the risks.” Countries are using lockdowns, duress, and threats to force people to take this vaccine or be prohibited to participate in free society under the mandate of a Vaccine Passport or Green Pass. During the Nuremberg trials, even the media was prosecuted and members were put to death for lying to the public, along with many of the doctors and Nazis found guilty of Crimes Against Humanity.

Nuremberg Code #2: Yield Fruitful Results Unprocurable by Other Means

As listed above, the gene-therapy does not meet the criteria of a vaccine and does not offer immunity to the virus. There are other medical treatments that yield fruitful results against Covid such as Ivermectin, Vitamin D, Vitamin C, Zinc, and boosted immune systems for flu and colds.

Nuremberg Code #3: Base Experiments on Results of Animal Experimentation and Natural History of Disease

This gene therapy skipped animal safety testing and went straight to human trials. In mRNA research that Pfizer used (a candidate study on mRNA with rhesus macaque monkeys using BNT162b2 mRNA), all the monkeys in the study developed pulmonary inflammation, but the researchers considered the risk low, as these were young healthy monkeys from the age of 2-4. Israel has used Pfizer and the International Court of Law has accepted a claim for 80% of the recipients having pulmonary inflammation from being injected with this gene-therapy. Despite this alarming development Pfizer proceeded to develop their mRNA for Covid without animal safety testing.

Nuremberg Code #4: Avoid All Unnecessary Suffering and Injury

Since the rollout of the experiment and listed under the CDC VAERS reporting system, over 4,000 deaths and 50,000 injection injuries have been reported in America. In the EU over 7,000 deaths and 365,000 injection injuries have been reported. This is a grievous violation of this code.

Nuremberg Code #5: No Experiment to be Conducted if There's Reason to Think Injury or Death Will Occur

See #4. Based on fact-based medical data, this gene-therapy is causing death and injury. Past research on mRNA also shows several risks that have been ignored for this current trial gene-experiment. A 2002 study on SARS-CoV-1 spike proteins showed they cause inflammation, immunopathology, and blood clots, and impede Angiotensin 2 expression. This experiment forces the body to produce this spike-protein inheriting all these risks.

Nuremberg Code #6: Risk Should Never Exceed the Benefit Covid-19 has an over 99% recovery rate. The vaccine injuries, deaths, and adverse side-effects of mRNA gene-therapy far exceed this risk. The use of “leaky” vaccines was banned for agriculture use by the U.S and EU due to the Marek Chicken study that shows “hot-viruses” and variants emerge...making the disease even more deadly. Yet, this has been ignored for human use by the CDC knowing fully the risk of new deadlier variants emerge from leaky vaccinations. The CDC is fully aware that the use of leaky vaccinations facilitates the emergence of hot (deadlier) strains. Yet they've ignored this when it comes to human beings.

Nuremberg Code #7: Preparation Must Be Made Against Even Remote Possibility of Injury, Disability, or Death

There were no preparations made. This gene therapy skipped animal safety trials. The pharmaceutical companies' own Phase 3 human clinical trials will not conclude until 2022 /2023. These vaccines were approved under an Emergency Use Only act and forced on a misinformed public. They are NOT FDA-approved.

Nuremberg Code #8: Experiment Must Be Conducted by Scientifically Qualified Persons

Politicians, media and actors claiming that this is a safe and effective vaccine are not qualified. Propaganda is not medical science. Many retail outlets such as Walmart & drive-through vaccine centers are not qualified to administer experimental medical gene-therapies to the uninformed public.

Nuremberg Code #9: Anyone Must Have the Freedom to Bring the Experiment to an End at Any Time

Despite the outcry of over 85,000 doctors, nurses, virologists, and epidemiologists – the experiment is not being ended. In fact, there are currently many attempts to change laws in order to force vaccination compliance. This includes mandatory and forced vaccinations. Experimental “update” shots are planned for every 6 months without any recourse to the growing number of deaths and injuries already caused by this experiment. These “update” shots will be administered without any clinical trials. Hopefully this new Nuremberg Trial will put an end to this crime against humanity.

Nuremberg Code #10: The Scientist Must Bring the Experiment to an End at Any Time if There’s Probable Cause of it Resulting in Injury or Death

It is clear in the statistical reporting data that this experiment is resulting in death and injury. Yet all the politicians, drug companies, and so-called experts are not making any attempt to stop this gene-therapy experiment from inflicting harm on a misinformed public.

What can you do to help put an end to this crime against humanity? Share this information. Hold your politicians, media, doctors, and nurses accountable – that if they are complicit in this crime against humanity, they, too, are subject to the laws set forth in the Geneva Convention and Nuremberg Code and can be tried, found guilty, and be put to death. Legal proceedings are moving forward, evidence has been collected, and a large growing body of experts are sounding the alarm. Visit the Covid Committee website at: <https://corona-ausschuss.de/>, and if you have been affected by this crime, report the event, persons involved, and as much detail to the following website: <https://www.securewhistleblower.com/>.

CHAPTER 10: DAAS TORAH – THE BIG QUESTION

Some will now ask: Didn’t *Daas Torah* instruct us to get the injection?

Well, yes, we have heard that some Gedolim and Rabbonim said to take it. On the other hand, some of those were by video so it’s anyone’s guess what the real story is. **It is crucial to know that when Rav Chaim, *shlita*, issues a *p’sak*, it is done in writing, and this has NOT happened here. There are only videos, which could have other meanings.** One man who went in with the list of the FDA’s 22 side effect recorded a *p’sak* saying **not** to take it, and I have that available upon request.

Additionally, for example, while people may think that Rav Yitzchak Zilberstein said to take the injection, he actually said that healthy people should **not take it. So, you see, there is much propaganda and misinformation being circulated, and tremendous effort being made by those with interest in seeing everyone injected. Why? To suppress the legitimate opinions of the many Rabbonim who oppose the injection.**

There are actually **many** Gedolim and Rabbonim who are strongly warning **not** to take the injection, **including but not limited to:**

In South Fallsburg, Rav Elya Ber Wachtfogel, who told my friend “*B’shum ofen* – under no circumstances – should a boy or girl take the vaccine. **It is suicide.** If they want to fulfill the mitzvah of *p’ru ur’vu* they should not think of taking this vaccine...this is an experimental vaccine, turns over the DNA...be *mefarsem* as much as possible, even for older people if they will listen to you, continue telling people about the dangers. You could be saving hundreds of lives.”

In Philadelphia, Rav Shmuel Kamenetzky (Although he can't come out publicly, we spoke to him privately and verified he is against the injection. You can check with him or his son.)

Rabbi Eliyahu Brog, grandson and successor to Rav Avigdor Miller, who said "...people are blind like sheep, to me it looks like they were *yatzah mi'datom*...I know of three people who died, and one person who was injured after the vaccine..."

In Lakewood, Rabbi Shmuel Mayer Katz, who said: "One should not take this vaccine."

Rabbi Osher Chaim Lieberman, who said "We have heard of many serious reactions, and even death..."

Rabbi Shlomo A. Pollack, who wrote an entire letter detailing the dangers of the Covid injection (available upon request)

In Eretz Yisrael, HaGaon HaRav Yosef Binyamin Halevi Vosner, grandson of the Shevet Halevi, who spent months researching the injections and then wrote an entire three-page letter warning very strongly not to take them (available upon request). Part of his words: "It's forbidden to keep one's mouth closed from informing people what they need to know...a doctor who hasn't studied and investigated many, many years the subject of viruses...and the components of vaccines and their effects, can't express his opinion on the topic of the vaccine. It's like an eye doctor or a reflexologist who expresses his opinion on whether to do open heart surgery or not...the entire concept of asking a doctor is foolishness. All vaccines go through a minimum of 5-10 years of testing and experiments. This one barely passed 6 months of testing because it's supposedly an 'urgent situation'— and therefore the process of testing was done using shortcuts..."

Rav Moshe Mordechai Karp, Rav of Kiryat Sefer, wrote an entire two-page proclamation warning against taking the injection (available upon request). Part of his words: "...However, a few weeks have already elapsed since people have taken the vaccines, and it has become known to us many horrific cases of previously healthy people who took the vaccine and were very harmed afterward, and some even died, *Rachmana litzlan*... And certainly, whoever possesses any intelligence will not entertain the thought of taking these vaccines, but rather will abstain until a longer time passes, and the effects and outcomes are seen."

Hagaon Hatzaddik Rav Yaakov Meir Schechter, who said: "My opinion is that one should not take the corona vaccine *b'shum panim v'ofen*."

Rav Meir Dovid Shmueli, brother of the Mekubal Rav Benayahu Shmueli, produced a video message warning strongly against taking the injection (this can be viewed at www.tinyurl.com/rabbonim).

The Sassover Rebbe, who based his words on a discussion in 5740, about a new medical treatment with Rav Elyashiv, *zt"l*. Rav Elyashiv remarked at that time: "How can one take Achrayus to

administer shots that have only been on the market a year or two? What will happen if after some time, someone will become injured from it?"

The Sassover Rebbe then pointed out: "This was said about something that was on the market for a few years already, and was used in half the world. This was not a product that was just a few weeks old and produced by just a few companies. And about that, Rav Elyashiv said 'How is it possible to take achrayus?' It is forbidden to take it *b'shum ofen ba'olam*."

The Amshinover Rebbe, who is widely known for his expertise in the medical field, said: "These vaccines contain *chashashos nora'os*, and one must greatly distance oneself from them! It is a great mitzvah to make this issue clear to the *Rashei Am Kadosh* so that they should know the *chomer ha'inyan*, and the danger which it contains, *chas v'shalom*."

Rav Aharon Ros, a Rav in Yerushalayim, who was for many years the Rav of the Bikur Cholim hospital, issued a letter warning against taking the injection (available upon request). Part of his words: "...as long as the benefit from them is not absolutely certain, and until the potential harm that they can cause is not ruled out, and we receive answers from the doctors, one should distance himself from them."

Hagaon Hamekubal Rav Dov Kook, who said: "One who wishes to commit suicide should take the vaccine." He also remarked: "The vaccines are the second Holocaust."

There are many more, including a grandson of Rav Ovadya Yosef, who previously supported the injection but publicly recanted after discovering the terrible side effects that were befalling people after the shot. (He is recorded on video strongly warning against it, in a public speech.)

The sons of Hagaon Rav Greineman, zt"l, testify that he ruled that one may not take a new vaccine/injection UNTIL IT HAS BEEN ON THE MARKET FOR AT LEAST TEN YEARS.

Rabbi Yuval Asherov, in Eretz Yisrael, who is also a medical expert, recorded extremely informative videos that can be seen online, warning very strongly about the grave dangers of the injection.

These Rabbonim's words, plus more, can be viewed at tinyurl.com/rabbonim.

It seems that the Rabbonim who have looked deeply into the injection are the ones saying NOT to get it. We must also keep in mind that it is dangerous for Rabbis and doctors in Israel to come out publicly against the injection, so there are many voices we are not hearing.

What about those Rabbonim who have come out publicly in favor of the injection? Some people think that they are supposed to blindly follow them regardless of the dangers they have been warned of – even though the Rabbonim who come out in favor clearly have not been provided with important information that would surely result in a different ruling.

When this discussion came up, someone compared questioning a Rav who says to take the injection to Klal Yisrael's questioning Moshe Rabbeinu's return and making the *Eigel*. I asked someone to research for me the topic of Klal Yisrael's doubting Moshe's return, and of the permissibility of questioning a Rav's *p'sak*, and this is what he found:

“First of all, there is nowhere it says the *Yidden* did something wrong by not trusting Moshe. It actually says that we are not blamed for thinking Moshe died since that was a set up by the satan and Hashem went along with it. The mistake was the next step where they decided to make an *eigel*. Think about it like this: What would have happened if they thought he had died and mourned his passing and made Aharon Hakohen the new leader? Nothing wrong with that. Then Moshe would have come back and said, ‘I am still here,’ and they would have said, ‘Oh, it was a mistake’ – and everything would have continued with Moshe leading them.

“Now regarding the *sugya* of trusting the *chachamim halacha l'maasah* that *yemin shehu s'mol*, there are four *rishonim* who I found that discuss it. 1) Rambam 2) Ramban 3) Chovos Halevavos and 4) Minchas Chinuch. The Rambam, Ramban and Minchas Chinuch say very clearly that halacha only applies by the Sanhedrin, and otherwise you are not allowed to follow a Rav that tells you something that you know is wrong, even if it is Moshe Rabbeinu!

“The gemara in *Maseches Horiyos* says that an *am ha'aretz* who listened to a Rav on something he knew was wrong needs to bring a *korban*, but a *Talmid Chacham* who did so is considered a *mazid* since he knew it was wrong. THE ONLY TIME THAT YOU HAVE TO LISTEN WHEN YOU KNOW THEY ARE WRONG IS BY THE SANHEDRIN IN THE *LISHKAS HAGAZIS*. And even then, it's only if he went to them and discussed it with them, and explained his side to them, and they still said that the halacha is not like him – then he has to listen to them. But definitely not when he didn't explain his side to them. There is no *Mekor* that you have to listen if you know a Rav is wrong.

“Next, how do you decide who counts as the majority of Rabbonim? There are plenty of Rabbonim who were never spoken to about it, so there is no majority vs minority. And the halacha that you need to listen even if you feel they are wrong is only when the Rabbonim discuss it among themselves! In addition to that, the Chovos Halevavos says that the only time you are supposed to listen blindly is when it is regarding something that we go with *mesorah* and not *s'vara*, for example colors by *taharas hamishpacha*.”

To the above, I wish to humbly add this simple *mashal*: As we know, one may NOT listen if one's parents tell them to violate Shabbos, or do any other *aveira*. The same holds for any other person in the world, whether that be one's Rabbi, or even a Navi. If any human being instructs you to do an *aveira*, you must refrain from listening because we ALL must listen to Hashem.

Committing suicide, making oneself sterile, and putting oneself in *sakanah* are all *assur min haTorah*. Now, obviously, your Rav isn't advising that you get the shot believing that it will hurt or sterilize you. But, after reading this, you will know of dangers that your Rav may not know enough about. In this case, it's like your Rav is saying to eat something, not knowing it's not kosher, but you are aware that it's not kosher. Or he's telling you, “Keep walking,” not knowing that there is a cliff there, but

you DO know that you're at the edge of a cliff. YOU AREN'T ALLOWED TO COMMIT SUICIDE. YOU AREN'T ALLOWED TO LISTEN.

THOSE WHO SAY, "I WOULD WALK OFF A CLIFF, OR INTO A FURNACE, IF MY RAV TOLD ME TO," are completely misunderstanding the idea of *Daas Torah*, in a very dangerous way. The Torah instructs us very, very specifically NOT to listen EVEN IF A NAVI tells us to violate halacha.

CHAPTER 11: WHY IS MY DOCTOR RECOMMENDING THE INJECTION, IF IT'S DANGEROUS?

In terms of doctors, if you will ask why it seems that "most doctors" appear to be recommending the shot, you must realize that there is a well-oiled propaganda machine that is using the most successful psychological tactics and behavioral manipulation techniques to influence the public that this brand-new gene therapy is known to be safe, and they should be running to get it. **Anyone who urges caution or presents evidence to the contrary is being suppressed and canceled**, creating an echo chamber in which most physicians are not aware of the true dangers.

Sadly, many doctors are being branded as "experts" but they aren't virologists or immunologists, and they actually are not equipped with the knowledge needed to assess the risks of the injection. Doctors only spend 4 hours studying injections in medical school, and even that time is mostly learning the CDC injection schedule. Most physicians do not actually know more than a layperson about the safety or risks of the injection, and are simply parroting the propaganda from the CDC and other medical authorities, who are biased and have their own agenda.

For an example of bias, as pointed out in Health Impact News, "The decision of whether or not to continue allowing emergency use authorization for the J & J shot, or either of the two other shots, is largely made by just a select few doctors and scientists, all employed by the U.S. government and with strong ties to the pharmaceutical industry."

There are, however, **THOUSANDS** of doctors and scientists worldwide who are very courageously risking everything by speaking out very strongly about the terrible dangers of this injection. Just because the mainstream media refuses to air their views doesn't mean they don't exist. These experts derive no personal benefit from expressing their disapproval of the injection, and in fact are risking their careers, and sometimes even their very lives.

The list of very prominent doctors and scientists attempting to wake us up to the atom bomb in our midst includes Dr. Michael Yeadon, a former top Pfizer scientist and vaccine developer (who became so concerned about the corona injection that he took Pfizer to court in order to try to get the injection trials stopped because he believes that the injection presents a grave danger to humanity), and Dr. Geert Vanden Bossche, a vaccine developer from Belgium who used to work for Bill Gates and who warns of death eclipsing the Holocaust, *chas v'shalom*, from the fallout of the current corona injections. See: <https://fos-sa.org/2021/03/12/open-letter-to-the-who-immediately-halt-all-covid-19-mass-vaccinations-geert-vanden-bossche-dmv-phd/>.

Here is a partial list of the thousands of doctors worldwide warning in the strongest possible terms against these shots:

Peter Doshi, PhD, Senior Editor at The British Medical Journal, Assistant Professor of Pharmaceutical Health Services Research at the University Of Maryland School Of Pharmacy

“None of the trials currently underway are designed to detect a reduction in any serious outcome such as hospital admissions, use of intensive care, or deaths. Nor are the vaccines being studied to determine whether they can interrupt transmission of the virus.”

<https://www.bmj.com/content/371/bmj.m4037>

(https://drive.google.com/file/d/1IL_qqRF67NZR6NxW74mq9owlRctcZSOL/view?usp=sharing)

Pfizer and Moderna’s “95% effective” vaccines—we need more details and the raw data...According to FDA’s report on Pfizer’s vaccine, there were “3410 total cases of suspected, but unconfirmed covid-19 in the overall study population, 1594 occurred in the vaccine group vs. 1816 in the placebo group...Addressing the many open questions about these trials requires access to the raw trial data. But no company seems to have shared data with any third party at this point.

<https://blogs.bmj.com/bmj/2021/01/04/peter-doshi-pfizer-and-modernas-95-effective-vaccines-we-need-more-details-and-the-raw-data/>

(<https://drive.google.com/file/d/1dTcBdaWmPMbNHWRxpX6U8PTTy--zDpFD/view?usp=sharing>)

Dr. Vanessa Schmidt Krüger, Cell Biologist, Scientific Research Group at Max Delbrück Center for Molecular Medicine (MDC) Berlin

“I am extremely critical of the EMA Committee: there is no discussion at all about the consequences that can arise from side effects. They just nodded it all through. They just said ok, that’s how it is ...” “No genotoxicity studies done yet. They say they don’t need to because “no genotoxic potential is to be expected”. But it has been known for 20 years that cationic lipids are highly toxic. What universe do they live in!?”

http://enformtk.u-aizu.ac.jp/howard/gcep_dr_vanessa_schmidt_krueger/

(https://drive.google.com/file/d/1LR1C5GP1_1MiJFcZ01peAZCmK09IV2PH/view?usp=sharing)

Geert Vanden Bossche, DVM, PhD, Vaccine Researcher, former Chief Scientific Officer (CSO) and Chief Innovation Officer (CIO) at UNIVAC NV

“Mass infection prevention and mass vaccination with leaky Covid-19 injections in the midst of the pandemic can only breed highly infectious variants.”

“From all of the above, it’s becoming increasingly difficult to imagine how the consequences of the extensive and erroneous human intervention in this pandemic are not going to wipe out large parts of our human population. One could only think of very few other strategies to achieve the same level of efficiency in turning a relatively harmless virus into a bioweapon of mass destruction.”

<https://www.geertvandenbossche.org/>

(<https://drive.google.com/file/d/1bFijH4L5gF34x5ldSIXbThF97Da7eUmW/view?usp=sharing>)

Dr. Michael Yeadon, Biochemist and Pharmacologist, former Vice President and Chief Scientific Officer at Pfizer;

Dr. Wolfgang Wodarg, Physician and Health Policy Adviser, Honorary Member of the Parliamentary Assembly of Council of Europe (PACE);

Dr Sin Hang Lee, Pathologist, Director of Milford Molecular Diagnostics Laboratory, Connecticut

“This problem of ADE is a major reason why many previous vaccine trials for other coronaviruses failed. Major safety concerns were observed in animal models. If ADE occurs in an individual, their response to the virus can be worse than their response if they had never developed an antibody in the first place... ADE has proven to be a serious challenge with coronavirus vaccines, and this is the primary reason many of such vaccines have failed in early in-vitro or animal trials.” “If this were to be the case this would then also prevent the formation of a placenta which would result in vaccinated women essentially becoming infertile...it could take a relatively long time before a noticeable number of cases of post-vaccination infertility could be observed.”

<https://drive.google.com/file/d/1DQ8Q0DytXt0C-jA1G16YM5cPA50QNGtf/view?usp=sharing>

Dr. Ryan Cole, MD, Board-Certified Dermatopathologist (AP & CP) and the CEO/Medical Director of Cole Diagnostics, Garden City, Idaho

“Historically, what we're doing right now does not fall under the definition of a vaccine. They shifted the verbiage in some of the federal register back in October so they could approve this...MRNA trials in mammals have led to odd cancers. MRNA trials on mammals have led to autoimmune diseases, not right away, six, nine, 12 months later...Fifty percent of healthcare providers are absolutely not getting this vaccine, and there's a reason. We don't trust the data...There were no independent observer groups looking at the data...The vaccines are an experiment on society.”

<https://vitamindwiki.com/COVID+public+health+messages+1%2C+2%2C+and+3+should+be+-+vitamin+d+vitamin+d%2C+vitamin+d+%28video+and+transcript%29+-+Mar+5%2C+2021>

<https://drive.google.com/file/d/1dNZmzafh9Mg6TmXnkfv-DX-4fTs0ble/view?usp=sharing>

Dr. Moran Kroninberg, Family Doctor, Israel

“It seems to me that we need a good, few years to research and prove efficacy and safety. Safety first, safety first and then efficiency, before we use them...sounds very impulsive and quick to attack develop a vaccine and to declare it safe and begin to vaccinate the population... I'm afraid of it”

(https://drive.google.com/file/d/1YIHZHKLmstoCHyrFBSFILtBZ_tjL7KJp/view?usp=sharing)

Dr. Sherri J. Tenpenny, former Emergency Medicine physician and the director of the Emergency Department in Findlay, Ohio

“In a 2012 study of mice, ferrets, hamsters, and Cynomolgus monkeys, using various coronavirus proteins and various adjuvants, researchers reported immunopathology in every animal that had been vaccinated and then re-exposed to a SARS-CoV virus...Researchers concluded the following: The SARS-CoV vaccines all induced antibody protection against infection with SARS-CoV. However, [viral] challenge of the mice given any of the vaccines led to the occurrence of Th2-type immunopathology suggesting hypersensitivity to SARS-CoV components.”

<https://vaxxter.com/covid-injections-part-2/>

(<https://drive.google.com/drive/u/3/folders/1cneo9VqHfFFSBZa8-ZLEY0QcD8eTjKrE>)

Dr. Michal Haran, senior hematologist at Kaplan Hospital, Rehovot, Israel

“...the efficacy of the vaccine in preventing the spreading of the virus and reducing infectivity, which is the most important factor in its ability to ameliorate the devastating effects of the pandemic, was not tested...It is also known that mRNA vaccines can be transferred to the liver 6, thus one would expect that all blood chemistries including liver and renal function tests would be evaluated to ensure that indeed there is no risk of end-organ damage...One significant and recognized risk of the expression of a foreign protein on self-cells is the induction of severe auto-immune reactions.”

<https://michalharancoil.wordpress.com/2020/12/23/example-post-3/>

(<https://drive.google.com/file/d/1wclLnk958VSQCB8KrMh1s0Cj3CN4fp7V/view?usp=sharing>)

Dr. Gil Yosef Shachar, M.D., founder and head of Rambam Medical Center

“The newspapers and social media are full of explanations about the safety of vaccines compared to the serious disease caused by the coronavirus. They say loosely that there may be some unreasonable risks, but these are null in compared to the dangers expected from infection with the virus.

So, my opinion is different and I think that the risk of the virus for most of the population is much smaller than the risk of providing a cure that has not passed the acceptable stages. The claim that vaccines are very likely to be effective in preventing serious illness or contagion and that there is no proof (yet) of possible damages are valid for any experimental medication and anyone involved in clinical trials knows how few medicines go through the bar of effectiveness and safety required...”

(<https://www.rambam-medicine.org.il/category/corona-injection-safety>)

Dr. Alon Sadeh, Chemist and Biologist, Israel

“Insertion of a foreign genetic material may also several times increase the risk of cancerous growths.

https://drive.google.com/file/d/1mQaa93Ccc2Bm5rZ3OYY5cuiE_mmL_jtX/view?usp=sharing

Dr. Igor Shepherd, former Readiness and Countermeasures Manager for the Wyoming state Health Department

“I’m concerned about these vaccines now because all of them can overstimulate the immune system because we’re losing control of our bodies over them. That is not good news... It will affect your offspring more than you. How? Psychological affects, mostly paranoia, psychopathies of all kinds, and neurological effects for sure. So, we’ve built the next generation of children in the United States with such effects that it will be disastrous...I call all of these vaccinations against COVID-19 biological weapon of mass destruction!”

<https://healthimpactnews.com/2020/covid-injections-biological-weapons-of-mass-destruction-says-wyoming-medical-doctor-and-manager-for-wyomings-state-public-health-department/>

Elroy Vojdani, Regenera Medical, Los Angeles;

Datis Kharrazian, Department of Preventive Medicine, Loma Linda University School of Medicine, Department of Neurology, Harvard Medical School, Boston, and the Department of Neurology, Massachusetts General Hospital

“An insufficiently vetted vaccine might mean trading freedom from COVID-19 to an autoimmune assault in the future...1, the spike protein antibody exhibited significant reactions with 25 out of 55 tested target proteins, with the strongest reactions coming from NFP and M2 antigens.

Dr. Hooman Noorchashm, MD, PhD, Cardiothoracic Surgeon and Patient Advocate, former lecturer at Harvard Medical School

“The trouble is that a large proportion of the recently or currently infected during the present pandemic are asymptomatic or have had very mild symptoms by the time they are vaccinated...The clinical result of vaccinating the infected “class” of people could range from minor benign symptoms, to moderate signs of systemic inflammation, to severe inflammatory disease with end organ damage (e.g., COVID-19 inflammatory disease or vascular injury with thromboembolic events), or death within days to weeks of vaccination.”

J. Bart Classen, MD, Immunologist, Manchester, MD	Dr. Ralf ER Sundberg, M.D., PhD, former associate professor in transplant surgery at Karolinska Institute, Sweden
Dr. Judy A. Mikovits, PhD, Director of the lab of Antiviral Drug Mechanisms at the National Cancer Institute	Dr. Johan Denis, Medical Doctor, Belgium “This vaccine is just not proven safe. It has been developed too quickly. We have no idea what the long-term effects will be. It needs much more investigation. There is no hurry or emergency. It might possibly change your DNA. This is irreversible and irreparable for all future generations, an experiment on humanity. I would never give it to myself, my patients, or my loved ones. We are no guinea pigs.”
Dr. Christiane Northrup, MD, obstetrician-gynecologist, former assistant clinical professor of OB/GYN at Maine Medical Center,	Dr. Daniel Cullum, chiropractic physician, Turpin, Oklahoma “The vaccine has not been proven safe or effective, and I will not be taking and/or recommending it”

<p>Dr. Trozzi, MD, Veteran Emergency Physician, Trauma Life Support instructor</p>	<p>Moritz von der Borch, Medical Journalist, Germany “Do not take this vaccine. This vaccine is dangerous.”</p>
<p>Dolores Cahill, PhD, Immunologist, Professor of Translational Science at the UCD School of Medicine and Medical Sciences. “We know that we can treat the symptoms of COVID-19 very successfully with vitamins D, C, and zinc, and with very safe medicines. So, therefore the lockdown and the measures like quarantining, social distancing, and masks were not necessary. And also, a vaccine is then also not necessary. There has never been a licensed RNA vaccine. And this is not because there have been many clinical trials, but that in the safety studies, there were significant adverse events and death in the animals that were used in these studies over the past 20 years.”</p>	<p>Dr. Anne Fiertafijn, Chronic Infectious Disease Specialist, Belgium “The COVID-19 vaccine is not proven safe nor effective. And I think it’s unacceptable that all liabilities have been waived for the companies that are producing it...The measures for Corona cause far more collateral damage than the virus causes itself...please be critical. Do your own research, and don’t let the media manipulate you...Don’t give in to anxiety, to polarization, to governmental control, and to restriction of your freedom...”</p>
<p>Dr. Carrie Madej, DO, Internal Medicine Specialist, McDonough, GA “This vaccine is experimental on the human race because they are proposing to use modified messenger RNA or modified DNA synthetic to the human body. This is the first time ever this will ever be launched on the human race. We don’t know what could happen to us. In addition, they’re proposing to use nano lipid technology or nanotechnology on the human race as well. There are so many different awful things that can happen to us”</p>	<p>Dr. Tom Cowan, General Medical Practitioner, former Vice President of the Physicians Association for Anthroposophical Medicine</p>
<p>Dr. Natalia Prego Cancelo, MD Medical Doctor, Spain</p>	<p>Dr. Barre Lando, Bio-Terrain Practitioner, Functional Movement Specialist “Due to the lack of proper testing and the spurious conditions surrounding the alleged pandemic, I would highly caution anyone considering taking the COVID-19 vaccine.”</p>
<p>Dr. Andrew Kaufman, MD, Forensic Psychiatry Specialist, Suny Upstate Medical University Hospital “The COVID-19 vaccine is not proven safe or effective because there has not been enough time”</p>	<p>Kate Shemirani, nurse, researcher and personal nutritionist, UK “Do I believe that the population need this new COVID-19 dangerous vaccine that’s not had the safety trials done, and it hasn’t ever been done before? Absolutely not. No one needs it. Do I believe that our government should be arrested for possibly genocide? Absolutely.”</p>
<p>Dr. Mohamed Iqbal Adil, NHS cancer surgeon</p>	<p>Dr. Sandy Lunoe Pharmacist, Norway “The COVID 19 vaccines are not proven safe or effective... The vaccines carry the risk of immune enhancement. Instead of protecting against infection. The vaccine can actually make the disease worse when a vaccinated person is infected with the virus.”</p>
<p>Dr. Hilde de Smet, M.D. Belgium “For almost 20 years, the pharmaceutical industry has been trying to develop Corona vaccines, but never managed because they saw in the animal trials that there were serious side effects, autoimmune disorders when the animal was exposed to new wild type virus. Now, due to the excuse of a global pandemic, the pharma industry has the permission to skip the animal trials. This means that we humans will be the guinea pigs and we might get severe side effects when we are exposed to new viruses.”</p>	<p>Dr. Rashid A. Buttar, DO, Medical Director of the Center for Advanced Medicine & Clinical Research, Cornelius, NC & former Brigade Surgeon and Director of Emergency Medicine in the U.S. Army</p>

<p>Dr. Elke F. de Klerk, Dutch general practitioner, founder of Doctors for Truth in the Netherlands “I have informed myself about the vaccine, and I want to tell you about 3 things. First of all, this vaccine could be sterilizing women and girls. Secondly, this vaccine could cause a viral interference, a priming, and then it can cause a cytokine storm, which is very dangerous for your health for people. This has been seen in humans and animals, animal testing with other Corona vaccines. And then thirdly, this vaccine could change your genetic blueprint, your genetic code, your DNA forever, and we don’t know what that’s going to bring.”</p>	<p>Dr. Nour De San, Medical Doctor, France “...the problem is that they want us to believe that it was possible to develop a new vaccine in less than one year against a new disease, using new adjuvant technologies, and to do so such a very, very large scale...Anyone who has worked on vaccinations know that it requires time, so that we are able to collect enough data to ensure its efficacy and safety, and properly understand the long-term effects on our health.”</p>
<p>Dr. Piotr Rubas, Internist, Germany “I strongly disagree to getting vaccinated with this experimental preparation called the Corona vaccine...each and every new vaccine has to undergo a period of clinical trials which is at least 5 years.”</p>	<p>Dr. Kelly Brogan, MD holistic psychiatrist “...will you see through their claims to a transhumanist agenda that aims to dispossess you of trust in your body, of any agency around your own life, and even the fabric of your own humanity?...The COVID-19 vaccine is not proven safe or effective.”</p>
<p>Dr Vernon Coleman, MB ChB DSc FRSA, general practitioner, principal and former Professor of Holistic Medical Sciences at the International Open University in Sri Lanka, UK “Material containing the truth about the alleged disease and the vaccine is banned...The principle of informed consent is essential in medicine, but patients now having vaccines can’t give informed consent because they aren’t being informed.”</p>	<p>Konstantin Pavlidis, Metaphysicist, Scientific Researcher, founder of the Orassy Centre, London, UK “...no COVID tests are truly accurate, and no produced injection could be accurate as it tricks the immune system into reacting as if there is a real viral attack where this triggers monocytes in the attempt to access the immune memory cells. These actions appear as viral symptoms, example chronic fatigue, muscular contractions, or mental health disorders ranging from depression to suicidal tendencies. And all of these are in fact side effects of the vaccine’s influence.”</p>
<p>Dr. Lee Merit, MD, Orthopedic Surgery Specialist, former president of the Association of American Physicians and Surgeons, Onawa, IA</p>	<p>Dr. Heiko Santelmann, Medical Doctor, Germany “...the COVID-19 vaccine is not proven to be safe or effective. I agree with the British Medical Journal that the testing is not done honestly.”</p>
<p>Dr. Nits R Fosse, Medical Doctor, Barragan, Norway</p>	<p>Dr. M Griesz-Brisson MD, PhD, Consultant Neurologist and Neurophysiologist, London, UK “Uniform and forceful measures, medical measures are unethical and cannot be implemented on a defenseless population, neither as test nor as vaccines.”</p>
<p>Dr. Elizabeth Evans, NAET Practitioner, Mitochondrial Rescue Practitioner, Wireless Health Radiation Adviser, UK “We believe that it is reckless and unnecessary to roll out these essentially experimental vaccines that are using a completely new mRNA technology to millions of people when there is only limited short-term safety data, no evidence that they will prevent transmission of the virus, and no long-term safety data to rule out late onset negative effects like autoimmune diseases, infertility, and cancers.”</p>	<p>Dr. Mikael Nordfors, Medical Doctor, Sweden “...to give an untested vaccine to entire humanity and use them as guinea pigs is complete madness and nothing else, and we must stop it now. And it’s even more madness to give it to children, when children don’t suffer from COVID-19.”</p>

American Frontline Doctors

“This so-called antibody-dependent amplification, ADE, has long been known from experiments with corona vaccines in cats, for example. In the course of these studies all cats that initially tolerated the vaccination well died after catching the wild virus. If these experimental

coronavirus vaccines cause an ADE reaction and millions and millions of Americans have taken this vaccine, instead of a 99.98% cure rate for COVID-19 we could face a 20-30% death rate when all these millions of Americans are exposed to COVID-19 in the wild.”

Geoff Mitchell, MD, JD, Clinical Emergency Medicine Practitioner, former Director of the American Academy of Emergency Medicine	

Urgent Open Letter from Doctors and Scientists to the European Medicines Agency regarding COVID-19 Vaccine Safety Concerns

“We note that a wide range of side effects is being reported following vaccination of previously healthy younger individuals with the gene-based COVID-19 vaccines. Moreover, there have been numerous media reports from around the world of care homes being struck by COVID-19 within days of vaccination of residents. While we recognize that these occurrences might, every one of them, have been unfortunate coincidences, we are concerned that there has been and there continues to be inadequate scrutiny of the possible causes of illness or death under these circumstances, and especially so in the absence of post-mortem examinations...

There are serious concerns, including but not confined to those outlined above, that the approval of the COVID-19 vaccines by the EMA was premature and reckless, and that the administration of the vaccines constituted and still does constitute “human experimentation,” which was and still is in violation of the Nuremberg Code.”

Professor Sucharit Bhakdi MD, Professor Emeritus of Medical Microbiology and Immunology, Former Chair, Institute of Medical Microbiology and Hygiene, Johannes Gutenberg University of Mainz (Medical Doctor and Scientist) (Germany and Thailand)
Dr Marco Chiesa MD FRCPsych, Consultant Psychiatrist and Visiting Professor, University College London (Medical Doctor) (United Kingdom and Italy)
Dr C Stephen Frost BSc MBChB Specialist in Diagnostic Radiology, Stockholm, Sweden (Medical Doctor) (United Kingdom and Sweden)
Dr Margareta Griesz-Brisson MD PhD, Consultant Neurologist and Neurophysiologist (studied Medicine in Freiburg, Germany, specialty training for Neurology at New York University, Fellowship in Neurophysiology at Mount Sinai Medical Centre, New York City; PhD in Pharmacology with special interest in chronic low level neurotoxicology and effects of environmental factors on brain health), Medical Director, The London Neurology and Pain Clinic (Medical Doctor and Scientist) (Germany and United Kingdom)

Professor Martin Haditsch MD PhD, Specialist (Austria) in Hygiene and Microbiology, Specialist (Germany) in Microbiology, Virology, Epidemiology/Infectious Diseases, Specialist (Austria) in Infectious Diseases and Tropical Medicine, Medical Director, TravelMedCenter, Leonding, Austria, Medical Director, Labor Hannover MVZ GmbH (Medical Doctor and Scientist) (Austria and Germany)
Professor Stefan Hockertz, Professor of Toxicology and Pharmacology, European registered Toxicologist, Specialist in Immunology and Immunotoxicology, CEO tpi consult GmbH. (Scientist) (Germany)
Dr Lissa Johnson, BSc BA(Media) MPsych(Clin) PhD, Clinical Psychologist and Behavioural Psychologist, Expertise in the social psychology of torture, atrocity, collective violence and fear propaganda, Former member Australian Psychological Society Public Interest Advisory Group (Clinical Psychologist and Behavioural Scientist) (Australia)
Professor Ulrike Kämmerer PhD, Associate Professor of Experimental Reproductive Immunology and Tumor Biology at the Department of Obstetrics and Gynaecology, University Hospital of Würzburg, Germany, Trained molecular virologist (Diploma, PhD-Thesis) and Immunologist (Habilitation), Remains engaged in active laboratory research (Molecular Biology, Cell Biology (Scientist) (Germany)
Associate Professor Michael Palmer MD, Department of Chemistry (studied Medicine and Medical Microbiology in Germany, has taught Biochemistry since 2001 in present university in Canada; focus on Pharmacology, metabolism, biological membranes, computer programming; experimental research focus on bacterial toxins and antibiotics (Daptomycin); has written a textbook on Biochemical Pharmacology, University of Waterloo, Ontario, Canada (Medical Doctor and Scientist) (Canada and Germany)
Professor Karina Reiss PhD, Professor of Biochemistry, Christian Albrecht University of Kiel, Expertise in Cell Biology, Biochemistry (Scientist) (Germany)
Professor Andreas Sönnichsen MD, Professor of General Practice and Family Medicine, Department of General Practice and Family Medicine, Center of Public Health, Medical University of Vienna, Vienna (Medical Doctor) (Austria)
Dr Michael Yeadon BSc (Joint Honours in Biochemistry and Toxicology) PhD (Pharmacology), Formerly Vice President & Chief Scientific Officer Allergy & Respiratory, Pfizer Global R&D; Co-founder & CEO, Ziarco Pharma Ltd.; Independent Consultant (Scientist) (United Kingdom)
Endorsing signatories
Dr Véronique Ahari, General Practitioner (France)
Dr. Elizabeth Bastian, BSc (Genetics and Microbiology), MDCM, Family Medicine, General Practitioner in Oncology, sub specialty trained in Palliative Care (Medical Doctor) (Canada)
Dr Michael D Bell, MB ChB (1978 Edinburgh) MRCP (1989), General Practitioner (Medical Doctor) (United Kingdom)
Dr Francisco Lacruz Bescos, MD, PhD, Consultant Neurologist with special training and dedication to Neuroimmunology and Multiple Sclerosis (Retired) (Medical Doctor) (Spain)
Dr Thomas Binder, MD, Cardiology and Internal Medicine (Medical Doctor) (Switzerland)
Dr Rainer Bliefert, Dentist (Switzerland)
Dr Roxana Bruno, PhD in Immunology, Researcher in Biochemistry, Immunology, Neuroimmunology and Genetics (Scientist) (Argentina)
Dr Vernon Coleman, MB, ChB, General Practice Principal (Retired) (Medical Doctor) (United Kingdom)
Dr David Critchley, BSc, PhD, Clinical Research Scientist with more than 30 years' experience, including projects in Virology and Immunology (Scientist) (United Kingdom)
Professor Barbara A Crothers, DO, Associate Professor, Pathology, Gynecologic, Breast and Cytopathology (USA)
Dr Rita Darby, General Practitioner (Medical Doctor) (United Kingdom)
Dr Nyjon Eccles, BSc MBBS MRCP PhD, Specialist in Functional & Environmental Medicine (United Kingdom)
Merit Enckell, Civ. Ing, PhD, Independent researcher, Structural Health Monitoring and Emerging Technologies, Formerly of KTH Royal Institute of Technology (Scientist) (Sweden)
Dr Radimé Farhumand, Specialist in Anesthesia (Medical Doctor) (Germany)
Dr Thomas Faulkner, MChiro DC, Managing Director and Chiropractor (United Kingdom)
Dr Konstantinos Fountzoulas, MD, PGDiP Orth Eng., FEBOT, FRCS (Tr & Orth), Consultant Trauma and Orthopaedic Surgeon (Medical Doctor) (England and Italy)
Dr Carrie Ganek, MD, Adult Psychiatry (Medical Doctor) (USA)
Dr Martin E Ganek, MD, Board certified Paediatrician (Medical Doctor) (USA)
Dr Parisi Giovanni, Specialist in Ophthalmology and Sports Medicine (Medical Doctor) (Italy)
Dr. Olga Petrovna Guzova, Pediatrician, Dermatologist and Dermatopathologist (Medical Doctor) (Panama)
Dr Roman Häussler, General Medicine (Austria)
Dr Jutta Heinrich-Nols, Doctor and Clinical Pharmacologist (Medical Doctor and Scientist) (Germany)
Dr Hervé Janecek, Veterinarian (France)
Dr. Elisabeth Jenik, General Medicine, Occupational Medicine and Psychosomatic Medicine (Medical Doctor) (Austria)
Dr Alain Joseph, General Medicine Specialist (Retired) (Medical Doctor) (France)

Dr Konstantinos Kakleas, MD, MRCPCH, MSc, PhD, Paediatric Allergy Consultant, Leicester Royal Infirmary Hospital (Medical Doctor) (United Kingdom)
Dr Hootan Kazemi, BDS Dental Surgeon, MSc(Distinc.) Clinical Biochemistry, BSc(Hons) Physiology (General Dental Practitioner) (United Kingdom)
Dr Ingrid Kiesel, Specialist in Psychiatry, Psychotherapy and General Medicine (Medical Doctor) (Germany)
Dr Wiltrud Kling, Specialist in General Medicine (Medical Doctor) (Germany)
Dr Ewa Konik, MD, Heart Transplant Cardiologist (Medical Doctor) (USA)
Dr Doris Krien, Assistant Doctor, Günzburg District Hospital (Medical Doctor) (Germany)
Brigitte Lacroix, clinical PKPD and PBPK modeler (Pharma industry), PhD in Pharmacy (Paris XI University), PhD in Pharmacometrics (Uppsala University) (Scientist) (France, Sweden)
Dr Andreas Lang, MD (Medical Doctor) (Germany)
Dr Michael S Lavender, Consultant Anaesthetist (Medical Doctor) (Australia)
Dr Tess Lawrie, MBChD PhD, Guideline methodologist and evidence synthesis expert, Director of The Evidence Based Medicine Consultancy Ltd, Bath UK. Honorary Researcher at the Royal United Hospital, Bath UK (Medical Doctor and Scientist) (United Kingdom)
Dr Katrina Lewis, MD, BSc in Immunology and Physiological Chemistry, triple Board certified (USA) in Anesthesiology, Pain Medicine and Functional Medicine (Medical Doctor) (South Africa, USA)
Dr Derek Lohan, Consultant Radiologist and Director, Helix Radiology (Medical doctor) (Ireland)
Dr. Adele Lorigan, BSC (Chiro), Chiropractor (Australia)
Dr Kulvinder S. Manik, MBChB, MA, LL.M, MRCPGP, GP (Medical Doctor) (United Kingdom)
Dr. Rosemarie Mayr, Specialist in Psychiatry and Psychotherapeutic Medicine and Child and adolescent Psychiatry, ÖÄK diploma for homeopathy (Retired) (Medical Doctor) (Germany)
Dr Niall McCrae, PhD, MSc, RMN, Mental health researcher, Psychiatric Nurse (United Kingdom)
Professor Nathalie McDonnell, MD, PhD (human genetics), Professor of Molecular and Cell Biology, AUC School of Medicine, St. Maarten (Medical Doctor and Scientist) (France)
Dr Sabine de Monvallier, General Practitioner (Medical Doctor) (France)
Dr Amir Mortasawi, Physician and author (Germany)
Dr Souha Nasreddine, MD, Ob/Gyn, Graduated from the Free University of Brussels Belgium, Holistic Gynecology (Lebanon)
Dr Terezia Novotna, General Practitioner, Emergency Doctor, and Anesthesiologist in Training (Medical Doctor) (Austria)
Akhmetzhanova Tamara Nikolaevna, Therapist and Cardiologist, the Republican Medical Genetic Center, Ufa (Medical Doctor) (Russia)
Ole C G Olesen, Double specialist in General Surgery, as well as Orthopedic Surgery and Trauma (Medical Doctor) (Denmark, Norway, Sweden and United Kingdom)
Dr Waltraud Parta-Kehry, Biologist and Doctor for Gynaecology and Reproductive Medicine (Medical Doctor) (Germany)
Dr Arun Kumar Patel, MBBS, MPH, MRCPH, FFPH, Medical Public Health Specialist (Retired), NHS (Medical Doctor) (United Kingdom)
Dr. Cristina Pinho, MD, Gastroenterologist (Medical Doctor) (Portugal)
Dr Hélène Potrich, General Practitioner (Medical Doctor) (France)
Dr Fabio Quirici, Swiss Medical Association (Medical Doctor) (Switzerland)
Dr Denis Rancourt, PhD, Researcher, Ontario Civil Liberties Association, Member scientist, PANDA (Pandemics Data & Analysis), Retired former Full Professor of Physics, University of Ottawa (Scientist) (Canada)
Claudia Riempp, Psychologist and psychotherapist, expert in health education (Germany)
Rhys Rogers, BSc, Physiotherapy, 12 years experience as a frontline Physiotherapist (United Kingdom)
Dr Tred J Rissacher, DC, Chiropractor specialising in obesity and diabetes (USA)
Professor Simon Ruijsenaars, Professor in Mathematical Physics, School of Mathematics, University of Leeds (Scientist) (United Kingdom)
Dr Sam Saidi, MB ChB, BSc, FRCOG, PhD, Clinical Associate Professor, PhD in genomics from the university of Cambridge, University of Sydney (Medical Doctor and Scientist) (Australia)
Dr Pamela Shervanick, DO, Medical doctor and Doctor of Osteopathic Medicine, with specialization in Psychiatry (Medical Doctor) (USA)
Dr. Carol Taccetta, MD, FCAP (Fellow of the College of American Pathologists), Pharmaceutical Physician for over 25 years, specializing in drug safety (Medical Doctor and Scientist) (USA)
Dr Corinne Tilloy, General Practitioner, (Medical Doctor) (France)
Dr Gilbert Tominez, General Practitioner (Retired) (Medical Doctor) (France)

Professor Daniel de la Torre Llorente, Biology professor, with speciality in plant biology, Lecturer in biology, Biotechnology-Plant Biology Department Agronomic, Food and Biosystems Engineering School (ETSIAAB) Universidad Politécnica de Madrid (Scientist) (Spain)
Dr Jo Waller, UK State registered Biomedical Scientist since 1990 (Scientist) (United Kingdom)
Dr Maja Waibel, Dermatologist with specialty in Melanoma prevention (Medical Doctor) (Germany)
Dr Ronald Weigl, Gynecologist and General Practitioner (Medical Doctor) (Germany)
Dr Helen Westwood MBChB (Hons), MRCP, DCH, DRCOG, GP (Medical Doctor) (United Kingdom)
Dr Madhu Wickremaratchi, MBChB MRCP, Acute and General Medicine (United Kingdom)
Thomas Robin Wilks, MA BSc(Hons) FHEA CPhys MInstP, University Science Lecturer, Maths, Mathematical Modelling and Physics, Open University (Scientist) (United Kingdom)
Signatures of Colleagues in Allied Disciplines relating to Ethics and Human Rights
Dr Violeta Sotirova, MPhil, PhD, Lecturer in English (United Kingdom)
Uroš Siljanović, LL.M in EU Law (Faculty of Law, Economics and Management, University of Lorraine, Nancy and Faculty of Law University of Belgrade), Attorney-at-Law, Ph.D candidate in Constitutional Law at the Union University of Belgrade Law School, Scientific interests include Constitutional Law, Human Rights Law, Bioethics and Health Law (Serbia)

Here is the link to the above partial list of thousands of prominent doctors and scientists who have publicly stated their concerns regarding the lack of safety or efficacy of the injection.

To summarize, here is a checklist of questions to consider before you get this irreversible injection:

1. Will the shot prevent me from catching corona? (No. The manufacturer only claims that it will lessen the severity of symptoms.)
2. Will the shot keep me from being contagious to others? (No.)
3. Is the shot FDA-approved? (No. It only has EUA, Emergency Use Authorization.)
4. Has this shot gone through animal safety trials? (No.)
5. Has the shot gone through long-term human trials? (No. Every human being who gets it is part of the ongoing trial.)
6. Are the long-term effects known? (No. Only to G-d.)
7. Are people being properly informed of the known risks, such as ADE, blood clotting disorders, and autoimmune diseases, before being injected? (No.)
8. Is the mainstream media properly covering the risks of the shot and the post-injection injuries and deaths which are occurring? (No.)
9. Are most physicians and Rabbonim well acquainted with the risks of the injection? (No.)
10. Can this shot be “undone” once it is received? (No.)
11. Is this an experimental gene therapy? (Yes.)
12. Have thousands of deaths already been reported worldwide in just three months since the injections were rolled out? (Yes.)
13. Have many thousands of horrific injuries been reported post-injection, such as stroke, hemorrhage, blood clots, seizures, mental health disorders, chronic pain, miscarriage, and reproductive disorders? (Yes.)
14. Are many Rabbonim, scientists, and doctors who have deeply investigated the injections warning the public not to take the injections? (Yes.)
15. Are there alternative safe and effective preventions and treatments for corona? (Yes, Baruch Hashem.)

May Hashem open the eyes of the entire world and keep us all safe.
