

PLEASE HAVE MERCY ON RAV CHAIM SHLITA, AND HIS FAMILY

Recently, news sites have publicized very strange things, which any person who possesses an ounce of seichel should immediately recognize as impossible to have come from the mouth of a tzaddik. Yet, tragically, gullible people seem to believe the false propaganda, so we must correct the misinformation, for the sake of Rav Chaim Shlit"a, and for the safety of Klal Yisrael.

The following are the falsehoods that have been publicized: 1) That Rav Chaim said that all children 12 and up who didn't have corona should be vaccinated, 2) That Rav Chaim said that all teachers must be vaccinated, or their principals should fire them.

Using your own logic, how does it make sense that Rav Chaim, who usually says not to pay attention to doctors' worrying pronouncements and to simply increase davening and Torah study, now says to inject ALL HEALTHY children with a brand new medical treatment which has already caused myocarditis, blood clots, and death in so many young people, and whose long term effects are absolutely unknown – only to "protect" against a disease from which NOT ONE child died in Eretz Yisrael, and whose "protection" is very questionable, as Israelis are now being forced into a third shot?

Indeed, when we investigated closely on the ground, we discovered that Rav Chaim never said such a thing. A letter was prepared – supposedly from Rav Chaim's doctor – who was fed information by someone with an obvious financial agenda to get everyone vaccinated. This letter was placed in front of Rav Chaim and he said NOTHING. And from this, words were placed in the mouth of a tzaddik, false words that he did not say, which could chas veshalom have untold effects on Klal Yisrael.

We also know the following: A) Representatives of three organizations came to Rav Chaim, trying to get him to say that everyone should vaccinate, and he refused to say a word. B) Rav Chaim himself has NOT taken the shot. C) Rav Chaim Shlit"a is very weak and frail, and does not recognize his own children and grandchildren, save for two. It is IMPOSSIBLE that he has looked into this matter and rendered a ruling, as is being claimed. (If he did, where is the signed teshuva? Our mesora is NOT to pasken by video, nor by Ruach Hakodesh, on ANY matter in Halacha, let alone a question of sakanas nefashos. We have lost our bearings to even dream of such a thing! We must note that there IS a Beis Din which investigated the subject thoroughly, and that is the Beis Din of Rav Vosner in Bnei Brak. They heard testimony of doctors on both sides, and they came out with a p'sak warning very strongly about the dangers of the shot, and completely forbidding it for children. Indeed, as Rav Uri Sofer, who sat with them, stressed to us, it is criminal to be pushing this injection when there are medications to prevent and treat corona that are perfectly safe, and which are being suppressed.)

The idea that Rav Chaim would have issued a blanket ruling that all teachers – no matter their age, history, or condition – must vaccinate, is preposterous, and it is impossible that he would have instructed that breadwinners, among them almanos and yesomim, be summarily fired for refusing to inject themselves with an unknown substance.

Even the idea that Rav Chaim would issue any blanket rulings at all, binding on all Klal Yisrael, is mistaken, as Rav Moshe Feinstein zatzal explained that only the Sanhedrin in the lishkas hagazis has the authority to issue a ruling binding on the whole nation.

The scariest piece of this all is the video from Rebetzin Leah Kolodetzky, she should live and be well. The reason it's frightening is because it clearly shows that something is very wrong, and Rav Chaim's family is being threatened. Why? The Rebetzin gives the date of the video (Yud Alef Elul) and makes the claim that her father says that everyone should vaccinate, and that all ages and stages of people have already taken it AND EVERYONE IS FINE. But THERE IS AN AUDIO RECORDING FROM THE WEEK BEFORE, in the possession of many people, in which someone gravely injured by the shot came to the Rebetzin, and said, "I got the shot because you said it was safe, and now I cannot care for my family", and it was explained to her the horrible effects being suffered by so many others. This is not simply a recording of unknown veracity floating around. WE KNOW THE PEOPLE INVOLVED, AND THEY REALLY CAME AND SPOKE TO THE REBETZIN! The Rebetzin was visibly shaken, and at the end of the meeting, she promised not to tell people to vaccinate anymore...but then days later, she made this video! Therefore, it is certain that Rebetzin Kolodetzky is being forced to say things against her will. Who knows what horrible threats are being made against her, her father, and the whole family, by people with huge financial or other interests at stake?

An informed source in Eretz Yisrael told us that there are government agents stationed constantly at Rav Chaim's home, and that if anyone would manage to walk out with a recording of Rav Chaim saying NOT to get the shot, the person would be murdered. It is clear that Dr. Hardt and his family are under tremendous threat from the government as well, and are not free to speak as they wish. KLAL YISRAEL, WAKE UP! SOMETHING VERY WRONG AND DANGEROUS IS GOING ON! Daven for Rav Chaim Shlit"a, for his family, and for all of Klal Yisrael, as a terrible danger hovers over us, from those who seek to harm our nation! For verification of the information above, please call HaRav Uri Sofer, Dayan in Bnei Brak, at 011-97222-53-310-0170.
