The **SASSOVER REBBE** recently related that in 5740 he discussed an important medical issue with **RAV ELYASHIV zt"l** for two full hours. In the middle of the discussion Rav Elyashiv suddenly remarked; "How can one take *achrayus* to administer shots that have only been on the market a year or two? What will happen if after some time someone will become injured from it?" The Sassover Rebbe then stated: "This was said about a something that was on the market for a few years already, and it was used in half the world. Thousands of doctors worldwide were involved in [producing] it. [This was] not a brand new product that was produced by just a few companies. And about it he said: 'How is it possible to take *achrayus*? It is forbidden to take it *b'shum ofen ba'olam*.'"

Infertility Caused by Covid Vaccines is Not a Conspiracy Theory Any Longer

Early warnings about possible infertility issues from the Covid vaccine were called propaganda and conspiracy theories. Vaccine proponents said there was no biological way the Covid vaccines could affect fertility.

Now, Pfizer's data, recently released by the Japanese regulatory agency, shows the vaccine mRNA accumulating in the ovaries, raising new concerns about the Covid vaccines causing infertility.¹

DR. BYRAM BRIDLE, M.D., Associate Professor of Viral Immunology at the University of Guelph, Ontario, Canada, at whose request the Japanese agency released the data, stated: "With [the vaccine mRNA] accumulating in the ovaries... will we be rendering young people infertile?"²

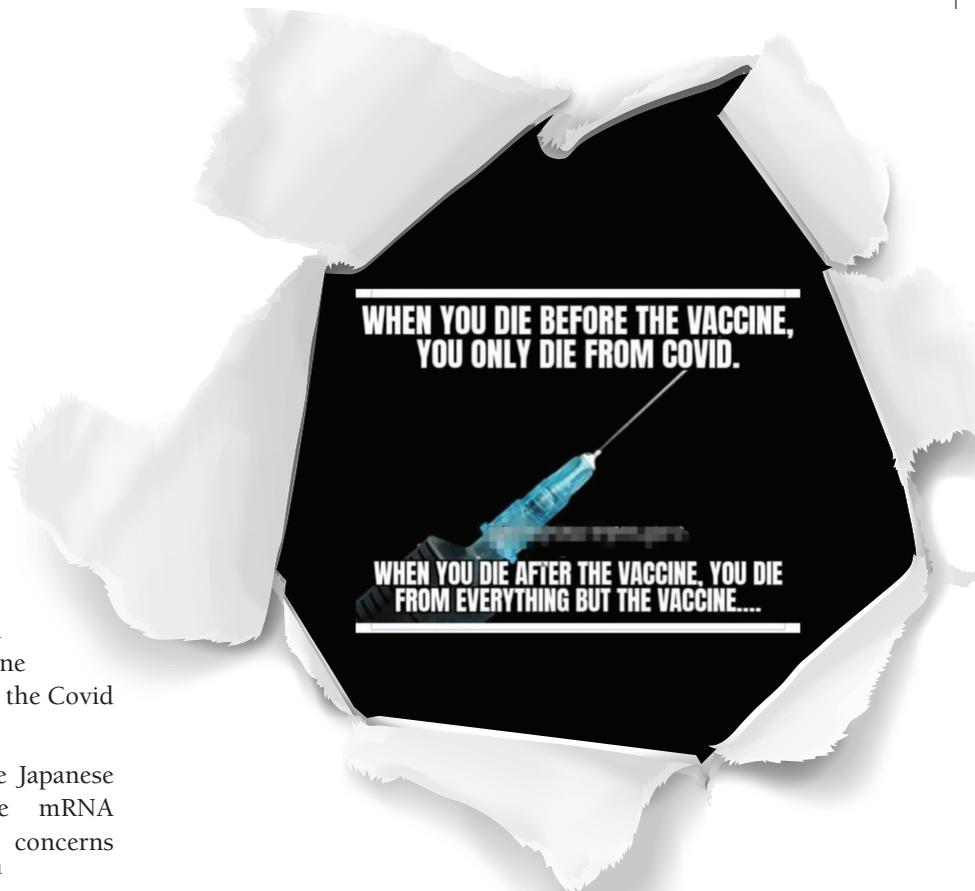

DR. ROBERT MALONE, M.D., M.S., Discoverer of in-vitro and in-vivo RNA transfection; inventor of mRNA vaccines: "We have concentration in ovarian tissue of a novel lipid reagent that is previously untested... we just don't know what that means... that's all about reproductive toxicity and potential consequences in terms of birth defects."³

Pregnancy

The CDC manipulates data to prove that covid vaccines are safe.

Here’s what their own data published in the New England Journal of Medicine⁸ really demonstrates:

104 of 127 women vaccinated in the first 20 weeks of pregnancy miscarried, a remarkable 82% spontaneous abortion rate!

We recently learned from a family member of the Rebbe of a large *chassidus* of 10,000 families in Eretz Yisroel, that from when the vaccine was rolled out for younger people earlier this year, the Rebbe has seen a drastic decrease of couples giving him the good news that they were expecting a *simcha*.

Then on March 8 the CDC announced...that they had reviewed about 1,600 deaths with unnamed FDA doctors and they indicated not a single death was related to the vaccine..I have chaired and participated in dozens of data safety monitoring boards and sat on those committees and I can tell you that this type of work would have taken many months to review all the labs, the death certificates and all the circumstances of an event. It is impossible for unnamed regulatory doctors without any experience with COVID-19 to opine that none of the deaths were related to the vaccine.”

25% OF NURSING HOME RESIDENTS DIE AFTER PFIZER VACCINE.

Several months ago, Reiner Fuellmich and Viviane Fischer, attorneys and founding members of the German Corona Investigative Committee, interviewed a whistleblower who worked as a caregiver in a Berlin nursing home, who describes what happened during and after the rollout of Pfizer's COVID vaccine at the facility where he worked. In the 40-minute video, the healthcare provider describes how 7 out of 31 nursing home residents with dementia died after being given the first dose of the Pfizer vaccine, with an eighth resident near death at the time of the interview. After the second dose, 11 more residents became seriously ill and one more died. In other words, a staggering 25% of the residents died immediately, and 36% were severely injured within a short time.

“Regarding the corona vaccine, the nature of the corona virus is still unknown, from where it originates, who it damages... It is therefore farfetched to think that they could possibly have figured it out with these vaccines. And many doctors in Eretz Yisroel and *Chutz La’aretz* came out against these vaccines. Far more than all the previous vaccines that were produced. And many *chashashos* have been written about it, particularly since the vaccines have not yet been fully tested. Some doctors even wrote that [administering the shot] is against the vaccine regulations, and it is forbidden to give it. And I conclude; as long as the benefit from them is not absolutely certain, and until the potential harm that they can cause is not ruled-out, and we receive answers from the doctors, one should distance himself from them.”

Covid Vaccines Weaken the Immune System

TOP SCIENTIST BEGS THE WORLD TO STOP THE COVID VACCINATION, WARNS OF A MASSIVE CATASTROPHE COMING.

He says they will leave you vulnerable to other strains and to other viruses in the coming years.¹⁷

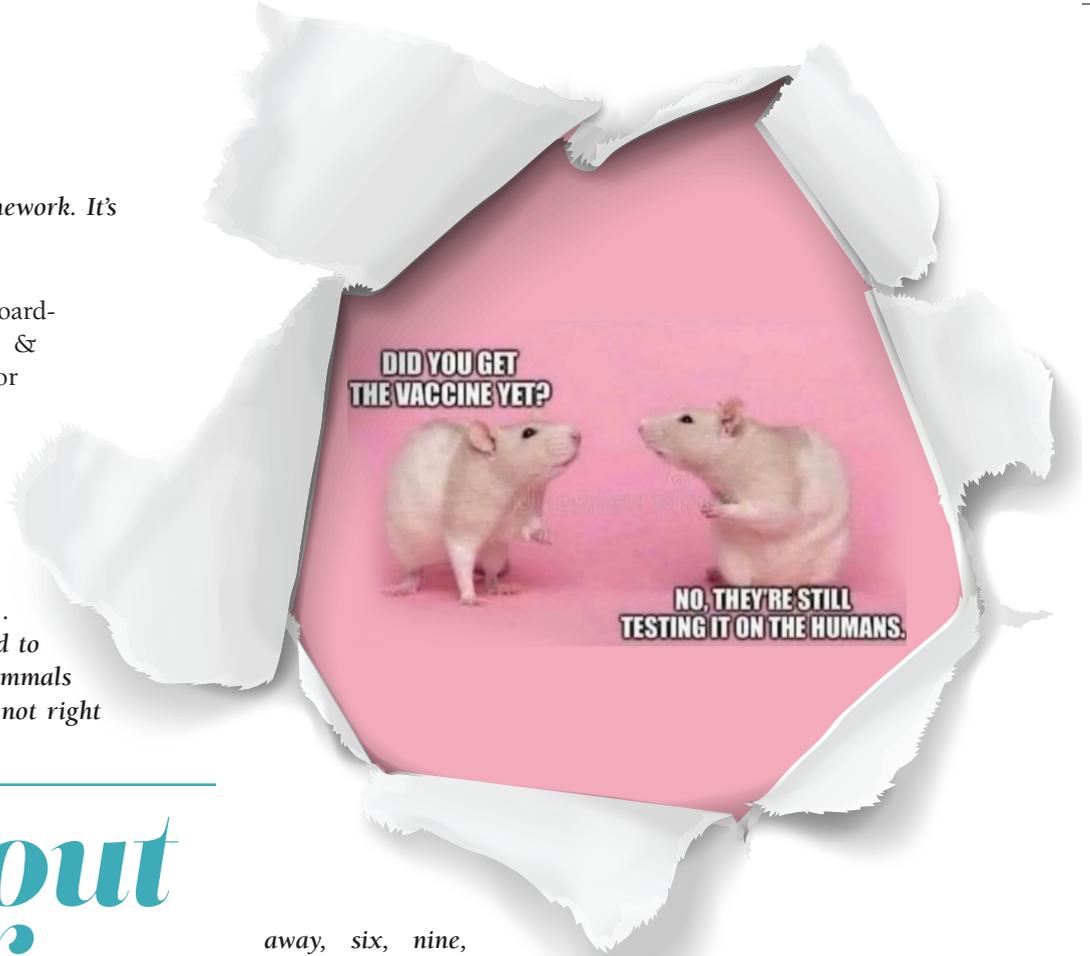

GEERT VANDEN BOSSCHE, a senior scientist and researcher at GSK, GAVI and The Gates Foundation, on the Covid Vaccine: *“You are losing your most precious part of your immune system that you can imagine - that is your innate immune system because the innate antibodies, natural antibodies, will be outcompeted by those antigen specific antibodies - for binding to the virus. You lose every protection against any viral variant or any coronavirus. You're left with no immune response. Your immunity has become nil. Your antibodies don't work anymore. And your innate immunity has become completely bypassed.*

“It's about the science. It's about humanity. Of course I'm passionate. It's about your children, your families, my family, everyone. It's simply for me I put everything

at stake because I've done my homework. It's simply a moral obligation."

DR. RYAN COLE, MD, Board-Certified Dermatopathologist (AP & CP) and the CEO/Medical Director of Cole Diagnostics, Garden City, Idaho: "Historically, what we're doing right now does not fall under the definition of a vaccine. They shifted the verbiage in some of the federal register back in October so they could approve this... MRNA trials in mammals have led to odd cancers. Fifty percent of healthcare providers are absolutely not getting this injection, and there's a reason. We don't trust the data...There were no independent observer groups looking at the data...The vaccines are an experiment on society."

It's forbidden to keep one's mouth closed from informing people what the need to know... A doctor who hasn't studied and investigated many, many years the subject of viruses – and not just that – a doctor who didn't study and research many years the components of vaccines and their effects, can't express his opinion on the topic of the vaccine. It's like an eye doctor or reflexologist that expresses his opinion on whether to do open heart surgery or not... The entire concept of asking a doctor is foolishness. All vaccines go through a minimum of 5 - 10 years of testing and experiments. This test barely passed 6 months of testing... and therefore the process of the tests and experiments etc., were all done using short-cuts...

The ISRAELI PEOPLE’S COMMITTEE, Report of Adverse Events Related to the Corona Vaccine, May 2021: “Never has a vaccine injured so many.” “While “Israel serves as a global model for nationwide vaccination” and “Pfizer has chosen us to be the experimental country,” the “silencing mechanisms of the health system regarding the vaccine’s adverse events...have created a situation whereby the Israeli [and international] public is almost completely unaware of the existence, nature and prevalence of [those] adverse events.”

GEERT VANDEN BOSSCHE, DVM, PHD, Vaccine Researcher, former Chief Scientific Officer (CSO) and Chief Innovation Officer (CIO) at UNIVAC NV: “Mass infection prevention and mass vaccination with leaky Covid-19 vaccines in the midst of the pandemic can only breed highly infectious variants.” “From all of the above, it’s becoming increasingly difficult to imagine how the consequences of the extensive and erroneous human intervention in this pandemic are not going to wipe out large parts of our human population. DR. CHARLES HOFFE:
“The cells that surround your blood vessels have to be very, very smooth in order to enable good and unimpeded flow of blood, but as soon you’ve got all these little spike proteins that become part of the cell wall, it’s now a ruff surface, so clotting is inevitable... I have now been recruiting [vaccinated] patients from my office, the study is ongoing, so far I’ve got 62% with microscopic clotting ... The so-called experts keep telling us that clots are rare. The big ones are rare, but the small ones are clearly happening in the majority of people. Now I’ll tell you what the real concern with this is. The clotted vessel is permanently damaged, that vessel never ever goes back to normal... The concern with that is that those people may develop right side heart failure within three years and die, because

they now have increased vascular resistance through their lungs, and lung, heart, brain and spinal tissue do not regenerate.

DR. VLADAMIR [ZEV] ZELENCO: “Fear is an extremely useful tool in manipulating the behavior of people. Natural Immunity is More Effective Than Vaccine Immunity.

"... Israelis who were vaccinated were 6.72 times more likely to get infected after the shot than after natural infection.

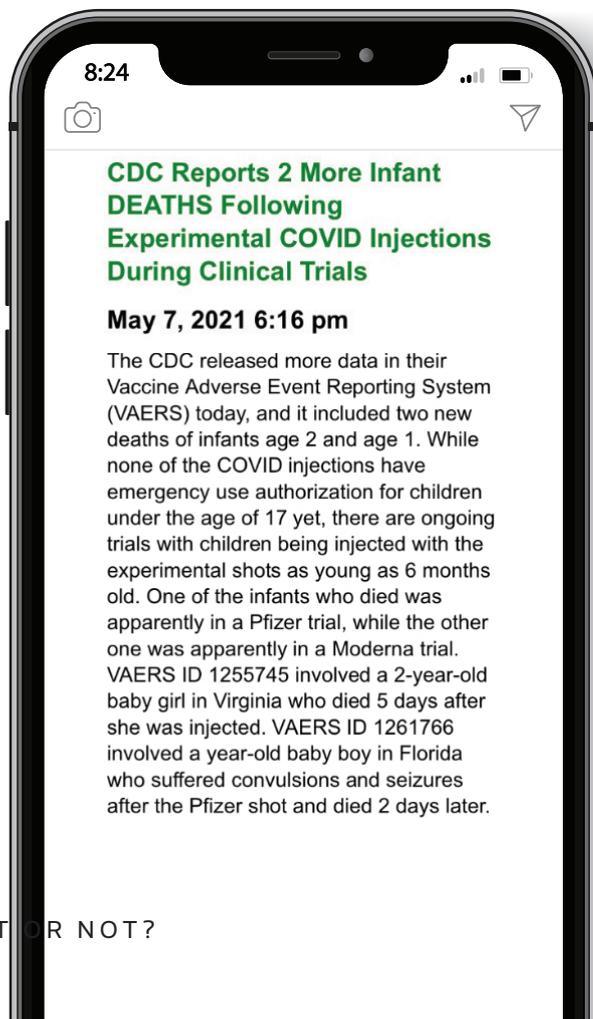

"With over 60% of their respective populations now fully vaccinated, Israel and the U.K. are perfect case studies demonstrating that vaccines are not playing the predominant role in slowing down the viral spread. If

you compare all of the European countries by recent cases per million to vaccination rates, you will find zero correlation, and in fact, eastern European countries with low vaccination rates seem to have fewer cases."¹⁸

DR. MICHAEL YEARDON, Biochemist and Pharmacologist, former Vice President and Chief Scientific Officer at Pfizer: *"Some clever person went in early January and found people who had been exposed to SARS in 2003. I now know what they were doing. They asked those people who had survived if they would volunteer to donate some blood. And they found that every single one of these people had striking T-cell immunity seventeen years later. It's probably going to be life-long. I think that's what's going to happen with SARS COV2... Antibodies are useful, I'd rather have them than not have them. But I tell you, if you had to settle for one thing, it would be T-cell immunity."*

Isn't gone enough for rigorous testing

DR. PETER MCCULLOUGH, in testimony before the Texas State Senate: “People who develop covid have complete and durable immunity. And a very important principle, You can’t beat natural immunity. You can’t vaccinate on top of it and make it better. There’s no scientific, clinical or safety rationale for ever vaccinating a recovered patient.”

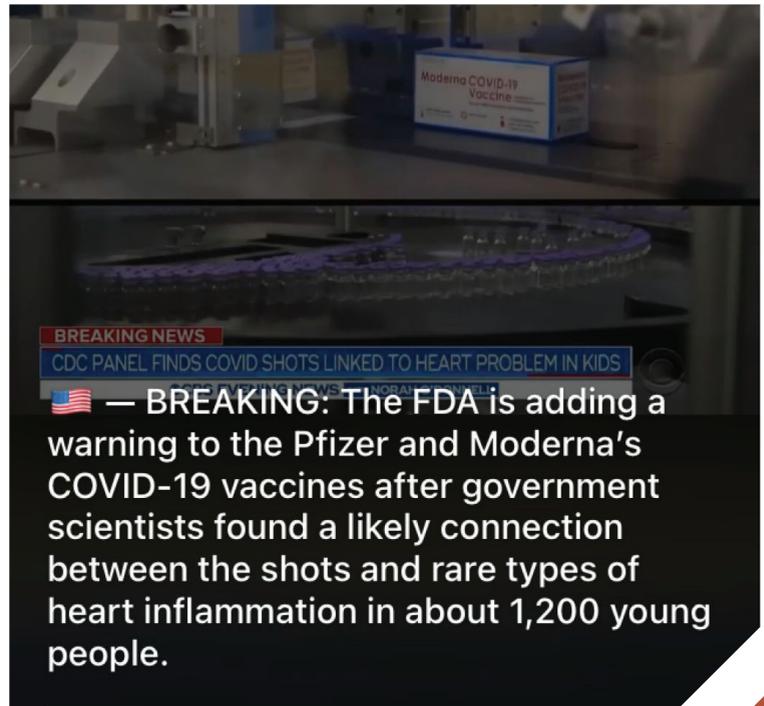

DR. VLADIMIR ZELENKO: “... If someone has antibodies — and there’s a plethora of evidence [showing] naturally produced antibodies are much more effective in clearing future viruses than vaccine-induced antibodies... Natural immunity is much better, more effective and safer, than vaccine-induced immunity. So, someone who has antibodies already from having COVID before, why would I vaccinate them? ...”

Doctors Warn Against Vaccinating Children

DR. PAUL ALEXANDER, former Health and Human Services [HHS] COVID Adviser, warns: “Do NOT give COVID shots to children!”

DR. A. CARMEL of Laniado Hospital [Netanyah] is sharply warning; “There will be parents who will go to the grave of their child, and they will think that he died from corona. Yet, truthfully, he died from the vaccine.”

93 PROMINENT DOCTORS in Israel signed a Letter against Vaccination of Children. We quote: “...The increasingly prevalent opinion within the scientific community is that the vaccine cannot lead to herd immunity. Therefore there

“The entire *matzav* had subsided and everything was on a good *matzav*. For people below age seventy they said the recovery rate was over 99.5 [for young people it was 99.997], and there was very little *sakanah*. All of a sudden now they are pushing the vaccine, not *stam*, I don’t remember in my lifetime such a huge push of propaganda non-stop to get people to take it. That itself should show you something is fishy, something’s wrong here. And they’re pushing it even on children. One of the biggest *chasdei Hashem* was that children were completely absent from the picture. Baruch Hashem children didn’t get it. Now they want to push the COVID vaccine on children. Why?”

Rabbi Yosef (grandson of Hacham Ovadia Yosef) in a Shiur:

“I retract, do not vaccinate.”

“But the rabbi said to vaccinate? “

“No, I retract. The situation is not good. They are hiding information from the *Tzibbur* from what is going on the field. It’s not simple. It is *poge’i’a* (damages) the arteries of the heart (*shirei haleiv*) in young people, in healthy people. It is irreparable. The doctors cannot stabilize it. And they do not tell the true facts.”

They are informing from the *Tzibbur*

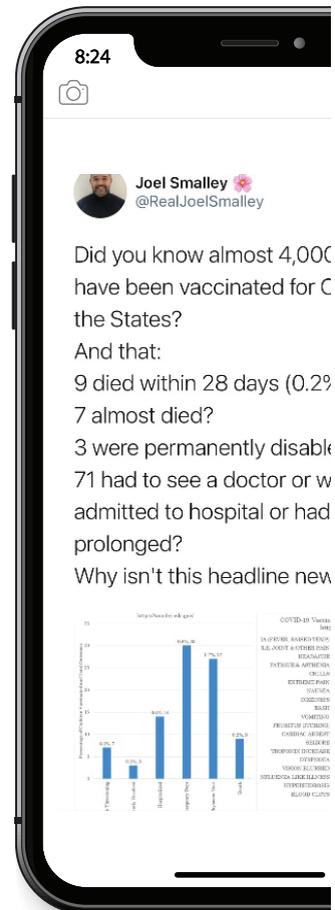

is currently no ‘altruistic’ justification for vaccinating children to protect at-risk populations... We believe that not even a handful of children should be endangered through mass vaccination against a disease that is not dangerous to them. Furthermore, it cannot be ruled out that the vaccine will have long-term adverse effects that have not yet been discovered at this time, including on growth, reproductive system, or fertility.”

From a letter written by DR. PINKY FEINSTEIN: “These are the facts; your children are not in danger at all from Corona. Your children are in danger from receiving this substance for their bodies. They may

suffer from lifelong disability, and there are question marks about impairment in their ability to produce offspring later on. Their heart may be damaged to the point of needing a heart transplant. They may suffer from large blood clots, impaired vision, hearing or breathing issues, and the onset of dormant diseases that their body could have prevented on its own. And this is a partial list. In the United States a number of teens also passed away after receiving this material.

“I advise you not to volunteer your children for this. I recommend that you watch over them and protect them so that in the future you will not have to explain to them what you will not be able to explain. When it comes to our children we do not take risks, right?... Once the injection is done, there is no turning back.”

DR. PETER MCCULLOUGH: “So my testimony as I said here today is: Covid-19 has always been a treatable illness. A very large study from McKinney Texas, another one from New York City show that when doctors treat patients early, who are over age 50 with medical problems, with a sequence multi-drug approach with the available drugs, uh, four to six drugs that are available to them, there’s an 85% reduction in hospitalization and death. 85%! 85%! I want you to remember that number 85%. We have over 500,000 deaths in the United States. The preventable fraction could have been as high as 85%, if our pandemic response would have been laser

6 Questions to Ask your Doctor about the Covid Injection

If your doctor is trying to convince you to take the shot, gently ask him these questions. It is your health on the line after all. Once taken, the effects of the shot are non-reversible.

How much time does a Doctor spend studying vaccines in Med. School?

(Usually about half a day)

If you would oppose this vaccine, would you tell people not to get it?

(Or would you lose your job, be ostracized, called Anti-vax?)

Did you go through the studies yourself?

(Usually you'll get a no.)

I had Covid. Don't I have Anti-bodies? How long do they last? And will the Anti-bodies from the shot last longer?

(Good question, but take it anyhow because....)

Who was and who was not included in the vaccine trials?

What happened to the animals in trials of previously tested Coronavirus vaccines when they were exposed to the virus after building up Anti-bodies?

(The cats all died.)

תהי סורה

Translation of a letter written on the 21st of Sivan, by Hagaon Rav Yosef Binyamin Vosner shlita, Rosh Yeshivas Chachmei Lublin, Rav of the Zichron Meir neighborhood in Bnei Brak, and grandson of the Shevet Halevi.

[In response] to the inquiry of many in our community

In light of the discussions and proposal to vaccinate children age twelve and up, I present to you very briefly what I has recently become additionally clear to me in the last few months. [In addition to what we spoke Thursday night Parshas Vayigash (Translator's note; it can be heard on Kol Hachaim 718-223-5535, press 1, 2).]

Following many long hours of gathering a massive amount of testimony concerning vaccine-related injuries and the vaccine's effect, both positive and negative, whereas on one hand the sickness has almost completely stopped, and the authorities attribute this to the vaccines. And on the other hand, we are seeing all different types of side-effects [that have occurred] to men and women **in all ages**; deaths, body injuries at varying levels of severity, and varying severe levels of psychological harm, Hashem *yerachem*.

The above-mentioned testimonies were heard first-hand from senior doctors, veteran MDA and Hatzalah personnel, including an extremely veteran paramedic. During all the testimonies there were also present well-known doctors, who absolutely recommend the vaccines and were themselves vaccinated, as well as official documents and data that were publicized by various government ministries.

My conclusion is based **solely** on testimony, as per Torah law, obviously with the necessary evidence and scrutiny. [**All this is**] **without my taking into account** the predictions cited by various doctors and studies, both in Eretz Yisroel and the rest of the world, which foresee severe future side effects, may Hashem have mercy and watch over *kol* Beis Yisroel, rather, everything is based only upon the present facts.

And with [the required] combination of prudence and responsibility, [as well as] delving properly into the topic, we have BS"D come to the following conclusion;

1) As per the reasoning of my grandfather *zatzal* in his Sefer Shevet Halevi, the categorization of damages resulting from vaccines is one of 'Me'ut Hamatzuy' [a significant minority], which according to Halacha one is obligated to take into consideration. Therefore, under no circumstances and by any means should one coerce someone into getting the vaccine.

2) Those who have recovered from corona should be especially careful not to take the vaccine, because the danger [of negative reactions] is more common *ch"v* [in such people].

3) *Al pi* Torah it is an *issur gamur v'chamur* to permit [to], assist [in], or administer the vaccine for children. Whoever is capable of preventing this effort is required to do so, as it states "*lo saamod al dam rayecha*", and he will thus attain many *zechusim*.

And in conclusion we ask from everyone to increase in Tefillah and Tachanunim that Hakodosh Baruch Hu watch *amo* Beis Yisroel from all trouble and sorrow, and from all plague and sickness, and may we soon merit witnessing the salvation of Hashem and the raising of the glory of the Torah and Yisroel.

Your friend who is concerned and crying out for you; who has pity on yourself and your children.

לשאלת רבים מבני קהלתנו הק'

לאור הדיבורים וההתארגנות לחסן גם ילדים מגיל 12 הנני מעלה לפניכם בתכלית הקיצור מה שבחודשים האחרונים נוסף אצלי לבהירות הדברים [בנוסף לדברים שאמרנו בהאי שתא ליל שישי פרשת ויגש] -

אחר 'שעות רבות' וארוכות של גביית 'המוני' עדויות בגין נזקי החיסונים והשפעתן החיובית והשלילית, כאשר מצד אחד כמעט שנעצרה התחלואה לחלוטין והרשויות תולות זאת בחיסונים, ומאידך תופעות לוואי שונות ומשונות לאנשים ונשים 'בכל הגילים', הן בגרימת מות, הן בנזקים גופניים בדרגות 'חמורות' שונות, והן בפגיעות נפשיות 'חמורות' בכל מיני דרגות, ה' ירחם.

העדויות הנ"ל הושמעו לפנינו ע"י רופאים בכירים, כונני מד"א והצלה וותיקים, וביניהם פאראמד"ק וותיק ביותר, כאשר במשך גביית 'כל' העדויות ישבו לשולחן אחד גם רופאים ידועים שהם בהחלט 'ממליצים' על החיסונים ובעצמם התחסנו - לצד פרוטוקלים ונתונים רשמיים שהתפרסמו ע"י משרדי ממשלה שונים.

המסקנה שלי בנויה אך ורק על פי 'עדות' בלבד כדת של תורה, כמובן עם ההוכחות הנדרשות, והחקירות הנדרשות, אף שלא לקחתי בחשבון את התחזיות האמורות על ידי רופאים ומחקרים שונים בארץ ישראל ובעולם כולו, הצופים תופעות לוואי חמורות בעתיד, ה' ירחם וישמור את כל בית ישראל, רק הכל בנוי על המציאות 'בהוה' בלבד.

ומתוך זהירות ואחריות מורכבת - העמקה והעיון הנדרשת - עלתה בידינו המסקנה בס"ד כדלהלן:

- א. עפ"י דעת מו"ז מרן רבינו זצ"ל בשר"ת שבט הלוי, הגדרת נזקי החיסונים הם בגדר 'מיעוט המצוי', אשר על פי הלכה חייבים להתייחס ולחוש לזה, על כן בשום פנים ואופן ובכל דרך שהיא אין לכפות על אף אחד שילך לקבל את החיסון.
- ב. אלו שהחלימו מקורונה יזהרו במיוחד מלקחת את החיסון כי הסכנה מצויה יותר ח"ו.
- ג. על פי התורה איסור גמור וחמור להסכים, לסייע, לתת חיסון לילדים, וכל מי שבידו למנוע צעד זה 'חייב' לעשות כן משום 'לא תעמוד על דם רעך', וזכויות רבות תלויות בו.

ולסיום נבקש מכל אחד ואחד שירבה בתפילה ובתחנונים שהקב"ה ישמור את עמו בית ישראל מכל צרה וצוקה ומכל נגע ומחלה, ונזכה במהרה לראות בישועת ה' והתרוממות קרן התורה וישראל.
