

Recording of May 1 presentation of Professor Leonard Sonnenschein's protocol Baruch Hashem, we heard testimonials directly from patients about life threatening illnesses they were helped with. This is amazing.

Here is the zoom recording (must put in the passcode below the link):

Note: There is a tznius alert for men during one of the testimonials.

Summary: In addition to the presentations by the Esther Black, Leonard Sonnenschein, and Dr. Ephraim Ben Zeev about good health, the mechanism of action of the products, etc, there were powerful testimonials from patients. It's amazing- these products have helped people with many things that are usually virtually death sentences. After the testimonials, Q and A went on for hours. Among the illnesses that have been helped are: ALS, liver cancer, glioblastoma, heart damage, melanoma, schizophrenia, dementia, epilepsy after the flu shot, facial tics, macular degeneration, Lyme, EBV, asthma, and so much more. Also, covid- even at very late stage where hope was lost, "long covid", and **COVID VAX INJURIES, including those to the reproductive system, blindness and tinnitus from the COVID shot, and much more.**

People are asking how to get the products. While two of the products are indeed available on Amazon, (here are

links: https://www.amazon.com/dp/B09WRW6HBH?ref=myi_title_dp and https://www.amazon.com/dp/B09WRSC5FC?ref=myi_title_dp), **for any condition that isn't very simple, or if one doesn't experience very quick improvement, please make sure to consult with Dr. Ephraim Ben Zeev. There is an entire protocol (much more than the 2 products you can get on Amazon), and it needs to be modified to the individual case and have qualified follow up in order to work properly.**

Here is Dr. Ben Zeev's email: ebzmd@pm.me. Phone number: +972 52-3863981. Here is his American number in Eretz Yisroel: (470) 809-9162.

(Dr. Ben Zeev is the physician helping people with the protocol, but obviously it will be too much for one doctor. They are seeking more doctors who would like to get trained in to be able to help people with using the protocol. Be'ezras Hashem there will be a zoom training session for healthcare practitioners. To register for the training, please email 0061300a@gmail.com.)
