

FDA Proposes Poison Shots for Babies

I just got a call from James Roguski, who is alerting everyone about the scheduled FDA meetings to consider authorizing the use of Pfizer and Moderna injections in babies as young as 6 months.

(<https://jamesroguski.substack.com/p/oppose-the-fraud>)

He wanted us to know about two important opportunities/deadlines. Please read until the end because the second one is particularly significant.

1) Tonight at midnight is the deadline to submit comments which will be given to the FDA committee for consideration.

See <https://www.federalregister.gov/documents/2022/05/31/2022-11669/vaccines-and-related-biological-products-advisory-committee-notice-of-meeting-establishment-of-a>

“FDA is establishing a docket for public comment on this meeting. The docket number is FDA-2022-N-0904. The docket will close on June 13, 2022. Submit either electronic or written comments on this public meeting by June 13, 2022. The

<https://www.regulations.gov>

electronic filing system will accept comments until 11:59 p.m. ET at the end of June 13, 2022.

*Comments received on or before June 7, 2022, will be provided to the committee. Comments received after June 7, 2022, and by June 13, 2022, will be taken into consideration by FDA.”

2) Any of us can actually request a speaking slot at the FDA meeting (no guarantee that we will get it, but we can try!)

The deadline is tomorrow, June 8, at 6 PM ET. See this information copied from FDA site linked above:

“Oral presentations from the public will be scheduled approximately between 1 p.m. and 2 p.m. ET on June 14, 2022, and approximately between 1 p.m. and 2 p.m. ET on June 15, 2022. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate date and time requested to make their presentation on or before 6 p.m. ET on June 8, 2022. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by June 10, 2022.”

*To request a speaking slot, contact Prabhakara Atreya or Sussan Paydar, Center for Biologics Evaluation and Research, Food and Drug Administration via email at CBERVRBPAC@fda.hhs.gov.

*If we can try to have many community members and leaders voice their opposition at the meeting to these shots for babies and kids, perhaps Hashem will cause our efforts to bear fruit. Let's try, for the sake of His creations.
