Due to the credible threat that another “pandemic” is afoot, chas veshalom, we see an immediate need to bring lifesaving information to the public, before the media reaches them with misinformation.

The “tabletop exercise” in which they seem to have planned the monkeypox gives June 5, 2022 as the date of their next move. Their May 15 attack date, (published 14 months ago), has already materialized, as on that day 4 monkeypox cases were reported to the WHO.

Yes, they do, strangely, proclaim their plans in advance.

See entire document here: [https://www.nti.org/wp-content/uploads/2021/11/NTI\\_Paper\\_BIO-TTX\\_Final.pdf](https://www.nti.org/wp-content/uploads/2021/11/NTI_Paper_BIO-TTX_Final.pdf)

(Note, this exercise was funded by Dustin Moskovitz, the same one who funded the covid planning exercise, Event 201, held in October 2019.)

Please note that while in the past, monkeypox was confined to people who were leading a lifestyle of to'eiva, it appears likely that they have performed gain-of-function changes to it in order to make it more transmissible, and it has

already been seen among others.

Therefore, even though it's an extremely busy week with Shavuot approaching, it seems critical to have this educational event now.

The message we want to convey is: What could you have done differently in Winter/Spring 2020, if you had known then what you know now?

My strong belief is that we could have 1) davened harder, if we would have known how bad things would get, 2) not cooperated with masking, 3) not gone for testing and thereby handed them their case numbers, 4) not locked down our shuls, schools, and businesses, 5) not gone to the hospital when ill, where so many died needlessly, but treated early at home.

If we would have known enough to daven more, maybe we could have been saved. If there would have been mass awareness and lack of cooperation, they would not have been able to do what they did. **If treatment would have been widely known and available, think of the lives that could have been saved.**

**I believe that if back then, we could have given those people who still currently do not see the government lies, the CORRECT information BEFORE the government and entire establishment fed them with the FALSE narrative, they would have been much more able to see the truth.**

**Now is the chance for a redo.**

Of course, whatever already happened was Hashem's will, including our lack of awareness at the time.

However, now it's our job to try our best to save lives this time around, and make their next pandemic spectacularly UNSUCCESSFUL.

So, please join us Be'ezras Hashem on Thursday evening, and please spread this message to your friends.

Please help me by sponsoring this event to whatever extent you are possibly able.

I currently owe about \$17,000 for ads etc.

I can't stop as long as there are people to save and Hashem gives me the ability.

You can donate at [tinyurl.com/DonateUJCC](https://tinyurl.com/DonateUJCC).

Thank you.
