Some people may already be aware that mandates seem to be starting again. Fears of a "new variant"

are being spread to justify these measures. Many institutions have begun requiring masks, one senior center I have been told of is **disallowing visitors**, and Biden spoke of a brand new covid vaccine that he wants to **force EVERYONE** to take, whether or not they've been vaccinated before.

We know from last time that they start slow and soft, with phrases like "2 weeks flatten the curve" - but it's all one big lie and fraud, and before we knew it, we were trapped. Let's NOT let them get away with that playbook this time around.

People will always be getting sick, and the government can justify totalitarian control tactics indefinitely. CONTROL over the population is the GOAL, and chas veshalom, if they have their way, it will get very, very bad.

Will people wake up now and realize that there are very evil ulterior motives, and that cooperation in any way with the orders will spell disaster?

This can be compared with the beginning of the shibud in Mitzrayim - by going along with the government in the beginning, we enabled their plan to succeed, and it was too late to back out afterwards. We were caught in their net.

For example, the plan is to do away with private vehicles, drastically limit the ability to purchase meat and milk, have constant surveillance over the entire population and complete control over what we may or may not buy, by means of universal digital ID linked to digital currency. Their plans are much worse than that, even. These details are not theoretical. They are published, for anyone who cares to look. The "sustainable development goals" can be found on the sites of the UN and other organizations. They are supposedly "for the benefit of the planet," etc.

Be'ezras Hashem, the extremely important zoom conference tomorrow will help inform us of what can be done. Rabbi Jonathan Rietti will speak about the power of Tefilla and Emuna.

AWARENESS of the truth is key in order to KNOW how much we need to daven and do Teshuva.

Then, Dr. Peter McCullough MD, psychiatrist Dr. Mark McDonald, and other experts will help connect the dots and motivate the tzibbur to resist this time around, for the sake of our very lives and communities.
